(A) All ordinances of a permanent and general nature of the city, as revised, codified, rearranged, renumbered, and consolidated into component codes, titles, chapters, and sections, shall be known and designated as the "city code," for which designation "code of ordinances," "codified ordinances," or "code" may be substituted. Code title, chapter, and section headings do not constitute any part of the law as contained in the code.

(B) All references to codes, titles, chapters, and sections are to the components of the code unless otherwise specified. Any component code may be referred to and cited by its name, such as the "traffic code." Sections may be referred to and cited by the designation "§" followed by the number, such as "§ 10.01." Headings and captions used in this code other than the title, chapter, and section numbers are employed for reference purposes only and shall not be deemed a part of the text of any section.

§ 10.02 RULES OF INTERPRETATION.

(A) *Generally.* Unless otherwise provided herein, or by law or implication required, the same rules of construction, definition, and application shall govern the interpretation of this code as those governing the interpretation of state law.

(B) *Specific rules of interpretation.* The construction of all ordinances of this city shall be by the following rules, unless that construction is plainly repugnant to the intent of the legislative body or of the context of the same ordinance.

(a) **AND or OR.** Either conjunction shall include the other as if written "and/or," whenever the context requires.

(2) *Acts by assistants.* When a statute, code provision, or ordinance requires an act to be done which, by law, an agent or deputy as well may do as the principal, that requisition shall be satisfied by the performance of the act by an authorized agent or deputy.

(3) *Gender; singular and plural; tenses.* Words denoting the masculine gender shall be deemed to include the feminine and neuter genders; words in the singular shall include the plural, and words in the plural shall include the singular; and the use of a verb in the present tense shall include the future, if applicable.

(4) *General term.* A general term following specific enumeration of terms is not to be limited to the class enumerated unless expressly so limited.

§ 10.03 APPLICATION TO FUTURE ORDINANCES.

The liabilities, proceedings, and rights are continued; punishments, penalties, or forfeitures shall be enforced and imposed as if this code had not been enacted. In particular, any agreement granting permission to utilize highway rights-of-way; contracts entered into or franchises granted; the acceptance, establishment, or vacation of any highway; and the election of corporate officers shall remain valid in all respects, as if this code had not been enacted.

It is the intention of the City Council that, when adopting this code, all future amendments to any state or federal rules and statutes adopted by reference in this code or referenced in this code are hereby adopted by reference or referenced as if they had been in existence at the time this code was adopted, unless there is clear intention expressed in the code to the contrary.

§ 10.90 ESTABLISHMENT OF REMEDIES TO ENFORCE THE ELLENDALE CITY CODE.

(A) *Purpose.* The purpose of this Section is to provide the public and the City of Ellendale with a comprehensive set of remedies for enforcing the provisions of the Ellendale City Code. The city finds that the availability of such alternatives will have the effect of reducing nuisance and zoning violations within the city, will facilitate compliance with the provisions of this Code, will avoid unnecessary delay in the enforcement of the Code, and will provide the city's officials with an effective enforcement tool.

(B) *Misdemeanor.* Any person who violates any of the provisions of the Ellendale City Code shall be guilty of a misdemeanor and upon conviction thereof shall be punishable in accordance with Minnesota law.

(C) *Injunction.* The City may seek and shall have available to it the remedy of obtaining a temporary restraining order or a temporary or permanent injunction to enjoin a violation of any provision of the Ellendale City Code. In the event that the City successfully obtains a temporary restraining order or a temporary or permanent injunction, the person so restrained or enjoined shall be responsible for all costs and expenses incurred by the City, including court costs and reasonable attorney's fees, to seek the restraining order or injunction, and include any costs and expenses incurred by the City to enforce a court order.

(D) *Administrative Fine.* An administrative fine may be imposed by the City upon a violation of any provision of the Ellendale City Code. The imposition of an administrative fine is not a crime. (E) *Procedure for Imposition of Administrative Fine.*

(1) *City Administrator Defined.* For purposes of this subdivision, "City Administrator" shall be defined as the duly appointed city administrator for the City, or in the absence of a city administrator, a person duly appointed by the Ellendale City Council to issue administrative fines.

(2) *Demand for Corrective Action.* Depending upon the severity of the violation and necessity for immediate action, the City Administrator may serve on the violator a demand for corrective action. The demand may be presented in person or by U.S. mail to the person's last known address. The demand shall state the date, time, and nature of the violation, the name of the official issuing the demand, the corrective action required, and the amount of an administrative fine if the violation is not corrected within the time specified in the demand. Nothing herein shall be interpreted to require that a demand be sent prior to issuing an administrative fine or utilizing any other remedy available to the City under this Section.

(3) *Imposition of Administrative Fine.* Upon the reasonable belief that a violation of the Ellendale City Code has occurred, the City Council may impose an administrative fine upon the person responsible for the violation by issuance of an administrative citation.

(4) *Issuance of Administrative Citation.* An administrative fine shall be imposed through service of an administrative citation. The administrative citation shall state the date, time, and nature of the violation, the name of the official issuing that the citation, the amount of the administrative fine, the manner and requirements for paying the fine, and the procedure for appealing the fine. The administrative citation shall be served upon the violator in person, by US mail at the person's last known address, or in the case of a vehicular violation, by attaching the administrative citation to the vehicle.

(5) *Procedure to Appeal Administrative Citation.* A person upon whom an administrative citation has been served shall have the right to appeal the administrative citation to the Ellendale City Council according to the following procedure:

(a) *Request for Appeal.* In order to invoke the appeal process, the person upon whom an administrative citation has been served shall request an appeal of the administrative citation no later than 10 days following the date of the administrative citation by delivering a written request for appeal to Ellendale City Hall. Said request for an appeal shall be timely if delivered in person to Ellendale City Hall or, if delivered by US mail, the notice is postmarked no later than 10 days following the date of the administrative citation.

Ellendale – General Provisions

(b) *Hearing on Appeal.* Upon timely receipt of a request for appeal, the city shall set a time and date of a hearing before the Ellendale City Council and shall provide notice of said hearing to the person upon who the administrative citation was served. At said hearing, the person upon whom the administrative citation was served shall have the right to be heard relating to the alleged violation. Upon consideration of all the information presented, the Ellendale City Council shall have full authority to affirm the administrative citation, remove the administrative citation, or condition the administrative citation upon such compliance or corrective action as the City Council deems just and reasonable.

(6) *Repeat Violations.* Repeat violations, or a failure to cure a violation after an administrative citation has been administered, may result in an additional enhanced fine. A failure to cure a violation shall be defined as a failure to take appropriate corrective action within 30 days of issuance of an administrative citation. A repeat violation shall be defined as two or more similar violations within a 12 month period. The amount of an enhanced fine shall be determined by the City Council and shall not exceed five times the amount of the original fine. Needs formatting

(7) *Collection of Administrative Fines.* The city clerk is hereby authorized to utilize all methods available under Minnesota law to collect administrative fines. The violator shall be responsible for all costs of collection, including but not limited to the cost of utilizing a collection agency and reasonable attorney's fees incurred in the collection of the administrative fines. Needs formatting

(8) *Assessment of Administrative Fines.* Administrative fines may be assessed according to the following criteria and procedures.

(a) *Properties Subject to Assessment.* To the extent that an administrative fine has been issued (1) due to the existence of a zoning violation, (2) due to the existence of a nuisance, (3) for the purpose of accomplishing the removal of snow, ice, or rubbish from a sidewalk, (4) for the purpose of eliminating weeds from private property, (5) to remove or eliminate a public health or safety hazard from private property, or (6) due to the reinspection of private property which finds a noncompliance after the due date for compliance with an order to correct a municipal housing code violation, an unpaid administrative fine may be assessed against:

(1) Property which was the subject matter or related to the subject matter of the administrative fine; or

(2) Property which was the location of an activity, proposed use, delivery of city services or other circumstance which resulted in the administrative fine.

(b) *Prior Voluntary Payment.* Prior to any assessment for unpaid fines, the City shall seek voluntary payment of the fine by notifying the owner of the property in writing of the fine imposed and the intent of the City to assess the property. The property owner shall be given written notice of the proposed assessment and shall be provided an opportunity to be heard before the City Council.

(c) *Assessment Charge for Assessment.* An assessment charge as established by the

city's master fee schedule shall be due upon certification of the assessment.

(d) *Assessment Procedure.* The City shall follow the procedures set forth in Minnesota Statutes Chapter 429 in assessing the property in the manner of a special assessment. The amount assessed shall include the amount of the unpaid administrative fine and assessment charge. The amounts shall be certified to the Steele County auditor against said lot or parcel of land and shall be collected in the same manner as taxes and/or special assessments against the premises. The charge shall be a perpetual lien on the premises until paid. The entire amount of the fine shall be collected in the year following certification of the assessment.

(9) *Disposition of Fines.* All administrative fines collected pursuant to this Section shall be paid to the City of Ellendale and deposited into the general fund.

(10) *Administrative Fines Designated.* Administrative fines shall be designated in the City's Fee Schedule, as updated from time to time by resolution of the City Council.

(F) The remedies to the City set forth herein shall be cumulative. The City, in its sole discretion, may apply one or more remedies. Nothing herein shall prevent the City from taking any other lawful action as it deems necessary to prevent or remedy any violation, including appropriate actions in district court."

§ 10.99 GENERAL PENALTY.

(A) Any person, firm, or corporation who violates any provision of this code for which another penalty is not specifically provided shall, upon conviction, be guilty of a misdemeanor. The penalty which may be imposed for any crime which is a misdemeanor under this code, including Minnesota Statutes specifically adopted by reference, shall be a sentence of not more than 90 days or a fine of not more than \$1,000, or both.

(B) Any person, firm, or corporation who violates any provision of this code, including Minnesota Statutes specifically adopted by reference, which is designated to be a petty misdemeanor shall, upon conviction, be guilty of a petty misdemeanor. The penalty which may be imposed for any petty offense which is a petty misdemeanor shall be a sentence of a fine of not more than \$300.

(C) In either the case of a misdemeanor or a petty misdemeanor, the costs of prosecution may be added. A separate offense shall be deemed committed upon each day during which a violation occurs or continues.

(D) The failure of any officer or employee of the city to perform any official duty imposed by this code shall not subject the officer or employee to the penalty imposed for a violation.

(C) *Classes.* There shall be two classes of building sewer permits: one for residential and commercial service, and one for service to establishments producing industrial wastes. In either case, the application shall be supplemented by any plans, specifications or any other information considered pertinent in the judgment of the city. The industry, as a condition of permit

authorization, must provide information describing its wastewater constituents, characteristics and type of activity.

Penalty, see § 50.999

§ 50.057 COSTS AND EXPENSES.

All costs and expenses incidental to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may be directly or indirectly occasioned by the installation of the building sewer.

Penalty, see § 50.999

§ 50.058 SEPARATE BUILDING SEWERS REQUIRED.

A separate and independent building sewer shall be provided for every building, except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard or driveway. The building sewer from the front building may be extended to the rear building and the whole considered one building sewer. The city does not and will not assume any obligation or responsibility for damage caused by or resulting from any connection.

Penalty, see § 50.999

§ 50.059 OLD BUILDING SEWERS; RESTRICTIONS ON USE.

Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Utilities Superintendent or his or her representative, to meet all requirements of this chapter.

§ 50.060 CONFORMANCE TO STATE BUILDING AND PLUMBING CODE REQUIREMENTS.

(A) The size, slopes, alignment, materials of construction of building sewers and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling of the trench, shall all conform to the requirements of the State Building and Plumbing Code or other applicable rules and regulations of the city.

(B) The connection of the building sewer into the public sewer shall conform to the requirements of the State Building and Plumbing Code or other applicable rules and regulations of the city. All connections shall be made gas tight and water tight, and verified by proper testing to prevent the inclusion of infiltration/inflow. Any deviation from the prescribed procedures and materials must be approved by the city prior to installation.

Penalty, see § 50.999

§ 50.061 ELEVATION BELOW BASEMENT FLOOR.

Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by the building drain shall be lifted by an approved means and discharged to the building sewer.

Penalty, see § 50.999

§ 50.062 SURFACE RUNOFF OR GROUNDWATER CONNECTIONS PROHIBITED.

Surface runoff and groundwater connections shall be governed by the following provisions:

(A) *Purpose.* The City Council finds that the discharge of water from natural precipitation, surface runoff or groundwater into the City sanitary sewage system has the potential to flood and overload the sanitary sewage system to such an extent as to cause significant and grave damage to the waste treatment plant and sanitary sewer trunk system. In addition, said discharges have the potential to cause backups on private properties and pressure damage to trunk lines. The City Council, therefore, finds it essential to the minimization of damage to property that the provisions of this ordinance be strictly enforced to avoid emergencies in the future.

(B) *Prohibition against discharges into sanitary sewer system.* No water from any roof, surface, groundwater, sump pump, footing tile, swimming pool, downspout, foundation drain, areaway drain, or other source of natural precipitation, surface runoff or groundwater shall be discharged into the sanitary sewer system.

(C) *Permanent Discharge Line Required.* Dwellings and other buildings and structures which require, because of infiltration of water into basements, crawl spaces and the like, a sump pump discharge system shall have a permanently installed discharge line which shall not at any time discharge water into the sanitary sewer system, except as provided herein. A “permanently installed discharge line” shall consist of a rigid discharge line (plastic, copper, galvanized or black pipe), without valving or quick connections for altering the path of discharge. It shall not be capable of connection or reconnection to the sanitary sewer system.

(D) *Limitations on Discharge.* The permanently installed discharge line shall provide for year-around discharge capability outside of the dwelling, building or structure to the City storm sewer via a direct connection or shall discharge onto the owner’s property. Runoff from sump pump discharge shall dissipate on the owner’s property and shall not drain onto a sidewalk or a street, nor shall the discharge create a nuisance for a neighboring property.

(E) *Connection to Storm Sewer.* In the event that a property has access to connect its sump pump discharge directly into the City’s storm sewer, said property owner shall complete and retain said connection and direct all sump pump discharge into the City’s storm sewer.

(F) *Disconnection.* Before September 1, 2016, any person, firm, or corporation having a

discharge line connected and/or discharging into the sanitary sewer system shall disconnect and/or remove same. Any disconnects or openings in the sanitary sewer shall be closed in an effective, workmanlike manner, as approved by the City.

(G) *Inspection/Certification.* Every person owning improved real estate that discharges into the City's sanitary sewer system shall have obtained an inspection of each building located on such property by an inspector designated by the City. The purpose of this inspection shall be to confirm that there is no sump pump or other prohibited discharge into the sanitary sewer system and that the discharge complies with Paragraph (D). In lieu of having the City inspect such property, the owner may, furnish a certificate from a licensed plumber, in a form acceptable to the City, certifying that the property is in compliance with this ordinance.

(H) *Future inspections.* Any building may be re-inspected on a yearly basis in conjunction with yearly water meter or other inspections. In addition, upon probable cause the City may require any property owner to provide evidence of compliance with this ordinance.

(I) *New home inspections.* All new construction that includes a connection to the sanitary sewer will be required to have their sump pump system inspected and be in compliance with this ordinance prior to issuance of a certificate of occupancy.

(J) *Waivers.* The City Council may, in its sole discretion, consider requests for waivers from the applicability of the provisions of this ordinance where strict enforcement would cause undue hardship because of circumstances unique to the individual property under consideration or cause a safety problem. This would also include cases that would not be practical or feasible to correct the clear water discharge problem. Application for waivers pursuant to this ordinance shall be addressed in writing to the City Clerk. The application shall at a minimum identify the property for which the waiver is being applied for, the name of the property owner/applicant, and describe in detail what characteristics of the subject property create an undue hardship. Within a reasonable time the City Council shall make its decision on the matter and send a copy of such decision to the applicant by regular mail. Upon approval of an application for a waiver, a property owner shall be allowed to discharge directly into the sanitary sewer system for the time specified in the City Council's written decision. The applicant will be required to agree to pay an additional fee for the additional sewer service, along with the regular monthly charge. Fees for this service will be based on estimated yearly average amounts discharged to the sanitary sewer.

(K) *Surcharge and Penalties.* A surcharge of Fifty Dollars (\$50.00) per month shall be added to every sewer bill mailed to property owners who have not obtained a property inspection or provided a certificate of compliance by that date. In addition, a surcharge of Fifty Dollars (\$50.00) per month shall be added to every sewer bill mailed to property owners who's discharge does not comply with Paragraph (D). The surcharge shall be added every month to be included in monthly bills for properties not complying with this ordinance. All properties found during yearly inspection to have violated this ordinance will be subject to the \$50.00 per month charge for all months between the two most recent inspections, and for each month thereafter until the property owner submits proof to the City that the property is brought into full compliance. In addition to the \$50.00 per month charge, a property owner or other person who is not in compliance with this ordinance will be mailed, by regular mail, a notice that such violation shall cease and desist within a time limit provided by the City Council. If such violation does not cease and desist by the established time limit, the owner of the property or other person violating this ordinance shall be guilty of a misdemeanor.

§ 50.063 EXCAVATIONS.

All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city.

Penalty, see § 50.999

§ 50.064 LICENSES.

Required. Service connections are the responsibility of the property owner. Connections shall be made by a person licensed as a plumber by the State of Minnesota, or a person in the ditch installing the pipe who has a card showing that they have completed a program of training that incorporates the Plumbing Code installation requirements, issued by either the Associated Builders and Contractors, Laborers-Employers Cooperation Educational Trust, or Minnesota Utility Contractors Association, is not subject to the licensing requirements of this section.

Penalty, see § 50.999

USE OF PUBLIC SERVICES**§ 50.080 DISCHARGES OF UNPOLLUTED WATER.**

(A) No person shall discharge or caused to be discharged any water such as stormwater, ground water, roof runoff, surface drainage or non-contact cooling water to any sanitary sewer.

(B) Storm water and all other unpolluted drainage shall be discharged to those sewers as are specifically designed as storm sewers or to a natural outlet approved by the city and other regulatory agencies. Industrial cooling water or unpolluted process waters may be discharged to a storm sewer or natural outlet on approval of the city and upon approval and the issuance of a discharge permit by the MPCA.

Penalty, see § 50.999

§ 50.081 DISCHARGES OF WATERS OR WASTES.

