Virtual public meeting set Jan. 27 for Hwy 30 repaving project in Ellendale

ELLENDALE, Minn. – The Minnesota Department of Transportation invites the public to attend a virtual public meeting Wednesday, Jan. 27, 2021, to learn about a planned project to repave Hwy 30.

The online meeting begins at 6 p.m. and lasts approximately one hour. Members of the project management team will provide a presentation followed by a question and answer session. Attendees can [join the meeting online](#) or participate by phone. A meeting link, phone number and other information are listed on the [Hwy 30 Repaving](#) project website. To prevent the further spread of COVID-19, MnDOT has indefinitely postponed all in-person public events. The event will be recorded and posted to the project website for those unable to attend.

This project will repave Hwy 30 from approximately .25 miles west of Ellendale to 1 mile east of Steele County Road 45. Work includes the replacement of four culverts, realignment of the Hwy 30 and 8th Ave E intersection and sidewalk improvements. Construction is scheduled to begin this summer.

People can stay connected with the project by signing up for [email updates](#) and through the [project website](#). Information will also be shared on the [MnDOT | Southeast Minnesota Facebook group](#) and the [MnDOT District 6 Twitter](#) account.

MnDOT invites and encourages participation by all. If you need an ASL, a foreign language interpreter, or other reasonable accommodation, or need documents in an alternative format (such as braille or large print), please email your request to Janet Miller at ADArequest.dot@state.mn.us or call 651-366-4720.