No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

(D) Any wastewater containing toxic pollutants insufficient quantity, either singly or by interaction with other pollutants, to inhibit or disrupt any wastewater treatment process, constitute a hazard to humans or animals, or create a toxic effect in the receiving waters of the wastewater disposal system. A toxic pollutant shall include but not be limited to any pollutant identified pursuant to Section 307(a) of the Act (33 USC1317(a)).

Penalty, see § 50.999

§ 50.082 LIMITED DISCHARGES.

(A) The following described substances, materials, water or wastes shall be limited in discharges to municipal systems to concentrations or quantities which will not harm either sewers, the wastewater treatment works, treatment process or equipment, will not have an adverse effect on the receiving stream and soil, vegetation and ground water, or will not otherwise endanger lives, limb, public property, or constitute a nuisance. The Utilities Superintendent may set limitations lower than limitations established in the regulations below if, in his or her opinion, the more severe limitations are necessary to meet the above objectives. In forming his or her opinion as to the acceptability of wastes, the Utilities Superintendent will give consideration to factors as the quantity of subject waste in reaction to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, the city's NPDES/SDS permit, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors.

(B) The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer which shall not be violated without approval of the Utilities Superintendent areas follows:

(1) Any wastewater having a temperature greater than 150°F (65.6°C), or causing, individually or in combination with other wastewater, the influent at the wastewater treatment plant to have a temperature exceeding 104°F (40°C), or having heat in amounts which will inhibit biological activity in the wastewater treatment works resulting in interference therein.

(2) Any wastewater containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 mg/1 or containing substances which may solidify or become viscous at temperatures between 32°F and 150°F (0°C and 65.6°C); and any wastewater containing oil and grease concentrations of mineral

origin of greater than 100 mg/l, whether emulsified or not.

(3) Any quantities of flow, concentrations, or both which constitute a "slug" as defined in § 50.001.

(4) Any garbage not properly shredded, as defined in § 50.001 of this chapter. Garbage grinders may be connected to sanitary sewers from homes, hotels, institutions, restaurants, hospitals, catering establishments or similar places where garbage originates from the preparation of food on the premises or when served by caterers.

(6) Any wastewater with objectionable color not removed in the treatment process such as but not limited to dye wastes and vegetable tanning solutions.

(7) Non-contact cooling water or unpolluted storm, drainage or groundwater.

(8) Wastewater containing inert suspended-solids such as but not limited to fullers earth, lime slurries, and lime residues, or of dissolved solids such as but not limited to sodium chloride and sodium sulfate, in quantities that would cause disruption with the wastewater disposal system.

(9) Any radioactive wastes or isotopes of half-life or concentration as may exceed limits established by the Utilities Superintendent in compliance with applicable state or federal regulations.

(10) Any waters or wastes containing the following substances to the degree that any material received in the composite wastewater at the wastewater treatment works is detrimental to treatment process, adversely impacts land application, adversely effects receiving waters, or is in violation of standards pursuant to Section 307(b) of the Act (33 USC 1317(b)): Arsenic, Cadmium, Copper, Cyanide, Lead, Mercury, Nickel, Silver, total Chromium, Zinc and Phenolic compounds which cannot be removed by the city's wastewater treatment system.

(11) Any wastewater which creates conditions at or near the wastewater disposal system which violates any statute, rule, regulation or ordinance of any regulatory agency, or state or federal regulatory body.

(12) Any waters or wastes containing BOD₅ or suspended solids of character and quantity that unusual attention or expense is required to handle the materials at the wastewater treatment works, except as may be permitted by specific written agreement subject to the provisions of § 50.094.

§ 50.083 DISCHARGES HAZARDOUS TO LIFE OR CONSTITUTE PUBLIC NUISANCES.

(A) If any waters or wastes are discharged or are proposed to be discharged to the public sewers which contain substances or possess the characteristics enumerated in § 50.082, or which in the judgement of the Utilities Superintendent may have a deleterious effect upon the wastewater treatment facilities, processes, or equipment, receiving waters or soil, vegetation, and ground water, or which

otherwise create a hazard to life or constitute a public nuisance, the city may:

- (1) Reject the wastes;
- (2) Require pretreatment to an acceptable condition for discharge to the public sewers, pursuant to Section 307(b) of the Act (33 USC 1317(b)) and all amendments thereof;
- (3) Require control over the quantities and rates of discharge; and
- (4) Require payment to covert headed costs of handling, treating and disposing of wastes not covered by existing taxes or sewer service charges.

(B) If the city permits the pretreatment or equalization of waste flows, the design, installation and maintenance of the facilities and equipment shall be made at the owner's expense and shall be subject to the review and approval of the city pursuant to the requirements of the MPC A .

§ 50.084 INCREASING USE OF PROCESS WATER.

No user shall increase the use of process water or, in any manner, attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in §§ 50.081 and 50.082, or contained in the National Categorical Pretreatment Standards or any state requirements.

Penalty, see § 50.999

§ 50.085 PRETREATMENT OR FLOW-EQUALIZING FACILITIES.

Where pretreatment or flow-equalizing facilities are provided or required for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation at the expense of the owner.

§ 50.086 GREASE, OIL AND SAND INTERCEPTORS.

Grease, oil, and sand interceptors shall be provided when, in the opinion of the Utilities Superintendent, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts, as specified in § 50.082(B)(2), any flammable wastes as specified in § 50.081(A), sand or other harmful ingredients; except that interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of the type to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors, the owner shall be responsible for the proper removal and disposal of the captured materials by appropriate means, and shall maintain a record of dates and means of disposal which are subject to review by the Utilities Superintendent. Any removal and hauling of the collecting materials not performed by the owner's personnel must be performed by a currently licensed waste disposal firm.

Penalty, see § 50.999

§ 50.087 INDUSTRIAL WASTES; INSTALLATIONS.

Where required by the city, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure, or control manhole, with necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of wastes. The structure shall be accessible and safely located, and shall be constructed in accordance with plans approved by the city. The structure shall be installed by the owner at his or her expense and shall be maintained by the owner to be safe and accessible at all times.

Penalty, see § 50.999

§ 50.088 INDUSTRIAL WASTES; REQUIREMENTS.

The owner of any property serviced by a building sewer carrying industrial wastes may, at the discretion of the city, be required to provide laboratory measurements, tests or analyses of waters or wastes to illustrate compliance with this chapter and any special condition for discharge established by the city or regulatory agencies having jurisdiction over the discharge. The number, type and frequency of sampling and laboratory analyses to be performed by the owner shall be as stipulated by the city. The industry must supply a complete analysis of the constituents of the wastewater discharge to assure that compliance with federal, state and local standards are being met. The owner shall report the results of measurements and laboratory analyses to the city at times and in the manner as prescribed by the city. The owner shall bear the expense of all measurements, analyses and reporting required by the city. At those times as deemed necessary, the city reserves the right to take measurements and supplies for analysis by an independent laboratory.

Penalty, see § 50.999

§ 50.089 MEASUREMENTS, TESTS AND ANALYSES OF WATERS AND WASTES.

All measurements, tests and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association. Sampling methods, location, times, duration and frequencies are to be determined on an individual basis subject to approval by the Utilities Superintendent.

Penalty, see § 50.999

§ 50.090 PROTECTION FROM ACCIDENTAL DISCHARGE OF PROHIBITED MATERIALS.

Where required by the city, the owner of any property serviced by a sanitary sewer shall provide protection from an accidental discharge of prohibited materials or other substances regulated by this chapter. Where necessary, facilities to prevent accidental discharges of prohibited materials shall be provided and maintained at the owner's expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the Utilities Superintendent for review and approval prior to construction of the facility. Review and

approval of the plans and operating procedures shall not relieve any user from the responsibility to modify the user's facility as necessary to meet the requirements of this chapter. Users shall notify the Utilities Superintendent immediately upon having a slug or accidental discharge of substances of wastewater in violation of this chapter to enable countermeasures to be taken by the Utilities Superintendent to minimize damage to the wastewater treatment works. The notification will not relieve any user of any liability for any expense, loss or damage to the wastewater treatment system or treatment process, or for any fines imposed on the city on account thereof under any state and federal law. Employers shall ensure that all employees who may cause or discover a discharge are advised of the emergency notification procedure.

Penalty, see § 50.999

§ 50.091 PERMITTING SUBSTANCE OR MATTER TO FLOW OR PASS INTO PUBLIC SEWERS.

No person having charge of any building or other premises which drains into the public sewer shall permit any substance or matter which may form a deposit or obstruction to flow or pass into the public sewer. Within 30 days after receipt of written notice from the city, the owner shall install a suitable and sufficient catch basin or waste trap, or if one already exists, shall clean out, repair or alter the same, and perform other work as the Utilities Superintendent may deem necessary. Upon the owner's refusal or neglect to install a catch basin or waste trap or to clean out, repair, or alter the same after the period of 30 days, the Utilities Superintendent may cause the work to be completed at the expense of the owner or representative thereof.

Penalty, see § 50.999

§ 50.092 REPAIRING SERVICE CONNECTION.

Whenever any service connection becomes clogged, obstructed, broken or out of order, or detrimental to the use of the public sewer, or unfit for the purpose of drainage, the owner shall repair or cause the work to be done as the Utilities Superintendent may direct. Each day after 30 days that a person neglects or fails to so act shall constitute a separate violation of this section, and the Utilities Superintendent may then cause the work to be done, and recover from the owner or agent the expense thereof by an action in the name of the city.

Penalty, see § 50.999

§ 50.093 CATCH BASIN OR WASTE TRAPS REQUIRED FOR MOTOR VEHICLE WASHING OR SERVICING FACILITIES.

The owner or operator of any motor vehicle washing or servicing facility shall provide and maintain in serviceable condition at all times a catch basin or waste trap in the building drain system to prevent grease, oil, dirt or any mineral deposit from entering the public sewer system.

Penalty, see § 50.999

§ 50.094 SPECIAL AGREEMENT AND ARRANGEMENT.

No statement contained in this subchapter shall be construed as preventing any special agreement or arrangement between the city and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the city for treatment, subject to payment therefore by the industrial concern; provided, that National Categorical Pretreatment Standards and the city's NPDES/SDS Permit limitations are not violated.

(B) All revenue generated by the sewer system, and all other income pertinent to the treatment system, including taxes and special assessments dedicated to retire construction debt, shall be held by the City Clerk/Treasurer separate and apart from all other funds of the city. Funds received by the sewer service fund shall be transferred to the "Operation and Maintenance Account," the "Equipment Replacement Account," and the "Debt Retirement Account" in accordance with state and federal regulations and the provisions of this chapter.

(C) Revenue generated by the sewer system sufficient to ensure adequate replacement throughout the design life or useful life, whichever is longer, of the wastewater facility shall be held separate and apart in the "Equipment Replacement Account" and dedicated to affecting replacement costs. Interest

income generated by the "Equipment Replacement Account" shall remain in the "Equipment Replacement Account."

(D) Revenue generated by the sewer service charge system sufficient for operation and maintenance shall be held separate and apart in the "Operation and Maintenance Account."

§ 50.116 ADMINISTRATION.

The sewer service charge system and sewer service fund shall be administrated according to the following provisions:

(A) The City Clerk/Treasurer shall maintain a proper system of accounts suitable for determining the operation and maintenance, equipment replacement and debt retirement costs of the treatment works, and shall furnish the City Council with a report of those costs annually in December. The City Council shall annually determine whether or not sufficient revenue is being generated for the effective operation, maintenance, replacement and management of the treatment works, and whether sufficient revenue is being generated for debt retirement. The Council will also determine whether the user charges are distributed proportionately to each user in accordance with § 50.113 (B). The city shall thereafter, but not later than the end of the year, reassess and as necessary revise the Sewer Service Charge System then in use to ensure the proportionality of the user charges and to ensure the sufficiency of funds to maintain the capacity and performance to which the facilities were constructed, and to retire the construction debt.

(B) In accordance with state requirements, the City Clerk/Treasurer shall be responsible for maintaining all records necessary to document compliance with the Sewer Service Charge System adopted.

(C) Bills for sewer service charges shall be rendered on a monthly basis succeeding the period for which the service was rendered and shall be due 20 days from the date of rendering. Any bill not paid in full 30 days after the due date will be considered delinquent. At that time the city shall notify the delinquent owner/occupant in writing regarding the delinquent bill and subsequent penalty. The penalty shall be as established in the city's master fees schedule. Disconnection of services for late payment shall follow the procedures established in § 50.117.

(D) The owner of the premises shall be liable to pay for the service to their premises, and the service is furnished to the premises by the city only upon the condition that the owner of the premises is liable therefore to the city.

(E) Any additional costs caused by discharges to the treatment works of toxics or other incompatible wastes, including the cost of restoring wastewater treatment services, clean up and restoration of the receiving waters and environs, and sludge disposal, shall be borne by the discharger of the wastes, at no expense to the city.

§ 50.117 DISCONNECTION FOR LATE PAYMENT.

The City Clerk shall be in charge of the administration of enforcement of disconnection for

late payment. The City Maintenance Department shall conduct the utility shut off upon the direction of the City Clerk. In addition, on all rental properties, the landlord will be listed on the billing as well as the tenant. The landlord will be provided with a copy of the monthly utility bill. The city will follow all Minnesota Statutes regarding utility shut off.

The following procedures shall be followed:

(A) The City Clerk will provide notice of the proposed shut off to both the property owner and occupant first by certified mail electronic return receipt requested. In the event a successful electronic return receipt is not received by the City from the occupant within ten (10) calendar days of mailing of the certified notice, the City shall attempt personal service of the notice upon the occupant. If personal service is not possible, the City shall post such notice at a conspicuous place on the property.

(B) Any account that is three (3) months or more in arrears will be processed for shut-off pursuant to this policy.

(C) The City will generally not shut off service between November 15 and April 15 of each year for delinquency of payment of accounts. The city will not discontinue water service if the cold weather rule applies to that property.

(D) Shut-off notices will be mailed prior to October 15 of each year, or as the need arises throughout the year pursuant to this policy.

(E) A written payment agreement (the "Repayment Agreement") on delinquent accounts may be entered into with the City by the property owner or occupant for repayment during a period of up to one year on the following conditions:

- (1) The payment on the delinquency amount shall be not less than \$50.00 per month;
- (2) The delinquency amount shall be paid in full within one year of execution of the Repayment Agreement;
- (3) The owner or occupant shall remain current with monthly payments under the Repayment Agreement and shall remain current with payments for ongoing services;
- (4) The due date for payments under the Repayment Agreement shall be the same due date for payment of ongoing services;
- (5) If payments under the Repayment Agreement or payments for ongoing services are not received by the due date, the Repayment Agreement shall be deemed void, the owner and/or occupant shall be deemed delinquent, and the City may proceed with shut off of service after notice;

(6) In the event the Repayment Agreement is voided through non-payment as set forth in e) above, the owner and occupant shall not be eligible to enter into an additional Repayment Agreement for a period of twelve (12) months and until the delinquent amount is paid in full;

(7) As long as the owner or occupant is current with payments under the Repayment Agreement and is current on payments for ongoing services, the City may waive late fees as allowed under the city fee schedule, with the provision that if the Repayment Agreement is voided for non-payment or late payment, or payment of current services is late, the City may immediately commence assessment of such late fees; also all previously accrued late fees will once again be owed and

(8) If a delinquent account is certified to taxes during a time period of shut off of service, the certified amount must be paid in full by the owner or occupant prior to reactivation of service.

(F) Amounts already certified to property taxes on the date of adoption of this policy are exempt from the repayment plan.

Any exception to this policy must be first approved by the City Council prior to implementation.

§ 50.130 AUTHORIZED EMPLOYEES PERMITTED TO ENTER ALL PROPERTIES.

The Utilities Superintendent or other duly authorized employees of the city, bearing proper credentials and identification, are authorized, with the permission of the licensee, owner, resident or other person in control of property within the city, to enter all properties for the purpose of inspection, observations, measurement, sampling and testing pertinent to the discharges to the city's sewer system in accordance with the provisions of this chapter. If the licensee, owner, resident or other person in control of property within the city does not permit the entrance to the property, the city shall obtain an administrative search warrant as provided for in § 10.20 before entering the property, except in emergency situations.

§ 50.131 AUTHORIZED EMPLOYEES OBTAINING INFORMATION FOR INDUSTRIAL PROCESSES.

The Utilities Superintendent or other duly authorized employees are authorized to obtain information concerning industrial processes which have a direct bearing on the type and source of discharge to the wastewater collection system. An industry may withhold information considered confidential; however, the industry must establish that the revelation to the public of the information in question might result in an advantage to competitors.

§ 50.132 AUTHORIZED EMPLOYEES TO OBSERVE SAFETY RULES.

While performing necessary work on private properties, the Utilities Superintendent or duly authorized employees of the city shall observe all safety rules applicable to the premises established by the company, and the property owner shall be held harmless for injury or death to the city employees and the city shall indemnify the property owner against loss or damage to its property by city employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as may be caused by negligence or failure of the company to maintain safe conditions as required in § 50.087.

§ 50.133 AUTHORIZED EMPLOYEES PERMITTED TO ENTER ALL PROPERTY WITH EASEMENTS.

The Utilities Superintendent or other duly authorized employees of the city bearing proper credentials and identification shall be permitted to enter all private properties through which the city holds a duly negotiated easement for the purposes of but not limited to inspection, observation, measurement, sampling, repair and maintenance of any portion of the wastewater facilities lying within the easement. Nothing in §§ 50.110 through 50.117 shall be held or construed as in anyway stopping or interfering with the right of the city to levy as taxes or assessments against any premises affected any delinquent or past due sewer service charges.

(2) As an alternative to levying a lien, the city may, at its discretion, file suit in a civil action to collect amounts as are delinquent and due against the occupant, owner or user of the real estate, and

shall collect as well all attorney's fees incurred by the city in filing the civil action. Attorney's fees shall be fixed by order of the court.

§ 51.02 USE OF WATER SERVICE.

No person other than a city employee shall uncover or make or use any water service installation connected to the city water system except in the manner provided by this chapter. No person shall make or use any installation contrary to the regulatory provisions of this chapter.
Penalty, see § 10.99

§ 51.03 USE TO CIRCUMVENT CHAPTER PROHIBITED.

No person shall permit water from the water system to be used for any purpose to circumvent this chapter.
Penalty, see § 10.99

§ 51.04 DAMAGE TO WATER SYSTEM.

(A) No unauthorized person shall remove or damage any structure, appurtenance, or part of the water system or fill or partially fill any excavation or move any gate valve used in the water system.

(B) No person shall make any connection of an electrical welder to the city water main, appurtenance or service or use an electric welder for the purpose of thawing frozen water mains, appurtenances or services.
Penalty, see § 10.99

§ 51.05 CONNECTIONS BEYOND CITY BOUNDARIES.

Where water mains of the city are in any street or alley adjacent to or outside the corporate limits of the city, the City Council may issue permits to the owners or occupants of properties adjacent or accessible to the water main to make proper water service pipe connections with the water mains of the city and to be supplied with water in conformity with the applicable provisions of this chapter and subject to any contract for the supply of water between the city and any other city.

Penalty, see § 10.99

§ 51.06 CONNECTION TO SYSTEM REQUIRED; USE OF PRIVATE WELLS.

(A) Except where municipal water is not available, it shall be unlawful to construct, reconstruct, or repair any private water system which is designed or intended to provide water for human consumption. Private wells, to provide water for other than human consumption, may be constructed, maintained and continued in use after connection is made to the water system; provided, there is no means of cross-connection between the private well and municipal water supply at any time. Hose bibbs that will enable the cross-connection of the two systems are prohibited on internal piping of the well system supply. Where both private and city systems are in use, outside hose bibbs shall not be installed on both systems.

(B) All new homes or buildings shall connect to the municipal water system if water is available to the property. At the time as municipal water becomes available to existing homes or buildings, a direct connection shall be made to the public system within a period of time as determined by the City Council. If the connection is not made pursuant to this chapter, a charge shall be made in an amount established by §51.51.

(C) Where new homes or buildings do not have water available to the property, the city shall determine whether and under what conditions the municipal water system will be extended to serve the property.

(D) If the well is not to be used after the time a municipal water connection is made:

- (1) The well pump and tank shall be disconnected from all internal piping;
- (2) The casing shall be filled with sandy soil from the bottom to a point eight feet from the top;
- (3) The remaining eight feet shall be filled with concrete to the floor level and the well casing cut off as close to the floor level as possible;
- (4) Within 30 days after the municipal water connection is made, the owner or occupant must advise the City Utilities Superintendent that the well has been sealed.

(5) Notwithstanding the foregoing, all well abandonment shall be done in accordance with M.S. §§ 1031.301 to 1031.345 and Minn. Rules Ch. 4725, Wells and Borings, as it may be amended from time to time.

Penalty, see § 10.99

§ 51.07 USE OF WATER FOR AIR CONDITIONING; PERMITS.

(A) All air conditioning systems which are connected directly or indirectly with the public water system must be equipped with water conserving and water regulating devices as approved by a representative designated by the City Council.

(B) Permits shall be required for the installation of all air conditioning systems to the public water system. The fee shall be established pursuant to § 51.51.
Penalty, see § 10.99

§ 51.08 USE OF WATER FROM FIRE HYDRANTS; TEMPORARY CONNECTIONS.

(A) *Use of fire hydrants.* Except for extinguishment of fires, no person, unless authorized by the Public Works Director or Public Utilities Department, shall operate fire hydrants or interfere in any way with the water system without first obtaining a permit to do so from the city as follows:

(1) A permit to use a fire hydrant shall be issued for each individual job or contract and for a minimum of 30 days and for the additional 30 day period as the city shall determine. The permit shall state the location of the hydrant and shall be for the use of that hydrant and none other.

(2) The user shall make an advance cash deposit to guarantee payment for water used and to cover breakage and damage to the hydrant and meter as established in the city's master fee schedule, which shall be refunded upon expiration of the permit, less applicable charges for use.

(3) The user shall relinquish the use of the hydrant to authorized city employees in emergency situations.

(4) The user shall pay a rental charge as established in the city's master fees schedule for each 1,000 gallons of water used.

(B) *Temporary connection to fire hydrants.* An owner of a private water system may make a temporary above ground connection to a fire hydrant, subject to the time periods, conditions, and payment specified in § 51.51. In addition, the method of connection to the private system shall conform to all existing requirements of this chapter and city ordinance and the type of meter used shall meet the approval of the Utilities Superintendent.
Penalty, see § 10.99

§ 51.09 WATER DEFICIENCY, SHUT OFF AND USE RESTRICTIONS.

The city shall not be liable for any deficiency or failure in the supply of water to consumers, whether occasioned by shutting the water off for the purpose of making repairs or connections or from any other cause whatsoever. In case of fire, or alarm of fire, or in making repairs of construction of new works, water may be shut off without notice at any time and kept off as long as necessary. In addition, the City Council shall have the right to impose reasonable restrictions on the use of the city water system in emergency situations. For non-payment of charges, water service may be discontinued according to the procedures established in § 51.72.

WATER REGULATIONS

§ 51.25 SUPPLY FROM ONE SERVICE.

No more than 1 housing unit or building shall be supplied from 1 service connection except by permission of City Council. Each unit served shall have a separate water meter.

Penalty, see § 10.99

§ 51.26 TAPPING OF MAINS RESTRICTED.

No person, except persons authorized by the City Council, shall tap any distributing main or pipe of the water supply system or insert stopcocks or ferrules therein.

Penalty, see § 10.99

§ 51.27 REPAIRS.

(A) *Determination of need for repairs.* Based on the information supplied by the property owner or available to the city, the city will make a determination whether a problem exists in that portion of the service which is the city's responsibility. If the problem appears to exist in the areas for which the city has no responsibility, the private owners will be responsible for correction of the problem.

(B) *Excavation or repair of water service.*

(1) The city will arrange for the investigative digging up and repair of any water service where the problem apparently exists within that area for which the city has responsibility.

(2) Unless it is clearly evident, however, that the problem is the responsibility of the city, the excavation and repair will not be made until the property owner requests the city in writing to excavate or repair the service and agrees to pay the cost. A private owner shall be responsible for that portion of the line that extends from the valve. In the event that a service box is located in a private owner's driveway, the repair of the driveway shall be the property owner's sole responsibility.

(3) The owner further agrees to waive public hearing and be special assessed the cost of the excavation and repair if the problem is found to be other than the city's responsibility. The city will make the determination for responsibility of the cost of investigation or repair.

(4) The matter of whether the dig up is done by city forces or contracted would depend on the urgency or need of repair and the availability of city forces to do the work. Recovery by the city for faulty construction will depend upon the circumstances and the decision of the City Attorney on the likelihood of recovery.

(C) *Failure to repair.* In case of failure upon the part of any consumer or owner to repair any leak occurring in his or her service pipe within 24 hours after verbal or written notice thereof, the water may be turned off by the city and shall not be turned on until the leak has been repaired and a fee pursuant to § 51.51 has been paid to the city.
Penalty, see § 10.99

§ 51.28 ABANDONED OR UNUSED SERVICES.

(A) If the premises served by water have been abandoned, or if the service has not been used for one year, then the service shall be shut off at the curb stop box by the city and the water meter will be removed.

(B) When new buildings are erected on the site of old ones, and it is desired to increase or change the old water service, no connections with the mains shall be made until all the old service has been removed and the main taps plugged or yoked connections installed by the city at the owner's expense. Penalty, see § 10.99

§ 51.29 DISCONNECTION PERMISSION.

Written permission must be obtained to disconnect from the existing water service leads at the curb stop box.
Penalty, see § 10.99

§ 51.30 SERVICE PIPES.

Every service pipe shall be laid so as to allow at least one foot of extra length in order to prevent rupture by settlement. The service pipe must be placed no less than seven feet below the ground and in a manner as to prevent rupture by freezing. Service pipes must extend from the curb stop box to the inside of the building, or if not taken into the building, then to the hydrant or fixtures which it is intended to supply. Type K copper tubing shall be used. All services over two inches shall be ductile or cast iron. All underground joints are to be mechanical, except joints under floors shall be silver soldered, unless otherwise approved by the Utilities Superintendent. Joints of copper tubing shall be kept, to a minimum, with not more than one joint used for service for each 70 feet in length. Splicing may be approved with 3-piece unions only. All joints and connections shall be left uncovered until

inspected by the Utilities Superintendent and tested at normal water line pressure. Unions must be 3-part type. All services over two inches shall be cast iron. Connections with the mains for domestic supply shall be at least 3-quarter inch up to the curb stop box.

Penalty, see § 10.99

§ 51.31 EXCAVATION AND CONSTRUCTION REQUIREMENTS.

(A) No excavation shall be made except by a licensed plumber.

(B) No water service pipe or water connection shall be installed in the same trench or closer than 10 feet horizontally to a sewer trench or drain laid, or to be laid, either in the street or in private property, except that the water pipe on private property may be in a common trench with a sewer drain which is of a material that is in conformance with the current Minnesota Plumbing Code, Minn. Rules Ch. 4715, as it may be amended from time to time.

(C) Where it is desired to lay the water service pipe and the building sewer pipe in the same trench, or in separate trenches less than 10 feet apart, the water service pipe shall be above the sewer pipe. It shall be placed at least one foot above the sewer and on a solid shelf excavated at one side of the trench. The sewer pipe shall be of a material that is in conformance with the Minnesota Plumbing Code with tested watertight joints. The water service pipe shall be watertight and corrosion resistant. Copper pipe and ductile or cast iron water pipe with specially protected joints is acceptable for this construction. Cast iron pipe shall conform to the American Water Works Association specifications for this pipe. Bell joint clamps with rubber gaskets are provisionally acceptable as extra protection for the joints on cast iron water pipe. In all cases, precautions shall be taken to assure a firm foundation for the pipes. The intervening space between the pipes shall be backfilled with compacted earth.

(D) In case the installation is on a surfaced street, the following shall apply: All backfill materials shall be mechanically compacted in 12-inch layers to the density of the adjacent material in the roadway area and to the existing street grades in accordance with the Minnesota Department of Transportation Standards. Complete surface restoration shall be made.

Penalty, see § 10.99

§ 51.32 CONNECTION TO OTHER WATER SUPPLIES RESTRICTED.

No water pipe of the water system shall be connected with any pump, well, tank, or piping that is connected with any other source of water supply except to service municipal systems.

Penalty, see § 10.99

§ 51.33 WATER CONNECTIONS; APPLICATIONS AND CHARGES.

(A) *Connection applications.*

(1) All applications for service installations and for water service shall be made to the City Clerk/Treasurer. All applications for service installations and water service shall be made by the

owner or agent of the property to be served and shall state the size and location of service connection required. The applicant shall, at the time of making application, pay to the city the amount of fees as established for a permit in the city's master fees schedule. Applications for services larger than one inch shall be accompanied by two sets of plans or sketches indicating preferred location of service pipe and size of service based on building demand.

(2) The size of the water service connections and meter shall be subject to approval of the Representative designated by the City Council.

(3) Water billing shall start at the time of installation of the water meter, or in the event the meter is not installed, seven days after completion of outside piping, and shall be calculated upon the minimum quarterly rate, prorated on a semi-monthly basis.

(B) *Connection charges.*

(1) A permit must be obtained to connect to the existing water service leads at the curb stop box. The fee for the permit shall be set pursuant to the city's master fees schedule. The city shall install or have installed all service connections from the water main to the curb stop box including the stop box. Payment for service connections must be made before the work is started and should be based upon 1½ times the estimate of costs provided by the Representative designated by the City Council. Any excess deposit shall be returned to the applicant.

(2) Additional charges shall be paid at the time of making application for tapping and making connections with the water main to where a curb stop box and service lead is not previously installed. The charge shall include the tapping of the water main, corporation cocks, the installation of a service line, the installation of a curb stop box, cost of restoring disturbed areas and all other costs related to the installation.

(3) There shall be a connection charge pursuant to § 51.51 levied by the city to contribute to the payment of the costs of the Public Water System Facilities. The City Council shall set by resolution the charges to be made for nonresidential installations.

(4) When water services have been stopped because of a violation of this chapter, the city shall collect the fee established pursuant to § 51.51 before service is recommenced.

(5) If a person desires to connect to the system and service a parcel that has not been assessed for the cost of water main and lateral construction, then before a permit is granted, the city shall collect an amount from the applicant that is established pursuant to § 51.51.

Penalty, see § 10.99

§ 51.34 LOCATION OF CURB STOP BOX.

Curb stop boxes will be installed on the right-of-way line or easement limits at a location as determined by the Representative designated by the City Council to be best suitable to the property and shall be left in a vertical position when backfilling is completed. Curb stop boxes will be installed at an approximate depth of seven feet below the finished ground elevation and the top of the curb stop box shall

be adjusted to be flush with the finished ground elevation. Curb stop boxes must be firmly supported by a masonry block. No person shall erect any fence or plant any tree or other landscaping that would obstruct, or place a structure on, park a motor vehicle on, or otherwise obstruct the use of the curb stop box, or cause damage to the same. In the event that a curb stop box is located under a driveway, repair of the driveway shall be the responsibility of the property owner.

Penalty, see § 10. 99

§ 51.35 WATER METERS.

(A) *Generally.* Except for extinguishment of fires, no person, unless otherwise authorized by the City Council or Public Utilities Department, shall use water from the water system or permit water to be drawn therefrom unless the same be metered by passing through a meter supplied or approved by the city. No person not authorized by the City Council or Utilities Superintendent shall connect, disconnect, take apart, or in any manner change or cause to be changed or interfere with any meter or the action thereof, or break any meter or valve seal.

(1) A charge established pursuant to § 51.51 shall be paid by customers to the city for water meters including installations and check valves and payment for same shall be made at the time of water service application. This payment shall be made only once, subject to the following.

(2) Where a consumer has need for a larger line in addition to his or her domestic line, as in the case of a commercial consumer who needs a one-inch line for normal use and a 6-inch or larger line for a fire sprinkler system, he or she will be permitted to run one line into the premises and "Y" off into two lines at the building. When this is done, the meter will be attached to the small or domestic line and a check valve as well as one-inch detection meter shall be put on the large line.

(3) The city shall maintain and repair all meters when rendered unserviceable through ordinary wear and tear and shall replace them if necessary. When replacement, repair, or adjustment of any meter is rendered by the act, neglect (including damage from freezing or hot water backup) or carelessness of the owner or occupant of the premises, any expense caused the city thereby shall be charged against and collected from the water consumer.

(4) A consumer may, by written request, have his or her meter tested by depositing the amount established pursuant to § 51.51. In case a test should show an error of over 5 % of the water consumed, a correctly registering meter will be installed, and the bill will be adjusted accordingly and the testing deposit refunded. This adjustment shall not extend back more than one billing period from the date of the written request.

(5) All water meters and remote readers shall be and remain the property of the city.

(6) Authorized city employees shall have free access at reasonable hours of the day to all parts of every building and premises connected with the water system for reading of meters and inspections.

(7) It shall be the responsibility of the consumer to notify the city to request a final

reading at the time of the customer's billing change.

(B) *Water meter setting.* All water meters hereafter installed shall be in accordance with the Minnesota Plumbing Code and any standards established by resolution of the City Council. Penalty, see § 10.99

(C) Rates due and payable by each water user located beyond the territorial boundaries of the city shall be determined by special contract.

(D) The minimum rates established pursuant to § 51.51 shall begin to accrue after connection of the service pipe with the curb stop box.

(E) A meter shall be installed on the water valve in the house and a remote register outside regardless of whether inside piping is connected.

(F) In the event a water customer elects to discontinue the use of the municipal water, the minimum or base charge shall continue so long as services are available to the property.

Penalty, see § 10.99

§ 51.54 PAYMENT OF CHARGES; LATE PAYMENT; COLLECTION.

(A) Any prepayment or overpayment of charges may be retained by the city and applied on subsequent monthly charges.

(B) If a monthly service charge is not paid when due, then a penalty of 10% shall be added thereto.

(C) Each and every water service charge unpaid is made a lien upon the lot or premises served, and all charges which are on October 31 of each year past due and delinquent shall be certified to the County Auditor by November 29, for collection. Nothing in herein shall be held or construed as in anyway stopping or interfering with the right of the city to levy as taxes or assessments against any premises affected any delinquent or past due water service charges. The City may charge an assessment fee as established in its Master Fee Schedule.

(E) The owner of the premises shall be liable to pay for the service to their premises, and the service is furnished to the premises by the city only upon the condition that the owner of the premises is liable therefore to the city.

CHAPTER 52: RIGHT OF WAY REGULATION

§ 52.01. Findings, Purpose, and Intent.

To provide for the health, safety, and welfare of its citizens, and to ensure the integrity of its streets and the appropriate use of the rights-of-way, the city strives to keep its rights-of-way in a state of good repair and free from unnecessary encumbrances.

Accordingly, the city hereby enacts this new chapter of this code relating to right-of-way permits and administration. This chapter imposes reasonable regulation on the placement and maintenance of facilities and equipment currently within its rights-of-way or to be placed therein at some future time. It is intended to complement the regulatory roles of state and federal agencies. Under this chapter, persons excavating and obstructing the rights-of-way will bear financial responsibility for their work. Finally, this chapter provides for recovery of out-of-pocket and projected costs from persons using the public rights-of-way.

This chapter shall be interpreted consistently with Minnesota Statutes, sections 237.16, 237.162, 237.163, 237.79, 237.81, and 238.086 (the “Act”) and the other laws governing applicable rights of the city and users of the right-of-way. This chapter shall also be interpreted consistent with Minn. R. 7819.0050–7819.9950 and Minn. R., ch. 7560 where possible. To the extent any provision of this chapter cannot be interpreted consistently with the Minnesota Rules, that interpretation most consistent with the Act and other applicable statutory and case law is intended. This chapter shall not be interpreted to limit the regulatory and police powers of the city to adopt and enforce general ordinances necessary to protect the health, safety, and welfare of the public.

Such standards shall ensure that wireless equipment is installed with a stealth design and that equipment does not detract from the character of the area in which it is installed. In addition, the City Engineer shall adopt standards that ensure city assets can continue to effectively perform their intended function. Standards shall be made available with the application required for a small cell permit.

(6) Where an applicant proposes to replace a wireless support structure, the city may impose reasonable restocking, replacement, or relocation requirements on the replacement of such structure.

The standard collocation agreement shall be in addition to, and not in lieu of, the required small wireless facility permit, provided, however, that the applicant shall not be additionally required to obtain a license or franchise in order to collocate. Issuance of a small wireless facility permit does not supersede, alter or affect any then-existing agreement between the city and applicant,

§ 52.12 Action on Small Wireless Facility Permit Applications.

(A) *Deadline for Action.* The city shall approve or deny a small wireless facility permit application within 90 days after filing of such application or within any timeline established by state law. The small wireless facility permit, and any associated building permit application, shall be deemed approved if the city fails to approve or deny the application within the review periods established in this section.

(B) *Consolidated Applications.* An applicant may file a consolidated small wireless facility permit application addressing the proposed collocation of up to 15 small wireless facilities, or a greater number if agreed to by a local government unit, provided that all small wireless facilities in the application:

- (1) are located within a two-mile radius;
- (2) consist of substantially similar equipment; and
- (3) are to be placed on similar types of wireless support structures.

In rendering a decision on a consolidated permit application, the city may approve some small wireless facilities and deny others, but may not use denial of one or more permits as a basis to deny all small wireless facilities in the application.

(C) *Tolling of Deadline.* The 90-day deadline for action on a small wireless facility permit application may be tolled if:

(1) The city receives applications from one or more applicants seeking approval of permits for more than 30 small wireless facilities within a seven-day period. In such case, the city may extend the deadline for all such applications by 30 days by informing the affected applicants in writing of such extension.

(2) The applicant fails to submit all required documents or information and the city

provides written notice of incompleteness to the applicant within 30 days of receipt the application. Upon submission of additional documents or information, the city shall have ten days to notify the applicant in writing of any still-missing information.

(3) The city and a small wireless facility applicant agree in writing to toll the review period.

(A) *Timing.* The work to be done under the excavation permit, and the patching and restoration of the right-of-way as required herein, must be completed within the dates specified in the permit, increased by as many days as work could not be done because of circumstances beyond the control of the permittee or when work was prohibited as unseasonal or unreasonable under § 52.17.

(B) *Patch and Restoration.* Permittee shall patch its own work. The city may choose

either to have the permittee restore the right-of-way or to restore the right-of-way itself.

If, following such restoration, the pavement settles due to permittee's improper backfilling, the permittee shall pay to the city, within thirty (30) days of billing, all costs associated with correcting the defective work.

(2) *Permittee Restoration.* If the permittee restores the right-of-way itself, it shall at the time of application for an excavation permit post a construction performance bond in accordance with the provisions of Minn. Rule 7819.3000.

(3) *Degradation Fee in Lieu of Restoration.* In lieu of right-of-way restoration, a right-of-way user may elect to pay a degradation fee. However, the right-of-way user shall remain responsible for patching and the degradation fee shall not include the cost to accomplish these responsibilities.

The permittee upon notification from the city, shall correct all restoration work to the extent necessary, using the method required by the city. Said work shall be completed within five (5) calendar days of the receipt of the notice from the city, not including days during which work cannot be done because of circumstances constituting force majeure or days when work is prohibited as unseasonable or unreasonable under § 52.17.

(E) *Failure to Restore.* If the permittee fails to restore the right-of-way in the manner and to the condition required by the city, or fails to satisfactorily and timely complete all restoration required by the city, the city at its option may do such work. In that event the permittee shall pay to the city, within thirty (30) days of billing, the cost of restoring the right-of-way. If permittee fails to pay as required, the city may exercise its rights under the construction performance bond.

§ 52.15. Joint Applications.

(A) *Joint Application.* Registrants may jointly apply for permits to excavate or obstruct the right-of-way at the same place and time.

(B) *Shared Fees.* Registrants who apply for permits for the same obstruction or excavation, which the city does not perform, may share in the payment of the obstruction or excavation permit fee. In order to obtain a joint permit, registrants must agree among themselves as to the portion each will pay and indicate the same on their applications.

(C) *With city projects.* Registrants who join in a scheduled obstruction or excavation performed by the city, whether or not it is a joint application by two or more registrants or a

single application, are not required to pay the excavation or obstruction and degradation portions of the permit fee, but a permit would still be required.

§ 52.16. Supplementary Applications.

(A) *Limitation on Area.* A right-of-way permit is valid only for the area of the right-of-way specified in the permit. No permittee may do any work outside the area specified in the permit, except as provided herein. Any permittee which determines that an area greater than that specified in the permit must be obstructed or excavated must before working in that greater area (i) make application for a permit extension and pay any additional fees required thereby, and (ii) be granted a new permit or permit extension.

(B) *Limitation on Dates.* A right-of-way permit is valid only for the dates specified in the permit. No permittee may begin its work before the permit start date or, except as provided herein, continue working after the end date. If a permittee does not finish the work by the permit end date, it must apply for a new permit for the additional time it needs, and receive the new permit or an extension of the old permit before working after the end date of the previous permit. This supplementary application must be submitted before the permit end date.

§ 52.17. Other Obligations.

(A) *Compliance with Other Laws.* Obtaining a right-of-way permit does not relieve permittee of its duty to obtain all other necessary permits, licenses, and authority and to pay all fees required by the city or other applicable rule, law or regulation. A permittee shall comply with all requirements of local, state and federal laws, including but not limited to Minn. Stat. §§ 216D.01-.09 (Gopher One Call Excavation Notice System) and Minn. R., ch. 7560. A permittee shall perform all work in conformance with all applicable codes and established rules and regulations, and is responsible for all work done in the right-of-way pursuant to its permit, regardless of who does the work.

(B) *Prohibited Work.* Except in an emergency, and with the approval of the city, no right-of-way obstruction or excavation may be done when seasonally prohibited or when conditions are unreasonable for such work.

(C) *Interference with Right-of-way.* A permittee shall not so obstruct a right-of-way that the natural free and clear passage of water through the gutters or other waterways shall be interfered with. Private vehicles of those doing work in the right-of-way may not be parked within or next to a permit area, unless parked in conformance with city parking regulations. The loading or unloading of trucks must be done solely within the defined permit area unless specifically authorized by the permit.

(D) *Trenchless Excavation.* As a condition of all applicable permits, permittees employing trenchless excavation methods, including but not limited to Horizontal Directional Drilling, shall follow all requirements set forth in Minn. Stat. ch. 216D and Minn. R., ch. 7560 and shall require potholing or open cutting over existing underground utilities before excavating, as determined by the director.

§ 52.18. Denial or Revocation of Permit.

(A) *Reasons for Denial.* The city may deny a permit for failure to meet the requirements and conditions of this chapter or if the city determines that the denial is necessary to protect the health, safety, and welfare of the public or when necessary to protect the right-of-way and its current use and any city asset or facility.

(B) *Procedural Requirements.* The denial or revocation of a permit must be made in writing and must document the basis for the denial. The city must notify the applicant or right-of-way user in writing within three business days of the decision to deny or revoke a permit. If an application is denied, the right-of-way user may address the reasons for denial identified by the city and resubmit its application. If the application is resubmitted within 30 days of receipt of the notice of denial, no additional application fee shall be imposed. The city must approve or deny the resubmitted application within 30 days after submission.

§ 52.19. Installation Requirements.

The excavation, backfilling, patching and restoration, and all other work performed in the right-of-way shall be done in conformance with Minn. R. 7819.1100 and 7819.5000 and other applicable local requirements, in so far as they are not inconsistent with the Minn. Stat., §§ 237.162 and 237.163. Installation of service laterals shall be performed in accordance with Minn. R., ch 7560 and these ordinances. Service lateral installation is further subject to those requirements and conditions set forth by the city in the applicable permits and/or agreements referenced in § 52.23 (B).

§ 52.20. Inspection.

(A) *Notice of Completion.* When the work under any permit hereunder is completed, the permittee shall furnish a completion certificate in accordance Minn. Rule 7819.1300 or other as built documentation as deemed necessary by the city engineer.

(B) *Site Inspection.* Permittee shall make the work site available to the city and to all others as authorized by law for inspection at all reasonable times during the execution of and upon completion of the work.

(C) *Authority of City Clerk.*

(1) At the time of inspection, the director may order the immediate cessation of any work which poses a serious threat to the life, health, safety, or well-being of the public.

(2) The city clerk may issue an order to the permittee for any work that does not conform to the terms of the permit or other applicable standards, conditions, or codes. The order shall state that failure to correct the violation will be cause for revocation of the permit. Within ten (10) days after issuance of the order, the permittee shall present proof to the director that the violation has been corrected. If such proof has not been presented within the required time, the

city clerk may revoke the permit pursuant to § 52.23.

§ 52.21. Work Done Without a Permit.

(A) *Emergency Situations.* Each registrant shall immediately notify the director of any event regarding its facilities that it considers to be an emergency. The registrant may proceed to take whatever actions are necessary to respond to the emergency. Excavators' notification to Gopher State One Call regarding an emergency situation does not fulfill this requirement. Within two (2) business days after the occurrence of the emergency, the registrant shall apply for the necessary permits, pay the fees associated therewith, and fulfill the rest of the requirements necessary to bring itself into compliance with this chapter for the actions it took in response to the emergency.

If the city becomes aware of an emergency regarding a registrant's facilities, the city will attempt to contact the local representative of each registrant affected, or potentially affected, by the emergency. In any event, the city may take whatever action it deems necessary to respond to the emergency, the cost of which shall be borne by the registrant whose facilities occasioned the emergency.

(B) *Non-Emergency Situations.* Except in an emergency, any person who, without first having obtained the necessary permit, obstructs or excavates a right-of-way must subsequently obtain a permit and, as a penalty, pay double the normal fee for said permit, pay double all the other fees required by the city code, deposit with the city the fees necessary to correct any damage to the right-of-way, and comply with all of the requirements of this chapter.

§ 52.22. Supplementary Notification.

If the obstruction or excavation of the right-of-way begins later or ends sooner than the date given on the permit, permittee shall notify the city of the accurate information as soon as this information is known.

§ 52.23. Revocation of Permits.

(A) *Substantial Breach.* The city reserves its right, as provided herein, to revoke any right-of-way permit without a fee refund, if there is a substantial breach of the terms and conditions of any statute, ordinance, rule or regulation, or any material condition of the permit. A substantial breach by permittee shall include, but shall not be limited to, the following:

- (1) The violation of any material provision of the right-of-way permit.
- (2) An evasion or attempt to evade any material provision of the right-of-way permit, or the perpetration or attempt to perpetrate any fraud or deceit upon the city or its citizens.
- (3) Any material misrepresentation of fact in the application for a right-of-way permit.
- (4) The failure to complete the work in a timely manner, unless a permit extension

is obtained or unless the failure to complete work is due to reasons beyond the permittee's control.

(5) The failure to correct, in a timely manner, work that does not conform to a condition indicated on an order issued pursuant to Sec. 1.20.

(B) *Written Notice of Breach.* If the city determines that the permittee has committed a substantial breach of a term or condition of any statute, ordinance, rule, regulation, or any condition of the permit, the city shall make a written demand upon the permittee to remedy such violation. The demand shall state that continued violations may be cause for revocation of the permit. A substantial breach, as stated above, will allow the city, at its discretion, to place additional or revised conditions on the permit to mitigate and remedy the breach.

(C) *Response to Notice of Breach.* Within twenty-four (24) hours of receiving notification of the breach, permittee shall provide the city with a plan, acceptable to the city, that will cure the breach. Permittee's failure to so contact the city, or permittee's failure to timely submit an acceptable plan, or permittee's failure to reasonably implement the approved plan, shall be cause for immediate revocation of the permit. Further, permittee's failure to so contact the city, or permittee's failure to submit an acceptable plan, or permittee's failure to reasonably implement the approved plan, shall automatically place the permittee on probation for one (1) full year. Icon

(D) *Cause for Probation.* From time to time, the city may establish a list of conditions of the permit, which if breached will automatically place the permittee on probation for one full year, such as, but not limited to, working out of the allotted time period or working on right-of-way grossly outside of the permit authorization.

(E) *Automatic Revocation.* If a permittee, while on probation, commits a breach as outlined above, permittee's permit will automatically be revoked and permittee will not be allowed further permits for one full year, except for emergency repairs.

(F) *Reimbursement of City Costs.* If a permit is revoked, the permittee shall also reimburse the city for the city's reasonable costs, including restoration costs and the costs of collection and reasonable attorneys' fees incurred in connection with such revocation.

§ 52.24. Mapping Data.

(A) *Information Required.* Each registrant and permittee shall provide mapping information required by the city in accordance with Minn. R. 7819.4000 and 7819.4100. Within ninety (90) days following completion of any work pursuant to a permit, the permittee shall provide the director accurate maps and drawings certifying the "as-built" location of all equipment installed, owned, and maintained by the permittee. Such maps and drawings shall include the horizontal and vertical location of all facilities and equipment and shall be provided consistent with the city's electronic mapping system, when practical or as a condition imposed by the director. Failure to provide maps and drawings pursuant to this subsection shall be grounds for revoking the permit holder's registration.

(B) *Service Laterals*. All permits issued for the installation or repair of service laterals, other than minor repairs as defined in Minn. R. 7560.0150, subp. 2, shall require the permittee's use of appropriate means of establishing the horizontal locations of installed service laterals and the service lateral vertical locations in those cases where the director reasonably requires it. Permittees or their subcontractors shall submit to the director evidence satisfactory to the director of the installed service lateral locations. Compliance with this paragraph (B) and with applicable Gopher State One Call law and Minnesota Rules governing service laterals installed after Dec. 31, 2005, shall be a condition of any city approval necessary for:

(1) payments to contractors working on a public improvement project, including those under Minn. Stat. ch. 429, and

(2) city approval under development agreements or other subdivision or site plan approval under Minn. Stat. ch. 462. The director shall reasonably determine the appropriate method of providing such information to the city. Failure to provide prompt and accurate information on the service laterals installed may result in the revocation of the permit issued for the work or future permits to the offending permittee or its subcontractors.

§ 52.25. Location and Relocation of Facilities.

(A) Placement, location, and relocation of facilities must comply with the Act, with other applicable law, with other applicable standards adopted by the city engineer, and with Minn. R. 7819.3100, 7819.5000, and 7819.5100, to the extent the rules do not limit authority otherwise available to cities.

(B) *Undergrounding*. Unless otherwise agreed in a franchise or other agreement between the applicable right-of-way user and the City, Facilities in the right-of-way must be located or relocated and maintained underground.

(C) *Corridors*. The city may assign a specific area within the right-of-way, or any particular segment thereof as may be necessary, for each type of facility that is or, pursuant to current technology, the city expects will someday be located within the right-of-way. All excavation, obstruction, or other permits issued by the city involving the installation or replacement of facilities shall designate the proper corridor for the facilities at issue.

Any registrant who has facilities in the right-of-way in a position at variance with the corridors established by the city shall, no later than at the time of the next reconstruction or excavation of the area where the facilities are located, move the facilities to the assigned position within the right-of-way, unless this requirement is waived by the city for good cause shown, upon consideration of such factors as the remaining economic life of the facilities, public safety, customer service needs, and hardship to the registrant.

(D) *Nuisance*. One year after the passage of this chapter, any facilities found in a right-of-way that have not been registered shall be deemed to be a nuisance. The city may exercise any

remedies or rights it has at law or in equity, including, but not limited to, abating the nuisance or taking possession of the facilities and restoring the right-of-way to a useable condition.

(E) *Limitation of Space.* To protect the health, safety, and welfare of the public, or when necessary to protect the right-of-way and its current use, the city shall have the power to prohibit or limit the placement of new or additional facilities within the right-of-way. In making such decisions, the city shall strive to the extent possible to accommodate all existing and potential users of the right-of-way, but shall be guided primarily by considerations of the public interest, the public's needs for the particular utility service, the condition of the right-of-way, the time of year with respect to essential utilities, the protection of existing facilities in the right-of-way, and future city plans for public improvements and development projects which have been determined to be in the public interest.

§ 52.26 Pre-Excavation Facilities Location.

In addition to complying with the requirements of Minn. Stat. 216D.01-.09 (“One Call Excavation Notice System”) before the start date of any right-of-way excavation, each registrant who has facilities or equipment in the area to be excavated shall mark the horizontal and vertical placement of all said facilities. Any registrant whose facilities are less than twenty (20) inches below a concrete or asphalt surface shall notify and work closely with the excavation contractor to establish the exact location of its facilities and the best procedure for excavation.

§ 52.27. Damage to Other Facilities.

When the city does work in the right-of-way and finds it necessary to maintain, support, or move a registrant's facilities to protect it, the city shall notify the local representative as early as is reasonably possible. The costs associated therewith will be billed to that registrant and must be paid within thirty (30) days from the date of billing. Each registrant shall be responsible for the cost of repairing any facilities in the right-of-way which it or its facilities damage. Each registrant shall be responsible for the cost of repairing any damage to the facilities of another registrant caused during the city's response to an emergency occasioned by that registrant's facilities.

§ 52.28. Right-of-way Vacation.

Reservation of right. If the city vacates a right-of-way that contains the facilities of a registrant, the registrant's rights in the vacated right-of-way are governed by Minn. R. 7819.3200.

§ 52.29. Indemnification and Liability

By registering with the city, or by accepting a permit under this chapter, a registrant or permittee agrees to defend and indemnify the city in accordance with the provisions of Minn. Rule 7819.1250.

§ 52.30. Abandoned and Unusable Facilities.

(A) *Discontinued Operations.* A registrant who has determined to discontinue all or a portion of its operations in the city must provide information satisfactory to the city that the registrant's obligations for its facilities in the right-of-way under this chapter have been lawfully assumed by another registrant.

(B) *Removal.* Any registrant who has abandoned facilities in any right-of-way shall remove it from that right-of-way if required in conjunction with other right-of-way repair, excavation, or construction, unless this requirement is waived by the city.

§ 52.31. Appeal.

A right-of-way user that: (1) has been denied registration; (2) has been denied a permit; (3) has had a permit revoked; (4) believes that the fees imposed are not in conformity with Minn. Stat. § 237.163, subd. 6; or (5) disputes a determination of the director regarding § 52.24 (B) of this ordinance may have the denial, revocation, fee imposition, or decision reviewed, upon written request, by the City Council. The City Council shall act on a timely written request at its next regularly scheduled meeting, provided the right-of-way user has submitted its appeal with sufficient time to include the appeal as a regular agenda item. A decision by the City Council affirming the denial, revocation, or fee imposition will be in writing and supported by written findings establishing the reasonableness of the decision.

§ 52.32 Reservation of Regulatory and Police Powers

A permittee's rights are subject to the regulatory and police powers of the city to adopt and enforce general ordinances as necessary to protect the health, safety, and welfare of the public.

§ 52.33. Severability.

If any portion of this chapter is for any reason held invalid by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision and such holding shall not affect the validity of the remaining portions thereof. Nothing in this chapter precludes the city from requiring a franchise agreement with the applicant, as allowed by law, in addition to requirements set forth herein.

The owner shall state, at the time application is made for the license and upon forms provided, his or her name and address and the name, breed, color, and sex of each dog owned or kept by him or her. No license shall be granted for a dog that has not been vaccinated against distemper and rabies, as evidenced by a certificate by a veterinarian qualified to practice in the state in which the dog is vaccinated.

(2) It shall be the duty of each owner of a dog subject to this section to pay to the City Clerk/Treasurer the license fee established in the Ordinance Establishing Fees and Charges adopted pursuant to § 32.20, as it may be amended from time to time.

(3) Upon payment of the license fee as established by the Ordinance Establishing Fees and Charges adopted pursuant to § 32.20 of this code, as that ordinance may be amended from time to time, the Clerk/Treasurer shall issue to the owner a license certificate and metallic tag for each dog licensed. The tag shall have stamped on it and the number corresponding with the number on the certificate. Every owner shall be required to provide each dog with a collar to which the license tag must be affixed, and shall see that the collar and tag are constantly worn. In case a dog tag is lost or destroyed, a duplicate shall be issued by the City Clerk/Treasurer. A charge shall

be made for each duplicate tag in an amount established in the Ordinance Establishing Fees and Charges adopted pursuant to § 32.20, as it may be amended from time to time. Dog tags shall not be transferable from one dog to another and no refunds shall be made on any dog license fee or tag because of death of a dog or the owner's leaving the city before the expiration of the license period.

(4) The licensing provisions of this division (B) shall not apply to dogs whose owners are nonresidents temporarily within the city, nor to dogs brought into the city for the purpose of participating in any dog show. If the animal owned is a service animal which is capable of being properly identified as from a recognized school for seeing eye, hearing ear, service or guide animals, and the owner is a blind or deaf person, or a person with physical or sensory disabilities, then no license shall be required.

(5) The funds received by the City Clerk/Treasurer from all dog licenses and metallic tags fees shall first be used to defray any costs incidental to the enforcement of this chapter; including, but not restricted to, the costs of licenses, metallic tags, and impounding and maintenance of the dogs.

(C) *Vaccination.*

(1) All dogs and cats kept harbored, maintained, or transported within the city shall be vaccinated at least once every three years by a licensed veterinarian for:

- (a) Rabies - with a live modified vaccine; and
- (b) Distemper.

(2) A certificate of vaccination must be kept on which is stated the date of vaccination, owner's name and address, the animal's name (if applicable), sex, description and weight, the type of vaccine, and the veterinarian's signature. Upon demand made by the City Clerk/Treasurer, the Animal Control Officer or a law enforcement, the owner shall present for examination the required certificate(s) of vaccination for the animal(s). In cases where certificates are not presented, the owner or keeper of the animal(s) shall have seven days in which to present the certificate(s) to the City Clerk/Treasurer or officer. Failure to do so shall be deemed a violation of this section.
Penalty, see § 91.99

§ 91.03 NON-DOMESTIC ANIMALS.

It shall be illegal for any person to own, possess, harbor, or offer for sale, any non-domestic animal within the city. Any owner of a non-domestic animal at the time of adoption of this code shall have 30 days in which to remove the animal from the city after which time the city may impound the animal as provided for in this section. An exception shall be made to this prohibition for animals specifically trained for and actually providing assistance to the handicapped or disabled, and for those animals brought into the city as part of an operating zoo, veterinarian clinic, scientific research laboratory, or a licensed show or exhibition.
Penalty, see § 91.99

§ 91.04 FARM ANIMALS.

The keeping of farm animals shall be prohibited in all zoning districts. An exception shall be made to this section for those animals brought temporarily into the city as part of an operating zoo, veterinarian clinic, scientific research laboratory, or a licensed show or exhibition.

§ 91.05 IMPOUNDING.

(A) *Running at large.* Any unlicensed animal running at large is hereby declared a public nuisance. Any Animal Control Officer or law enforcement may impound any dog or other animal found unlicensed or any animal found running at large and shall give notice of the impounding to the owner of the dog or other animal, if known. The Animal Control Officer or law enforcement shall not enter the property of the owner of an animal found running at large or the owner of an unlicensed animal unless the officer has first obtained the permission of the owner to do so or has obtained a warrant issued by a court of competent jurisdiction, to search for and seize the animal. In case the owner is unknown, the officer shall post notice at the city office that if the dog or other animal is not claimed within the time specified in division (C) of this section, it will be sold or otherwise disposed of. Except as otherwise provided in this section, it shall be unlawful to kill, destroy, or otherwise cause injury to any animal, including dogs and cats running at large.

(B) *Biting animals.* Any animal that has not been inoculated by a live modified rabies vaccine and which has bitten any person, wherein the skin has been punctured or the services of a doctor are required, shall be confined in the city pound for a period of not less than 10 days, at the expense of the owner. The animal may be released at the end of the time if healthy and free from symptoms of rabies, and by the payment of all costs by the owner. However, if the owner of the animal shall elect immediately upon receipt of notice of need for the confinement by the officer to voluntarily and immediately confine the animal for the required period of time in a veterinary hospital of the owner's choosing, not outside of the county in which this city is located, and provide immediate proof of confinement in the manner as may be required, the owner may do so. If, however, the animal has been inoculated with a live modified rabies vaccine and the owner has proof of the vaccination by a certificate from a licensed veterinarian, the owner may confine the dog or other animal to the owner's property.

(C) *Reclaiming.* All animals conveyed to the pound shall be kept, with humane treatment and sufficient food and water for their comfort, at least five regular business days, unless the animal is a dangerous animal as defined under § 91.11 in which case it shall be kept for seven regular business days or the times specified in § 91.11, and except if the animal is a cruelly-treated animal in which case it shall be kept for 10 regular business days, unless sooner reclaimed by their owners or keepers as provided by this section. In case the owner or keeper shall desire to reclaim the animal from the pound, the following shall be required, unless otherwise provided for in this code or established from time to time by resolution of the City Council:

(3) If a dog is unlicensed, payment of a regular license fee as established by the Ordinance

Establishing Fees and Charges adopted pursuant to § 32.20 of this code, as that ordinance may be amended from time to time, and valid certificate of vaccination for rabies and distemper shots is required.

(D) *Unclaimed animals.* At the expiration of the times established in division (C) of this section, if the animal has not been reclaimed in accordance with the provisions of this section, the officer appointed to enforce this section may let any person claim the animal by complying with all provisions in this section, or the officer may sell the animal to the University of Minnesota, or cause the animal to be destroyed in a proper and humane manner and shall properly dispose of the remains thereof. Any money collected under this section shall be payable to the City Clerk/Treasurer.

(B) *Kennel as a Nuisance.* Because the keeping of three or more dogs on the same premises is subject to great abuse, causing discomfort to persons in the area by way of smell, noise, hazard, and general aesthetic depreciation, the keeping of three or more dogs on the premises is hereby declared to be a nuisance and no person shall keep or maintain a kennel within the city.

§ 91.07 NUISANCES.

(A) *Habitual barking.* It shall be unlawful for any person to keep or harbor a dog which habitually barks or cries. (D) *Warrant required.* The Animal Control Officer or law enforcement shall not enter the property of the owner of an animal described in this section unless the officer has first obtained the permission of the owner to do so or has obtained a warrant issued by a court of competent jurisdiction, to search for and seize the animal.

(E) *Other.* Any animals kept contrary to this section are subject to impoundment as provided in § 91.05.

Penalty, see § 91.99

(B) The law enforcement or animal control officer reasonably believes that the animal meets either the barking dog criteria set out in § 91.07 (A); the criteria for cruelty set out in § 91.13; or the criteria for an at large animal set out in § 91.01 (E);

(C) The officer can demonstrate that there has been at least one previous complaint of a barking dog; inhumane treatment of the animal; or that the animal was at large at this address on a prior date;

(D) The law enforcement or animal control officer has made a reasonable attempt to contact the owner of the animal and the property to be entered and those attempts have either failed or have been ignored;

(E) The animal control officer or law enforcement shall not enter the property of the owner of an animal described in this section unless the officer has first obtained the permission of the owner to do so or has obtained a warrant issued by a court of competent jurisdiction, to search for and seize the animal. If the officer has the permission of the owner, a property manager, landlord, innkeeper, or other authorized person to enter the property or has obtained a pass key from a property manager, landlord, innkeeper, or other authorized person to have that key shall not be considered unauthorized entry, and a warrant to search for and seize the animal need not be obtained; and

(F) Written notice of the seizure is left in a conspicuous place if personal contact with the owner of the animal is not possible.

§ 91.09 ANIMALS PRESENTING A DANGER TO HEALTH AND SAFETY OF CITY.

If, in the reasonable belief of any person or the Animal Control Officer or law enforcement, an animal presents an immediate danger to the health and safety of any person, or the animal is threatening imminent harm to any person, or the animal is in the process of attacking any person, the person or officer may destroy the animal in a proper and humane manner whether or not the animal is on the property of its owner. Otherwise, the person or officer may apprehend the animal and deliver it to the pound for confinement under § 91.05. If the animal is destroyed, the owner or keeper of the animal destroyed shall be liable to the city for the cost of maintaining and disposing of the animal, plus the costs of any veterinarian examination. If the animal is found not to be a danger to the health and safety of the city, it may be released to the owner or keeper in accordance with § 91.05 (C).

§ 91.10 DISEASED ANIMALS.

(A) *Running at large.* No person shall keep or allow to be kept on his or her premises, or on premises occupied by them, nor permit to run at large in the city, any animal which is diseased so as to be a danger to the health and safety of the city, even though the animal be properly licensed under this section, and a warrant to search for and seize the animal is not required.

(B) *Confinement.* Any animal reasonably suspected of being diseased and presenting a threat to the health and safety of the public, may be apprehended and confined in the pound by any person, the Animal Control Officer or law enforcement. The officer shall have a qualified veterinarian examine the animal. If the animal is found to be diseased in a manner so as to be a danger to the health and safety of the city, the officer shall cause the animal to be painlessly killed and shall properly dispose of the remains. The owner or keeper of the animal killed under this section shall be liable to the city for the cost of maintaining and disposing of the animal, plus the costs of any veterinarian examinations.

(C) *Release.* If the animal, upon examination, is not found to be diseased the animal shall be released to the owner or keeper free of charge.

Penalty, see § 91.99

A proper enclosure does not include a porch, patio, or any part of a house, garage, or other structure that would allow the animal to exit of its own volition, or any house or structure in which windows are open or in which door or window screens are the only barriers which prevent the animal from exiting. The enclosure shall not allow the egress of the animal in any manner without human assistance. A pen or kennel shall meet the following minimum specifications:

(1) If no appeal is filed, the Animal Control Officer shall obtain an order or warrant authorizing the seizure and the destruction of the animal from a court of competent jurisdiction, unless the animal is already in custody or the owner consents to the seizure and destruction of the animal.

(2) If an owner requests a hearing for determination as to the dangerous nature of the animal, the hearing shall be held before the City Council, which shall set a date for hearing not more than three weeks after demand for the hearing. The records of the Animal Control or City Clerk/Treasurer's office shall be admissible for consideration by the Animal Control Officer without further foundation. After considering all evidence pertaining to the temperament of the animal, the City Council shall make an order as it deems proper. The City Council may order that the Animal Control Officer take the animal into custody for destruction, if the animal is not currently in custody. If the animal is ordered into custody for destruction, the owner shall immediately make the animal available to the Animal Control Officer. If the owner does not immediately make the animal available, the Animal Control Officer shall obtain an order or warrant authorizing the seizure and the destruction of the animal from a court of competent jurisdiction.

(3) No person shall harbor an animal after it has been found to be dangerous and ordered into custody for destruction.

(H) *Stopping an attack.* If any law enforcement or Animal Control Officer is witness to an attack by an animal upon a person or another animal, the officer may take whatever means the officer deems appropriate to bring the attack to an end and prevent further injury to the victim.

liable to the city for costs incurred in confining and impounding the animal.

The owner may request a hearing as defined in § 91.11(F). If the owner is found to have violated the provisions for which the animal was seized, the Animal Control Officer shall order the animal destroyed in a proper and humane manner and the owner shall pay the costs of confining the animal. No owner or occupant shall allow snow, ice, dirt, or rubbish to remain on the walk longer than 24 hours after its deposit thereon. Failure to comply with this section shall constitute a violation.

(2) *Removal by city.* The City Clerk/Treasurer or other person designated by the City Council may cause removal from all public sidewalks all snow, ice, dirt, and rubbish as soon as possible beginning 24 hours after any matter has been deposited thereon or after the snow has ceased to fall. The City Clerk/Treasurer or other designated person shall keep a record showing the cost of removal adjacent to each separate lot and parcel.

(C) *Public health and safety hazards.* When the city removes or eliminates public health or safety hazards from private property under the following provisions of this chapter, the administrative officer responsible for doing the work shall keep a record of the cost of the removal or elimination against each parcel of property affected and annually deliver that information to the City Clerk/Treasurer.

(D) *Installation and repair of water service lines.* Whenever the city installs or repairs water service lines serving private property under this code, the City Clerk/Treasurer shall keep a record of the total cost of the installation or repair against the property.

(E) *Repair of sidewalks and alleys.*

If it is found that any sidewalk abutting on private property is unsafe and in need of repairs,

Ellendale – General Provisions

the City Council shall cause a notice to be served, by registered or certified mail or by personal service, upon the record owner of the property, ordering the owner to have the sidewalk repaired and made safe within 90 days or with proof of intent to do the repairs and stating that if the owner fails to do so, the city will do so and that the expense thereof must be paid by the owner, and if unpaid it will be made a special assessment against the property concerned.

(3) *Repair by city.* If the sidewalk is not repaired within 90 days after receipt of the notice, the City Clerk/Treasurer shall report the facts to the City Council and the City Council shall by resolution order the work done by contract in accordance with law. The City Clerk/Treasurer shall keep a record of the total cost of the repair attributable to each lot or parcel of property.

(F) *Personal liability.* The owner of property on which or adjacent to which a current service has been performed shall be personally liable for the cost of the service. Any person who willfully acts or fails to exercise due care and by that act damages any public property shall be liable for the amount thereof, which amount shall be collectable by action or as a lien under M.S. § 514.67, as it may be amended from time to time.

(H) *Assessment.* On or before November 29 of each year, the City Clerk/Treasurer shall list the total unpaid charges for each type of current service and charges under this section against each separate lot or parcel to which they are attributable under this section. The City Council may then spread the charges against property benefitted as a special assessment under the authority of M.S. § 429.101, as it may be amended from time to time, and other pertinent statutes for certification to the County Auditor and collection along with current taxes the following year or in annual installments, not exceeding 10, as the City Council may determine in each case.

Any peace officer or designated person shall have the power to inspect private premises and take all reasonable precautions to prevent the commission and maintenance of public nuisances. Except in emergency situations of imminent danger to human life and safety, no law enforcement or designated person shall enter private property for the purpose of inspecting or preventing public nuisances without the permission of the owner, resident, or other person in control of the property, unless the officer or person designated has obtained a warrant or order from a court of competent jurisdiction authorizing the entry.

(1) *Notice of violation.* Written notice of violation shall be served by a peace officer or designated person on the owner of record or occupant of the premises either in person or by certified or registered mail. If the premise is not occupied, the owner of record is unknown, or the owner of record or occupant refuses to accept notice of violation, notice of violation shall be served by posting it on the premises.

(2) *Notice of City Council hearing.* Written notice of any City Council hearing to determine or

abate a nuisance shall be served on the owner of record and occupant of the premises either in person or by certified or registered mail. The notice of violation shall specify the steps to be taken to abate the nuisance and the time within which the nuisance is to be abated. If the notice of violation is not complied with within the time specified; the officer or designated person shall report that fact forthwith to the City Council. Thereafter, the City Council may, after notice to the owner or occupant and an opportunity to be heard, determine that the condition identified in the notice of violation is a nuisance and further order that if the nuisance is not abated within the time prescribed by the City Council, the city may seek injunctive relief by serving a copy of the City Council order and notice of motion for summary enforcement or obtain an administrative search and seizure warrant and abate the nuisance.

(C) *Emergency procedure; summary enforcement.* In cases of emergency, where delay in abatement required to complete the notice and procedure requirements set forth in divisions (A) and (B) above will permit a continuing nuisance to unreasonably endanger public health safety or welfare, the City Council may order summary enforcement and abate the nuisance. To proceed with summary enforcement, the officer or designated person shall determine that a public nuisance exists or is being maintained on premises in the city and that delay in abatement of the nuisance will unreasonably endanger public health, safety, or welfare. The officer or designated person shall notify in writing the occupant or owner of the premises of the nature of the nuisance and of the city's intention to seek summary enforcement and the time and place of the City Council meeting to consider the question of summary enforcement. The City Council shall determine whether or not the condition identified in the notice to the owner or occupant is a nuisance, whether public health, safety, or welfare will be unreasonably endangered by delay in abatement required to complete the procedure set forth in division (A) above, and may order that the nuisance be immediately terminated or abated. If the nuisance is not immediately terminated or abated, the City Council may order summary enforcement and abate the nuisance.

(D) *Immediate abatement.* Nothing in this section shall prevent the city, without notice or other process, from immediately abating any condition which poses an imminent and serious hazard to human life or safety.

The City Council may then spread the charges against the property under that statute and other pertinent statutes for certification to the County Auditor and collection along with current taxes the following year or in annual installments, not exceeding 10, as the City Council may determine in each case.

CHAPTER 111: SEXUALLY-ORIENTED BUSINESSES

Section

- 111.01 Purpose
- 111.02 Findings
- 111.03 Definitions
- 111.04 Classification
- 111.05 Location of sexually-oriented businesses
- 111.06 Regulations pertaining to exhibition of sexually-explicit films, videos, or live entertainment in viewing rooms
- 111.07 Additional regulations for escort agencies
- 111.08 Additional regulations for nude model studios
- 111.09 Additional regulations concerning public nudity
- 111.10 Prohibition against children in a sexually-oriented business
- 111.11 Hours of operation
- 111.12 Exemptions
- 111.13 Effective date

§ 111.01 PURPOSE.

It is the purpose of this chapter to regulate sexually-oriented businesses in order to promote the health, safety, morals, and general welfare of the citizens of the city and to establish reasonable and uniform regulations to prevent the deleterious location and concentration of sexually-oriented businesses within the city. The provisions of this chapter have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually-oriented materials. Similarly, it is not the intent nor effect of this chapter to restrict or deny access by adults to sexually-oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually-oriented entertainment to their intended market. Neither is it the intent nor effect of this chapter to condone or legitimize the distribution of obscene material.

§ 111.02 FINDINGS.

Based on evidence concerning the adverse secondary effects of adult uses in other communities and also on findings found in the *Report of Attorney General's Working Group on the Regulation of Sexually-Oriented Businesses* (6-6-1989, State of Minnesota), the Council finds:

(A) Sexually-oriented businesses in the city lend themselves to ancillary unlawful and unhealthy activities that are presently uncontrolled by the operators of the establishments. Further, there is presently no mechanism to make the owners of these establishments responsible for the activities that occur on their premises;

(B) Certain employees of sexually-oriented businesses defined in this chapter as adult theaters and cabarets engage in a higher incidence of certain types of sexually-oriented behavior at these businesses than employees of other establishments;

(C) Sexual acts, including masturbation, oral sex, and anal sex, occur at sexually-oriented businesses, especially those that provide private or semi-private booths or cubicles for viewing films, videos, or live sex shows, as defined under this chapter as adult bookstores, adult novelty shops, adult video stores, adult motion picture theaters, or adult arcades;

(D) Offering and providing the space encourages the activities which create unhealthy conditions;

(E) Persons frequent certain adult theaters, adult arcades, and other sexually-oriented businesses for the purpose of engaging in sex within the premises of the sexually-oriented businesses;

(F) At least 50 communicable diseases may be spread by activities occurring in sexually-oriented businesses, including, but not limited to, syphilis, gonorrhea, human immunodeficiency virus infection (AIDS), genital herpes, hepatitis B, and salmonella infections;

(G) Sanitary conditions in some sexually-oriented businesses are unhealthy, in part, because the activities conducted there are unhealthy, and, in part, because of the unregulated nature of the activities and the failure of the owners and the operators of those facilities to self-regulate those activities and maintain those facilities;

(H) Numerous studies and reports have determined that semen is found in the areas of sexually-oriented businesses where persons view "adult" oriented films;

(I) Sexually-oriented businesses have operational characteristics, which should be reasonably regulated in order to protect those substantial governmental concerns;

(J) Removal of doors on adult booths and requiring sufficient lighting on premises with adult booths advances a substantial governmental interest in curbing the illegal and unsanitary sexual activity occurring in adult theaters; and

(K) The general welfare, health, and safety of the citizens of the city will be promoted by the enactment of this chapter.

The Building Inspector shall investigate all applications for the registration certificate to verify that the dwelling units offered for rent comply with the provisions of this subchapter, or any applicable federal or state statute or administrative rule, or any other city or county ordinance.

§ 116.07 ISSUANCE, POSTING OF REGISTRATION CERTIFICATE.

Whenever the investigation of an application indicates that the dwelling units comply with all provisions of this subchapter, or any applicable federal or state statute or administrative rule, or any other city or county ordinance, the City Clerk shall issue a registration certificate. Every registrant of a dwelling unit shall post the registration certificate in a conspicuous place.

§ 116.08 NOTICE OF VIOLATION.

(A) Whenever the investigation of an application for registration certificate indicates that the dwelling unit does not comply with this subchapter or any applicable federal or state statute or administrative rule, or any other city or county ordinance, the Building Inspector shall serve a notice of violation on the applicant in the manner hereafter provided:

(B) Such notice shall:

- (1) Be in writing;
- (2) Include the street address or other description of the real estate sufficient for identification;
- (3) Include a statement of the violation or violations for which the notice is being issued;
- (4) Specify a reasonable time for the performance of any act it requires; and

(5) Be served upon the owner, or the agent, by personal service or by leaving a copy at the owner or agent's usual place of abode with a person of suitable age and discretion then resident therein; or by depositing the notice in the United States post office addressed to the owner at the owner's last known address with postage prepaid thereon or if service cannot be made by any one of the above means then such notice shall be deemed served if a copy of such notice be posted and kept posted for 48 hours in a conspicuous place on the premises affected by such notice. Such notice may contain an outline of remedial actions, which if taken, will effect compliance with the provisions of this subchapter.

(C) Owners of rental property shall give notice of outstanding violations of this section to any purchaser of such property.

§ 116.09 REJECTION OF APPLICATION.

Whenever the investigation of an application for registration certificate indicates that the dwelling unit does not comply with the provisions of this subchapter, and from the nature of the violations, the dwelling cannot be brought up to meet the minimum requirements, the Building Inspector shall return the application to the applicant stating the reasons for the rejection of the application.

§ 116.10 TEMPORARY RENTAL REGISTRATION CERTIFICATES.

The City Clerk may issue a temporary rental registration certificate when corrections required following inspection do not constitute a fire, safety or health hazard to the tenants or the general public, and the repairs are not immediately practicable or feasible as a result of factors beyond the rental property owner's control. Such factors may include climatic conditions, or the unavailability of contractors, supplies or materials needed to make the corrections. A temporary rental registration certificate shall be conditioned upon the rental property owner making the needed corrections with timelines determined by the Building Inspector and identified on the temporary certificate. The temporary certificate shall expire if the work is not completed, inspected and approved by the Building Inspector by the date listed thereon.

§ 116.11 APPEALS.

(A) Any applicant whose application for registration certificate, after investigation has been rejected by the Building Inspector, may request and shall be granted a hearing in the matter before the City Council under the procedures set forth hereafter in division (B) below.

(B) (1) *Appeals to the Fire Code Board of Appeals.* Any person affected by any notice of violation or emergency order issued and served pursuant to this subchapter or otherwise adversely affected by the administration of this subchapter, shall be granted a hearing before the City Council upon filing in the office of the City Clerk a written petition requesting such hearing and setting forth a brief statement of the grounds therefor. The petition shall be filed within 20 days after the notice is served, order issued or other adverse action taken.

(2) *Date of hearing.* The hearing requested shall be held not more than 30 days after the day on which the petition is filed or within ten days of such filing in case of an emergency order. The Mayor may postpone the date of the hearing for a reasonable time beyond such period if a good and sufficient reason exists for such postponement and in the case of an emergency order the Mayor determines that adequate safeguards will be taken to provide for the health and safety of the occupants and general public during such postponement.

(3) *Notice of hearing.* The City Clerk shall cause five days' written notice of the hearing to be given to the petitioner by personal service or by mailing to the petitioner's last known address.

(4) *Proceedings.* At such hearing, the petitioner, petitioner's agent or attorney shall be given an opportunity to be heard and to show cause why the notice of alleged violation or emergency order issued by the Building Inspector or other action taken adverse to petitioner should be modified or withdrawn. The Building Inspector shall present a written statement of the findings and decision to the City Council at the time of the hearing together with evidence in support of the violation, order or other action taken.

(5) *Decisions of the City Council.*

(a) After such hearing, the City Council shall sustain, modify or withdraw the notice of alleged violation or emergency order or other action taken depending upon its findings as to

whether the provisions of this subchapter have been complied with. If the City Council sustains or modifies such notice or emergency order, or other administrative action, it shall be deemed to be an order. A copy of the decision of the City Council shall be served by mail on the petitioner.

(b) With respect to existing buildings, whenever it is not practicable or feasible to require strict compliance with the substantive provisions of this subchapter, or any applicable federal or state statute or administrative rule, or any other city or county ordinance, the City Council may approve a variance from such provisions when, in its judgment, existing conditions are in acceptable compliance with the spirit and intent of the code and reasonably safeguard the health, safety and welfare of the occupants and the public.

(6) *Record of proceedings.* The proceedings of each hearing held before the City Council, including the findings and decision of the Building Inspector, shall be reduced to writing and entered as a public record in the office of the Building Inspector. Such record shall include a copy of every notice, order, stay or other writing issued in connection with the matter.

(7) *Stays.* The City Council may stay enforcement of an order made after a hearing for a reasonable length of time; provided, however, that, the City Council shall first find that immediate enforcement of the order would result in extreme hardship to the person or persons affected and that the immediate health, safety and welfare of the occupants and the public will not be jeopardized by such stay.

(8) *Notices not appealed.* Any notice served shall automatically become an order if a written petition for a hearing is not filed with the City Clerk within 20 days after the notice was served.

(9) *Appeals from Board decisions.* Any person aggrieved by the decision of the City Council may seek relief therefrom in any court of competent jurisdiction as provided by the laws of the state.

§ 116.12 CERTIFICATE RENEWAL AND NON-TRANSFERABILITY.

(A) All registration certificates shall expire two years after date of issuance and must be renewed upon the expiration of the two-year term. All information required by § 116.04(C) of this chapter must be submitted at the time of renewal. Whenever the applicant certifies that no change has been made in a registered dwelling unit, and the registered unit has been inspected within the preceding 12 months, a renewal registration certificate may be issued without reinspection by the Building Inspector; provided, the owner certifies that the units are in compliance with this code, including any applicable provisions of the zoning, building, fire safety or health ordinances.

(B) Every person who transfers title to property registered under this section shall provide the City Clerk with the name, residence address and telephone number of the new owner, and date of the transfer of title within ten days of the date of such transfer. Within 30 days of the date of such transfer, the new owner shall apply for a new registration certificate. In the case of a contract for deed the purchaser shall be deemed to be the owner of the property for purposes of this section

and shall be required to apply for a rental registration certificate in his or her name. The date on the contract for deed shall be deemed to be the date the purchaser becomes the “owner” for purposes of this section.

(C) Registration certificates may not be transferred or assigned.

§ 116.13 SUSPENSION OR REVOCATION OF CERTIFICATE.

(A) Any registration certificate issued by the city pursuant to the provisions of this section may be suspended or revoked upon a finding that the certificate holder, during the term of the certificate, failed to comply with any provisions of this subchapter, or any applicable federal or state statute or administrative rule, or any other city or county ordinance.

(B) A person’s right to apply and receive a registration certificate may be suspended or revoked upon a finding that the applicant has let to another for occupancy any dwelling unit without first obtaining a registration certificate as required by this section or who has failed to comply with any provisions of this subchapter, or any applicable federal or state statute or administrative rule, or any other city or county ordinance.

(C) Whenever it appears to the city that adequate grounds may exist for the suspension or revocation of a registration certificate, or the right to receive a registration certificate, the City Clerk shall by notice as provided in § 116.08 of this chapter, specify the nature of the alleged grounds and order that a hearing on the matter be held as provided below.

(D) No such suspension or revocation shall be effective until the licensee or permit holder has been afforded an opportunity for hearing before the City Council as set forth in § 116.11(B) of this chapter.

(E) Upon a finding that the registration certificate holder or applicant has violated any such statute, rule or ordinance, the city may invoke any of the sanctions provided in § 116.04 of this chapter.

§ 116.14 FEES.

(A) The biannual rental dwelling unit license and inspection fee shall be in an amount duly established in the city’s master fee schedule. No license shall be issued under this section until the appropriate license fee shall be paid in full.

(B) In the event the Building Inspector or his or her designee fails to attend a scheduled inspection without good cause, the inspection fee will be reimbursed to the applicant.

§ 116.15 CONDUCT OF RENTAL PREMISES.

(A) A rental property owner shall be responsible to take appropriate action against persons occupying specific units in the licensed premises or premises who conduct themselves in such a manner as to cause the premises to be disorderly in violation of the statutes and ordinances listed in division (B) below. For the purposes of this section, the term “Persons Occupying the Premises” shall include residential tenants as defined by Minn. (20) Minn. Stat. § 299F.362, as it may be amended from time to time, prohibiting the willful disabling of a smoke detector.

(C) The city's designated law enforcement shall be charged with the responsibility of enforcing division (B) above.

(D) Upon determination by the city that the licensed premises were involved in a disorderly use, the city shall notify the license holder by regular mail of such violation and direct the license holder to take appropriate action to prevent further violations. Notice shall be effective if mailed to the license holder at the person's last known address. This and subsequent notices are collectively referred to as "disorderly use notices".

(E) If another instance of disorderly use of the premises occurs within 12 months of an incident for which a prior disorderly use notice was given, the license holder shall be notified of the instance of disorderly use and shall also be required to submit a written report of appropriate actions taken by the rental property owner to prevent further disorderly use of the premises. The written report shall be submitted to the city within five days of the notice of disorderly use of the premises and shall, in addition to the report of appropriate actions to be taken, detail all actions taken by the rental property owner in response to all notices of disorderly use of the premises within the preceding 12 months. Failure to submit a written report as required herein shall be a basis for the imposition of a fine and the revocation or suspension of the license or right to receive

Ellendale – Business Regulations

the license for the specific unit or units located on the licensed premises as otherwise provided for in this section. If the notice of violation has been issued with respect to a common area of the building or complex of buildings, then the license or right to obtain such license as to all units in such building or complex may be suspended or revoked.

(F) If another instance of disorderly use of the premises occurs within 12 months of the two or more prior disorderly use notices, the license or right to obtain such license may be revoked or suspended for a specific unit or units located on the licensed premises. If the notice of violation has been issued with respect to a common area of the building or complex of buildings, then the license or right to obtain such license as to all units in such building or complex may be suspended or revoked.

(G) If another instance of disorderly use occurs within 12 months of the expiration of a prior suspension issued pursuant to the provisions of this section, the license or right to obtain such license may be revoked or suspended for the specific unit or units located on the licensed premises. If the notice of violation has been issued with respect to a common area of a building or complex of buildings, then the license or right to obtain such license as to all units in such building or complex may be suspended or revoked.

(H) No suspension or revocation or other sanctions shall be imposed where one or more of the three required disorderly use notices were mailed or delivered to the landlord after the rental property owner has filed an unlawful detainer action with the district court for the particular unit or units identified in the disorderly use notice. Calls to the police made by rental property owners or managers shall not be considered incidents of disorderly use in the implementation of divisions (D), (E), (F) and (G) above. The initiation of an unlawful detainer action shall not be a bar to sanctions, however, unless the action is diligently pursued by the rental property owner. Notice of and a copy of the unlawful detainer action shall be delivered to the Chief of Police. A determination that the licensed premises have been involved in a disorderly use, as described in division (B) above, shall be made upon the preponderance of the evidence. It shall not be necessary that criminal charges be brought against a tenant or other person to support a determination of disorderly use, nor shall the fact of dismissal or acquittal of such criminal charge operate as a bar to adverse license action under this section.

(I) This subchapter applies to all leases, whether written or oral, and a landlord may consider any tenant's conduct listed in division (B) above, to be both a material breach of the lease and grounds for termination in any unlawful detainer action.

(J) This subchapter is not intended to supersede criminal sanctions that may be applied to the individual who violates the statutes and ordinances in division (B) above.

(K) Consistent with Minn. Stat. § 5048.205, Subd. 3, nothing in this subchapter:

(1) Requires an eviction after a specified number of calls by residential tenant for police or emergency assistance in response to domestic abuse or any other conduct; or

(2) Provides that calls by a residential tenant for police or emergency assistance in

response to domestic abuse or any other conduct may be used to penalize or assess a fine to a landlord.

CHAPTER 117: VACANT BUILDING IDENTIFICATION AND REGULATION

Section

117.01 Vacant Building Identification and Regulation

§ 117.01 VACANT BUILDING IDENTIFICATION AND REGULATION

(A) Purposes and findings.

(1) The purpose of this section is to protect the public health, safety and welfare by establishing a program for the identification and regulation of vacant and abandoned buildings within the city. This section also determines the responsibilities of owners of vacant buildings and provides for administration, enforcement and penalties associated with the same.

(2) The City Council finds that vacant buildings are a major cause and source of blight in residential and non-residential neighborhoods, especially when the owner or party responsible for a building fails to maintain and manage the building to ensure it does not become a liability to the neighborhood. Vacant buildings often attract transients, trespassers and criminals. Neglect of vacant buildings and the use of vacant buildings by transients and criminals creates a risk of fire, and other structural damage of the vacant building and adjacent properties. Vacant properties are often used as dumping grounds for junk and debris and are frequently overgrown with weeds and tall grass. Vacant buildings that are boarded to prevent entry by transients and other long-term vacancies are unsightly, discourage economic development and inhibit the increase of property values. There is a substantial cost to the city in monitoring vacant buildings. This cost should not be born borne by the general taxpayers but should be borne by those who leave their buildings vacant.

(3) Pursuant to authority provided in M.S. § 463.26, permitting cities to enact and enforce ordinances regarding hazardous buildings, and in order to enhance livability and preserve the tax base and property values of buildings within the city, and because of the need to assure that buildings which are capable of rehabilitation are promptly rehabilitated and buildings which are not capable of rehabilitation be promptly demolished, the city hereby declares that it is the policy of the city to promote rehabilitation of vacant and unoccupied buildings, and to assure a prompt process for demolition of hazardous buildings through a procedure fixing appropriate responsibility in accordance with due process requirements.

(B) Definitions. For the purpose of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section:

(1) **ABANDONED PROPERTY.** Property that: (1) has been substantially unoccupied or unused for any commercial or residential purpose for at least one (1) year by a person with a

legal or equitable right to occupy the property; (2) has not been maintained; and (3) for which taxes have not been paid for at least two (2) previous years.

(3) **CITY.** The City of Ellendale, State of Minnesota.

(4) **COMPLIANCE OFFICIAL.** The Codification Committee or other designee authorized to administer and enforce this section.

(5) **OWNER OF RECORD.** The fee owner, contract for deed vendee, mortgagee in foreclosure, holder of sheriff's certificate, and taxpayer as shown on the real property records of Steele County, or the authorized agent of any of the preceding persons.

(6) **RESPONSIBLE PARTY.** An owner, entity or person acting as an agent for the owner who has direct or indirect control or authority over the building or real property upon which the building is located or any party having a legal or equitable interest in the property, including but not limited to a realtor, service provider, mortgagor, leasing agent, management company or similar person or entity.

Ellendale – Business Regulations

(i) The yard on the property exhibit grass, lawn, weeds, and other vegetation which are not maintained to the standards prevailing in the neighborhood and/or city code.

(C) *Securing vacant buildings.* Any building which becomes unsecured or vacant may be deemed hazardous. If the hazardous condition could be abated by securing the building, the City Council may order the building secured and shall cause notice of the order to be served by United States Mail on the record owner at its last known address. The notice must be in writing and must include, at a minimum, a statement that:

(1) Informs the owner of record that it has ten (10) days, from the date of the notice, to secure the building or provide the council with a reasonable plan and schedule to comply with the order and that costs may be assessed against the property if the person does not secure the building.

(2) Provides the owner of record with a copy of right of entry by holder of mortgage or sheriff's certificate to protect the premises from waste and trespass.

Service by mail is complete upon mailing.

(D) *Emergency securing of vacant buildings.* When the City Council or the Compliance Official determines that a vacant or unsecured building poses an immediate threat to the health or safety of persons on the community and the immediate securing of a building is required to protect health and safety, all notice requirements herein are waived and the building may be secured by the city, provided that:

(1) The conditions showing the existence of an immediate threat are documented in a written report.

(2) A copy of the written report and the city action taken are mailed immediately to the owner of record and any neighborhood association.

(3) *Collection of costs.* All costs incurred by the city for securing a vacant building under this section may be charged against the real property.

(E) *Vacant building registration.*

(1) *Application.*

(a) The owner or responsible party shall register a vacant building with the city no later than 120 days after the building becomes vacant. The registration shall be submitted on a form provided by the city and shall include the following information supplied by the owner:

(1) The names, addresses, telephone number and email addresses of each owner and each owner's representative;

(2) The tax parcel identification number and street address of the premises on which the building is situated;

(3) The names, addresses, telephone numbers and email addresses of all known lien holders and all other parties with any legal interest in the building;

(4) The name, address, telephone number and email address of a local agent or person responsible for managing or maintaining the property;

(5) The status of water, sewer, natural gas and electric utilities; and

(6) The date the building became vacant, the period of time the building is expected to remain vacant, and a property plan and timetable for returning the building to appropriate occupancy or use and correcting code violations and nuisances or for demolition of the building.

(b) The owner shall notify the inspector within 30 days of changes in any of the information supplied as part of the vacant building registration and shall continue to do so on an ongoing basis during vacancy.

(2) *Property plan.* The property plan shall meet the following requirements:

(a) *General provisions.* The plan shall comply with all applicable regulations and meet the approval of the Inspector. It shall contain a timetable regarding use or demolition of the property. The plan shall be completed within 30 days after the building is registered.

(b) *Maintenance of building.* The plan shall identify the means and timetable for addressing all maintenance and nuisance-related items identified in the application. Any repairs, improvements or alterations to the property shall comply with building code provisions and applicable city regulations.

(c) *Plan changes.* If the property plan or timetable for the vacant building is revised in any way for any purpose, the revisions shall meet the approval of the Inspector.

(d) *Demolition required.* If a building has remained vacant for a period of 365 consecutive days or more, and the Inspector has not approved an alternative schedule in the property plan, the city may declare the building to be a nuisance and direct the owner to demolish the building and restore the grounds. If the owner does not demolish the building and thereby eliminate the nuisance conditions, the city may commence abatement and cost recovery proceedings for the abatement of the violation.

(3) *Noncompliance and notification.* If the owner does not comply with the property plan, or maintain or correct nuisance violations, the city may commence abatement and recover its costs for correction of those items. In the case of an absent owner and ongoing nuisance issues,

Ellendale – Business Regulations

the city need not provide notice of each abatement act to the owner. A single notice by the city to the owner is determined to be sufficient notice that it intends to provide ongoing abatement until the owner corrects the violations.

(4) *Exemptions.*

(a) *Casualty damage.* A building that has suffered casualty damage is exempt for the registration requirement for a period of 180 days after the date of the casualty event if the owner submits a request for exemption in writing to the Inspector. An exemption request for review by the Inspector shall include the following information supplied by the owner:

(1) A description of the premises;

(2) The names and addresses of owner or owners;

(3) A statement of intent to repair and reoccupy the building in an expeditious manner and time frame for completion; and

(4) Actions the owner will take to ensure the property does not become a nuisance.

(b) *Snowbirds.* Those persons who leave their residential buildings on a temporary (six months or less) for vacation purposes or to reside elsewhere during the winter season and have the intent to return are exempt from the registration requirement.

(5) *Fees.* The owner shall pay an annual registration fee. The registration fee will be an amount adopted by ordinance by the City Council. The amount of the registration fee shall be reasonably related to the administrative costs for registering and processing the registration form and for the costs of the city in monitoring the vacant building site. The fee shall be paid in full prior to the issuance of any building permits or licenses, with the exception of a demolition permit.

(6) *Assessment.* If the registration fee of any portion thereof is not paid within 60 days after billing or within 60 days after any appeal becomes final, the City Council may certify the unpaid fees against the property.

(7) *Issuance of registration.* Upon completion of the registration process and payment of the fee, the city will issue a vacant building registration to the owner. The owner shall securely post the registration on the vacant building on a side entrance door, where possible, that is not generally visible from the public street. If no side entrance door is available, the registration shall be securely posted on another available entrance door.

(8) *Failure to register.* If the property is abandoned or the owner or responsible party fails to complete the registration process, the property will be registered administratively as a vacant property and the registration fee shall be assessed against the property.

(F) *Change of ownership.* A new owner shall register or re-register a vacant building within ten (10) days of any transfer of an ownership interest in a vacant building. The new owner shall comply with the approved property plan and timetable submitted by the previous owner or shall submit a revised or amended property plan to the Inspector for review and approval. For the purpose of this section, the new owner is an owner as defined in this section if the new owner has purchased the vacant building since its registration by the previous owner or has otherwise succeeded to all rights of the previous owner.

(G) *Inspections.* The Compliance Official, also known as the Inspector, may conduct inspections on any vacant building in the city for the purpose of enforcing and ensuring compliance with this section and other applicable regulations. Upon the request of the Inspector, an owner or responsible party shall provide access to all interior portions of the building and the exterior of the property in order to complete and inspection. If the owner of responsible party is not available, is unresponsive, or refuses to provide access to the interior of the building, the city may use any legal means to gain entrance to the building for inspection purposes. Prior to any re-occupancy, the owner or responsible party shall request an inspection of the vacant building by the Inspector to determine compliance with this chapter and all other applicable regulation. All application and re-inspection fees also shall be paid prior to building occupancy.

(H) *Maintenance of vacant buildings.* The owner shall comply with and address the following items in the property plan:

(1) *Appearance.* All vacant buildings shall be maintained and kept so that they appear to be occupied.

(2) *Securing.* All vacant buildings shall be secured from the outside by unauthorized persons or pests. Security shall be ensured by normal building amenities such as window and doors having adequate strength to resist intrusion. All doors and windows shall remain locked. There shall be at least one (1) operable door into every building and into each dwelling unit. Exterior walls and roofs shall remain intact without holes.

(a) *Architectural (cosmetic) structural panels.* Architectural structural panels may be used to secure windows, doors and other openings provided they are cut to fit the opening and match the characteristics of the building. Architectural panels may be of exterior grade-finished plywood or Medium Density Overlaid plywood (MDO) that is painted to match the building exterior or covered with a reflective material such as plexiglass to simulate windows.

(b) *Temporary securing.* Untreated, exterior grade (CDX) plywood or similar structural panels may be used to secure windows, doors and other openings for a maximum period of 90 days.

Ellendale – Business Regulations

(4) *Plumbing fixtures.* Plumbing fixtures connected to an approved water system, an approved sewage system, or an approved natural gas utility system shall be installed in accordance with applicable codes and be maintained in sound condition and good repair or removed and the service terminated in the manner prescribed by applicable codes. The building's water systems shall be protected from freezing.

(5) *Electrical.* Electrical service lines, wiring, outlets or fixtures not installed or maintained in accordance with applicable codes shall be repaired, removed or the electrical services terminated to the building in accordance with applicable codes.

(6) *Lighting.* All exterior lighting fixtures shall be maintained in good repair, and illumination shall be provided to the building and all walkways in the same manner as provided at the time the building was last occupied or as otherwise provided in the approved vacant building plan.

(7) *Heating.* Heating facilities or heating equipment in vacant buildings shall be removed, rendered inoperable, or maintained in accordance with applicable codes.

(8) *Termination of utilities.* The Inspector may require the water, sewer, electricity, or gas service to the vacant building be terminated or disconnected. Prior to the termination of any utility service, the city will provide written notice to the owner as provided in city Code of Ordinances. No utility may be restored until consent is given by the Inspector. Utilities may be disconnected at the request of the owner or responsible party as part of the approved vacant building property plan. The Inspector may authorize immediate termination of utilities at his or her discretion in emergency circumstances and provide subsequent notice to the owner or responsible party.

(9) *Signs.* On non-residential properties, obsolete or unused exterior signs and installation hardware shall be removed. Holes and penetrations shall be properly patched and painted to match the building. Surfaces beneath the signs that do not match the building shall be repaired, resurfaced, painted or otherwise altered to be compatible with the building surfaces. All signs remaining on the property shall be maintained in good condition and comply with the provisions of the code.

(10) *Exterior maintenance.* The owner shall comply with all applicable property maintenance regulations and city codes including, but not limited to, the following:

(a) *Nuisances.* The owner shall eliminate any activity on the property that constitutes a nuisance as defined by this code or state statute.

(D) Is directly or indirectly controlled by, or under direct or indirect common control with any of the foregoing.

SUBDIVISION. The separation of an area, parcel, or tract of land under single ownership into two or more parcels, tracts, lots, or long-term leasehold interests where the creation of the leasehold interest necessitates the creation of streets, roads, or alleys, for residential, commercial, industrial, or the use of any combination thereof, except the following separations:

(A) Where all the resulting parcels, tracts, lots, or interests will be 20 acres or larger in size and 500 feet in width for residential uses and five acres or larger in size for commercial and industrial uses;

(B) Creating cemetery lots; or

(C) Resulting from court orders, of the adjustment of a lot line by the relocation of a common boundary.

SUBDIVISION, MAJOR. All subdivisions not classified as minor subdivisions.

SUBDIVISION, MINOR.

(A) Any subdivision containing three or fewer lots fronting on an existing street, not involving any new street or road, or the extension of municipal facilities or the creation of any public improvements, and not adversely affecting the remainder of the parcel or adjoining property, and not in conflict with any provision or portion of the Land Use Plan, Official Map, zoning ordinance, or the regulations contained in this chapter.

(B) In addition, none of the parcels shall have been a part of a minor subdivision within the preceding five years.

SURVEYOR. A land surveyor registered under Minnesota state laws.

TOPOGRAPHIC MAP. A map showing the irregularities in elevation of land surface through the use of lines connecting points of equal elevation.

ZONING BOARD. The Zoning Board of the City of Ellendale. In the event that a Zoning Board has not been appointed by the City Council, the City Council shall be the acting Zoning Board.

ZONING ORDINANCE. The zoning ordinance controlling the use of land as adopted by the city.

§ 151.020 ZONING BOARD AND BOARD OF ADJUSTMENT.

(A) A Zoning Board is hereby established pursuant to M.S. Ch. 462.354, Subd. 1, as it may be amended from time to time.

(B) A Board of Adjustment is hereby established pursuant to M.S. Ch. 462.354, Subd. 2, as it may be amended from time to time. The Board of Adjustment shall be the City Council.

(C) The City Council hereby appoints the Zoning Administrator as the administrative officer who is responsible for the tasks as assigned herein. In addition, the City Clerk/Treasurer shall be given the responsibility for ensuring orderly and expeditious processing of subdivision applications.

§ 151.021 JURISDICTION.

Pursuant to M.S. Ch. 462.358, as it may be amended from time to time, approval of subdivision plats by resolution of the City Council is hereby required as a condition for the filing of the plats with the Steele County Recorder's office, as well as a condition for issuance of a permit for any development.

§ 151.022 EXCEPTIONS.

The City Council, when acting upon applications for preliminary or minor subdivision approval, shall have the power to grant the exceptions from the requirements for subdivision approval as may be reasonable and within the general purpose and intent of the provisions for subdivision review and approval of this chapter.

§ 151.023 ISSUANCE OF PERMITS.

No zoning permit shall be issued for the construction of a building, the enlargement, alteration, repair, demolition, or moving of any building or structure on any lot or parcel conveyed in violation of the provisions of this subchapter.

§ 151.024 VARIANCES.

(A) *Hardship.* Where the Zoning Board finds that extraordinary hardships may result from strict compliance with these regulations, it may recommend to the Board of Adjustment that the regulations be varied so that substantial justice may be done and public interest secured; provided that the variations will not have the effect of violating the Land Use Plan or the regulations contained herein.

(B) *Conditions in granting variances and modifications.* The Board of Adjustment may require that conditions be placed on the granting of the variances which it deems necessary to or desirable for the public interest. In making its approval, the Board of Adjustment shall take into account the nature of the proposed use of the land and the existing use of the land in the vicinity, the number of persons to reside or work in the proposed subdivision, and the probable effect of the proposed subdivision upon traffic conditions in the vicinity. A variance shall only be approved when the Board of Adjustment finds:

(1) The proposed variance must be in harmony with the general purposes and intent of the Land Use Ordinance.

(2) The proposed variance must be consistent with the comprehensive plan.

(3) The applicant for the proposed variance must establish that there are practical difficulties in complying with the Land Use Ordinance. "Practical difficulties," as used in connection with the granting of a variance, means that:

(a) the property owner proposes to use the property in a reasonable manner not permitted by the Land Use Ordinance;

Ellendale – Land Usage

(b) the plight of the landowner is due to circumstances unique to the property not created by the landowner; and

(c) the variance, if granted, will not alter the essential character of the locality. Economic considerations alone do not constitute practical difficulties. Practical difficulties include, but are not limited to, inadequate lot size or shape, topography, inadequate access to direct sunlight for solar energy systems, or other circumstances over which the owner of the property has no control.

(4) No variance shall be permitted as to any use that is not allowed under the Land Use Ordinance for property in the zone where the affected person's land is located.

(5) The City Council may impose such restrictions or conditions upon the premises benefited by the variance as may be necessary to comply with the standards established by this Land Use Ordinance, or to reduce or minimize the effect of such variance upon other properties in the neighborhood, and to better carry out the intent of the variance. A condition must be directly related to and must bear a rough proportionality to the impact created by the variance.

(C) *Procedures.*

(1) Requests for a variance or appeal shall be filed with the City Clerk/Treasurer on an official application form. The application shall be accompanied by a fee, as established by the City Council. The application shall also be accompanied by four copies of detailed written and graphic materials, including one plan no larger than 11 inches by 17 inches necessary for the explanation of the request.

(2) The review of the variance application shall be run concurrently with the preliminary plat application.

(3) Upon receiving the application, the City Clerk/Treasurer shall refer the application, along with all related information, to the Zoning Board for a report and recommendation to the Board of Adjustment.

(4) The Zoning Board shall consider the variance at its next regular meeting. The City Clerk/Treasurer shall refer the application, along with all related information, to the City Zoning Board for consideration and a report and recommendation to the Board of Adjustment.

(5) The city staff may submit a report on and recommendation for action regarding the variance application to the Zoning Board.

(6) The Zoning Board and City Clerk/Treasurer shall have the authority to request additional information from the applicant regarding the variance or to obtain expert reports of testimony at the expense of the applicant concerning the variance.

(7) The Zoning Board shall make a finding of fact and recommend the actions or conditions relating to the request as they deem necessary to carry out the intent and purpose of this chapter and submit this finding in the form of a report to the Board of Adjustment for their information prior to the variance

application's public hearing date.

(8) The City Clerk/Treasurer shall set a date for a public hearing. Notice of the hearing shall be published in the official newspaper at least 10 days prior to the hearing and individual notices shall be mailed not less than 10 days nor more than 30 days prior to the hearing to all owners of property within 350 feet of the parcel included in the request. Failure of any property owner to receive the notice shall not invalidate any such proceedings as set forth within this chapter.

(9) The applicant or a representative thereof shall appear before the Board of Adjustment in order to answer questions concerning the proposed variance request.

(10) A copy of the Zoning Board's report shall be entered in and made a part of the written record of the public hearing.

(11) The Board of Adjustment shall make a recorded finding of fact and impose any condition it considers necessary to protect the public hearing, safety, and welfare of the city.

(12) The Board of Adjustment shall decide whether to approve or deny a request for a variance or an appeal within 30 days after the public hearing on the request.

(13) A variance of this chapter or grant of an appeal shall be by a simple majority vote of the full Board of Adjustment.

§ 151.035 PURPOSE.

The purpose of this subchapter is to establish the procedure for Zoning Board and City Council review and action on applications for subdivisions. The procedure is intended to provide orderly and expeditious processing of the applications.

§ 151.036 CLASSIFICATION OF SUBDIVISION.

Before any land is subdivided, the owner of the property proposed to be subdivided, or his or her authorized agent, shall apply for and secure approval of the proposed subdivision in accordance with the following procedures, based upon whether the proposal is classified a minor subdivision or a major subdivision:

(A) Minor subdivision (see § 151.039(A) below):

- (1) Sketch plan; and
- (2) Final plat.

(B) Major subdivision (all other subdivision proposals):

- (1) Sketch plan;

(2) Preliminary plat; and

(3) Final plat.

Penalty, see § 10.99

§ 151.037 OFFICIAL SUBMISSION DATE.

For the purpose of meeting the statutory time lines, the date on which the applicant has submitted a complete application containing all information requirements of this chapter, has properly executed all required application forms and paid the required fees, and any additional requests of the City Clerk/Treasurer or Zoning Administrator, shall constitute the official submission date of the plat on which the statutory period required for formal approval, conditional approval, or disapproval shall commence to run.

§ 151.038 SKETCH PLAN.

(A) In order to insure that all applicants are informed of the procedural requirements and minimum standards of this chapter and the requirements or limitations imposed by other city code provisions or plans, and prior to the submission of a plat, all applicants shall submit a sketch plan to the City Clerk/Treasurer for review.

(B) Applicants seeking review of a sketch plan shall submit the items stipulated in §§ 151.120 *et seq.* This submission requirement is needed for the developer, City Clerk/Treasurer, and other participants, as needed, to review and discuss the development proposal in its formative stages. The City Clerk/Treasurer shall determine whether the development proposal is a major or minor subdivision and shall provide the developer with a list of submission requirements for the appropriate development type as well as the expected process flow and timetable.

(C) The applicant shall not be bound by any sketch plan for which review is requested, nor shall any representatives of the city be bound by any such review.

§ 151.039 MINOR SUBDIVISIONS; APPLICATION.

(A) *Minor subdivision defined:*

(1) In the case of a request to divide a portion of a lot where the division is to permit the adding of a parcel of land to an abutting lot so that no additional lots are created and both new lots conform to zoning ordinance lot size standards;

(2) In the case of a request to combine two existing platted lots;

(3) In the case of a request to divide no more than two lots from a larger tract of land thereby creating no more than three lots. To qualify, the parcel of land should not have been a part of a minor subdivision within the last five years;

(4) In the case of a request to divide a base lot, which is a part of a recorded plat upon which has been constructed a two-family dwelling, townhouse, or quadraminium, where the division is to permit individual private ownership of a single dwelling unit within such a structure and the newly created property lines will not cause any of the unit lots or structure to be in violation of this chapter, the zoning ordinance, or the State Building Code; and

(5) Any other subdivisions that meet the definition contained in § 151.007.

(B) *Content and data requirements for minor subdivisions.*

(1) The requested minor division shall be prepared by a registered land surveyor in the form of a certificate of survey.

(2) The data and supportive information detailing the proposed subdivision is specified in §§ 151.120 *et seq.* Exceptions, stipulated in writing, may be granted by the City Clerk/Treasurer or Zoning Administrator.

(3) The minor subdivision shall conform to all design standards as stipulated in this chapter. Any proposed deviation from the standards requires the processing of a variance request.

§ 151.040 PRELIMINARY PLAT.

(A) The application shall:

(1) Be filed with the City Clerk/Treasurer at least two weeks prior to the next regularly scheduled meeting of the Zoning Board;

(2) The City Clerk/Treasurer shall notify an applicant within 10 days of the submission of the application whether there are any deficiencies in the information submitted as part of the application. If the notification is not made within the 10-day period, the subdivision application is officially accepted for review;

(3) Be made on forms available at the city offices accompanied by the required fee, as established by the City Council. The City Clerk/Treasurer shall deposit any money received as fees hereunder to the credit of the general fund of the City of Ellendale. No money shall be refunded to the applicant. The fee is not intended to cover specialized engineering, planning, or site analysis reviews. Fees for additional technical services such as these will become the responsibility of the subdivider;

(4) An up-to-date certified abstract of title or registered property report showing title in the applicant's name, or an option to buy the property by the applicant as shown on the preliminary plat;

(5) The application shall include the items specified in §§ 151.120 *et seq.* which constitutes a checklist of items to be submitted for subdivision review; and

Ellendale – Land Usage

(6) Be accompanied by a minimum of 10 copies of the preliminary plat and one reduced copy of the plat no larger than 11 inches x 17 inches.

(B) The City Clerk/Treasurer shall submit five copies of the preliminary plat to the Zoning Board, and may, at their discretion, submit one copy to the City Engineer, one copy to the City Planner, and one copy to the City Attorney. The remaining copies shall be placed in the city's files.

(C) The City Clerk/Treasurer may instruct the appropriate staff to prepare technical reports and provide general assistance in preparing a recommendation on the action to the City Council. This may include the City Planner, the City Engineer, City Building Official, or the City Attorney, or others as deemed needed.

(D) Upon receipt of the completed application as outlined above, the Zoning Board shall set a public hearing for public review of the preliminary plat. The hearing shall be held within 60 days of the official submission date of the application. The applicant and/or his or her representative shall appear at the public hearing before the Zoning Board in order to answer questions concerning the proposal. Notice of the public hearing may consist of a legal property description, shall contain a description of the request, and shall be advertised in the official newspaper at least 10 days before the day of the hearing. Property owners within 350 feet of the proposed subdivision shall also be notified through the mail of the hearing. Failure of any property owner to receive the notice shall not invalidate the public hearing.

(E) No later than 30 days after the close of the public hearing described above, the Zoning Board shall submit the plat to the City Council with its own recommendations, including any conditions it recommends be placed upon the plat prior to approval. The City Council may approve, approve with conditions, or disapprove the plat by a majority vote of its members regardless of the recommendations made by the Zoning Board. If the Zoning Board has not acted upon the preliminary plat within 30 days following the close of the public hearing on such and in compliance with this chapter, the Council may act on the preliminary plat without the Zoning Board's recommendation, and may approve, approve with conditions, or disapprove the plat by a majority vote of its members after the required public hearing.

(F) The City Council shall take final action within 120 days of the application's official submission date. The subdivision application shall be preliminarily approved or denied by the City Council. If the City Council fails to approve or disapprove the preliminary plat in this review period, the application shall be deemed preliminarily approved.

(G) At any time during this process, either the applicant or the city may request an extension of the imposed time limits. Both the applicant and the city must agree to the time extension and must execute a time extension form that will become a part of the subdivision file.

(H) If the City Council requires changes to the preliminary plat, and if the changes are determined to be minor changes in the opinion of the City Council, then the changes may be noted on the plat and approved as such.

(I) If the changes to be made are major changes in the opinion of the City Council, then a new preliminary plat must be prepared and resubmitted, along with the payment of new fees, based upon the procedures and time lines established in this section.

(J) No preliminary plats shall be approved unless the applicant proves by clear and convincing evidence that:

(1) The application for a preliminary plat is not premature and conforms to the Ellendale Comprehensive Plan;

(2) The uses in the subdivision will be connected to and served by public utilities for the provision of water supply and sewage collection and treatment facilities.

(3) The subdivider has the financial ability to complete the proposed subdivision in accordance with all applicable laws and regulations;

(4) The proposed subdivision will not result in the scattered subdivision of land that leaves undeveloped parcels of land lacking urban services between developed parcels; and

(5) The subdivider has taken every effort to mitigate the impact of the proposed subdivision on public health, safety, and welfare.

(K) The Zoning Board may recommend and the City Council may require the changes or revisions as deemed necessary for the health, safety, general welfare, and convenience of the city. The approval of a preliminary plat by the Zoning Board and the City Council is tentative only, involving merely the general acceptability of the layout submitted. Subsequent approval will be required of the proposals pertaining to water supply, storm drainage, sewage and sewage disposal, gas and electric service, grading, gradients and roadway widths, and the surfacing of streets.

(L) If the preliminary plat is approved, the approval shall not constitute final acceptance of the layout. Subsequent approval will be required of the engineering proposals and other features and requirements as specified by this chapter to be indicated on the final plat. The City Council may impose the conditions and restrictions as it deems appropriate or require the revisions or modifications in the preliminary plat or final plat as it deems necessary to protect the health, safety, comfort, general welfare, and convenience of the city.

(M) If the preliminary plat is not approved by the City Council, the reasons for the action shall be recorded in the proceedings of the Council and shall be transmitted to the applicant.

(N) Any resubmission of a plat application that has been denied by the City Council shall be prohibited for one year following denial unless the City Council votes to allow the resubmission either unanimously or by super majority.

§ 151.041 FINAL PLAT.

Ellendale – Land Usage

(A) After approval of the preliminary plat, the applicant shall prepare and submit a final plat to the city for study and recommendation. This plat must be submitted within one year from approval of the preliminary plat, or as specified in an approved development agreement. If the final plat is not submitted within this time period and the applicant has not requested a time extension, the approved preliminary plat becomes null and void within one year of its approval date.

(B) In some development proposals, the city may agree to review the preliminary and final plats simultaneously.

(C) The procedure for filing the final plat is that which is established for submission of the preliminary plat under this subchapter, except as specified below. Ten copies of the final plat shall be provided to the city by the applicant, and one reduced copy no larger than 11 inches by 17 inches. All final plats shall comply with the provisions of Minnesota Statutes and the requirements of this chapter. An applicant shall submit with the final plat a current abstract of title or a registered property certificate, along with any unrecorded documents and an opinion of title.

(D) Upon receipt of a final plat, the City Clerk/Treasurer shall refer one copy each to the City Council, appropriate city staff, the County Surveyor, and to all applicable utility companies, and one copy with abstract of title or registered property certificates and opinion title to the City Attorney. The City Council may refer the final plat to the Zoning Board for recommendation if they feel the proposed final plat is substantially different from the approved preliminary plat. The Zoning Board shall submit a report thereon to the City Council within 30 days. The city staff receiving a copy of the final plat shall submit reports through the City Clerk/Treasurer to the City Council within 15 days of receiving the plat expressing their recommendation on the final plat. The County Surveyor shall review the final plat and notify the subdivider's surveyor or final plat preparer of corrections that are to be made to the final plat. Prior to approval of a final plat, the applicant shall have executed an agreement with the city controlling the installation of all required improvements. The agreement will require all improvements to comply with approved engineering standards and applicable regulations, and shall set forth the amount and form of security required by the city to insure proper installation and warranty of all improvements. Unless otherwise approved by the City Council, the security shall be in the form of an irrevocable letter of credit.

(E) The City Council, after receiving the final plat and any recommendations from the Zoning Board, shall approve, approve with attached conditions, or disapprove the final plat within 60 days of receiving the final plat. This action taken by the City Council is dependent upon the final plat's conformance with the preliminary plat, as approved by the City Council. If the final plat is not approved, the reasons for the action shall be recorded in the official proceedings of the city and shall be transmitted to the applicant.

(F) At any time during this process, either the applicant or the city may request an extension of the imposed time limits. Both the applicant and the city must agree to the time extension and must execute a time extension form that will become a part of the subdivision file.

(G) The final plat, when approved, shall be submitted by the applicant to the Steele County Recorder for recording. A developer's agreement must be recorded prior to or simultaneously with the plat. The final plat must be recorded within 180 days from the date of approval or it will become null

and void. If recording is not accomplished according to these procedures, the city may require another review of the proposed subdivision according to these regulations and state law. Prior to recording, the final plat must be signed by representatives of the city and the applicant must post all required security in a city approved manner. If a final plat is submitted for a portion of the area encompassed in the preliminary plat and it is recorded within 180 days from the date of approval, the remaining portion of the preliminary plat will remain valid for two years. That portion of a preliminary plat for which a final plat is not submitted and recorded or for which a time extension form has not been executed between the applicant and the city within this two (2) year period, shall become null and void.

(H) Fees for final recording by the county shall be paid by the applicant. The applicant immediately upon recording shall furnish the City Clerk/Treasurer with a reproducible copy of the recorded plat, either chronoflex or its equivalent and two prints and an electronic version of the plat in a format the city requests. Failure to furnish the copies shall be grounds for a refusal to issue zoning permits for the lots within a plat.

(I) Any resubmission of a plat application which has been denied by the City Council shall be prohibited for one year following denial unless the City Council votes to allow the resubmission either unanimously or by super majority.

§ 151.042 SOIL TESTS.

The City Council may require soil tests prior to the final approval of any plat. These soil tests shall consist of test holes to a depth necessary to determine the various types of soil to be encountered before reaching a stable base. The test holes when ordered by the City Council or Zoning Board shall be drilled at the expense of the owner or developer and the information disclosed shall be furnished to the City Council together with a copy of the proposed plat showing the location of each test hole. The information required shall include a report as to the various types of soils encountered and their depths, the level of the ground water and a percolation test and may include additional information. The number of test holes to be drilled and their location on the property which is proposed to be platted will be as directed by the governing body or its authorized representative. In questionable cases, the owner shall be required to furnish a report from a recognized engineering laboratory as to the safety and practicality of the use of the area for building construction, including the feasibility for installation of sewage facilities.

§ 151.043 APPEALS TO CITY COUNCIL.

The applicant for subdivision approval may appeal the disapproval of a plat by filing a notice of appeal with the City Council no later than 10 days after the date on which the plat was disapproved. The notice of appeal shall set forth in clear and concise fashion the basis for the appeal. The appeal shall be considered at the next regularly scheduled public meeting of the City Council, at which time it may affirm or reverse its decision of the disapproval only by a unanimous vote of the members present at the meeting. On appeal, the applicant shall be allowed to make a presentation to the City Council under the terms, conditions, and procedures as established by the City Council. The City Council shall render a decision affirming or reversing their earlier decision no later than 45 days after the date on which the notice of appeal is filed. If the City Council reverses its prior decision, the applicant may proceed to submit a preliminary or final plat as is appropriate under the conditions for approval agreed to by the City Council.

§ 151.044 EFFECT OF SUBDIVISION CONTROL.

For one year following preliminary approval and for two years following final approval, unless the subdivider and the city agree otherwise, no amendment to a comprehensive plan or official control shall apply to or affect the use, development density, lot size, lot layout, or dedication or platting required or permitted by the approved application. Thereafter, pursuant to its regulations, the city may extend the period by agreement with the subdivider and subject to all applicable performance conditions and requirements, or it may require submission of a new application unless substantial physical activity and investment has occurred in reasonable reliance on the approved application and the subdivider will suffer substantial financial damage as a consequence of a requirement to submit a new application. In connection with a subdivision involving planned and staged development, the city may by resolution or agreement, grant the rights referred to herein for the periods of time longer than two years it determines to be reasonable and appropriate.

§ 151.045 ZONING.

Prior to the approval of the final plat, the applicant shall submit an application to rezone any or all plats of the area previously zoned incorrectly for the proposed use, in accordance with the provisions of Chapter 152.

§ 151.046 REQUIREMENTS FOR RECORDING AND CONVEYING REAL PROPERTY.

(A) Restriction of Conveyances. No conveyance of land within the City shall be filed or recorded in the County Recorder's Office or have any validity, and the Building Inspector shall not issue a building permit for any structure on said land, unless said conveyance is described with reference to an approved plat or an approved administrative land survey as hereafter provided. No conveyance of land shall be described by metes and bounds except as contained in an administrative land survey, except that any parcel that is of record prior to the date of this ordinance may be conveyed according to the legal description contained in that record.

(B) Creation of New Parcel by Administrative Land Survey. A new parcel may be created through use of an Administrative Land Survey. Said Administrative Land Survey may combine former parcels or portions of parcels or may divide a former parcel into two or more new parcels.

(C) Requirements of Administrative Land Survey. A new parcel may be created through use of an Administrative Land Survey only upon the satisfaction of all of the following requirements:

(1) No Administrative Land Survey shall be of any effect unless and until approved by the City after public hearing and recorded in the Office of the Steele County Recorder. No Administrative Land Survey shall be recorded without the prior consent of the City.

(2) All Administrative Land Surveys shall be filed subject to the same procedure as required for the filing of a preliminary plat. The standards and requirements set forth in these regulations shall apply to all Administrative Land Surveys.

(3) An Administrative Land Survey shall not be used to divide a parcel of land in such a way that any

resulting parcel does not meet a zoning requirement of this Chapter. All resulting parcels of an Administrative Land Survey shall be buildable lots meeting the minimum requirements of this Chapter of the zoned designation.

(4) No Administrative Land Survey shall alter or affect a public right of way or public easement.

(5) No conveyance of a parcel defined by an Administrative Land Survey shall be recorded unless the City shall have first approved the Administrative Land Survey.

(6) All conveyances of land described with reference to an Administrative Land Survey shall have a copy of the survey attached to the deed of conveyance at the time it is recorded.

(D) Restriction on Future Conveyances. Upon the recording of an Administrative Land Survey, no portion of a parcel described by the Administrative Land Survey shall be conveyed except the entire parcel.

(E) Effect of Administrative Land Survey. Upon the recording of an Administrative Land Survey, parcels defined by the Administrative Land Survey shall constitute a "Lot" as that term is used in this Chapter.

(F) Fees for the review and approval of an Administrative Land Survey shall be set by the City Council by the Master Fee Schedule.

(G) Waiver of Compliance. In any case in which compliance with the foregoing restrictions will create an unnecessary hardship and failure to comply does not interfere with the purpose of this Section, the City Council may waive such compliance by adoption of a resolution to that effect and the conveyance may then be filed or recorded.

(H) Conveyances Prohibited. Any owner or agent of the owner of land who conveys a lot of parcel in violation of this Section shall forfeit and pay to this municipality a penalty of not less than One Thousand and 00/100 Dollars (\$1,000.00) for each lot or parcel so conveyed. The City may enjoin such conveyance by action for injunction or may recover such penalty by civil action in any court of competent jurisdiction. The City shall not issue any building permits to property conveyed in violation of the Section.

§ 151.060 GENERALLY.

(A) Before a final plat is approved by the City Council, the owner and subdivider of the land covered by the plat shall execute and submit to the Council a written developers agreement, which shall be binding on their heirs, personal representatives, and assigns, that they will cause no private construction to be made on the plat or file or cause to be filed any application for zoning permits for the construction until all improvements required under this chapter have been made or have been arranged for, in the manner, with respect to the streets to which the lots sought to be constructed have access.

(B) The agreement shall provide that all of the required improvements will be made in accordance with standards established by the City Engineer. This shall include provision for inspections by the City Engineer and shall grant to the City Engineer authority to coordinate the work and improvements to be done under the contract by any subcontractor authorized to proceed thereunder and with any other work being done or contracted by the city in the vicinity. The agreements shall include adequate provisions to insure that all improvements accomplished by the subdivider will comply with the standards.

(C) A developer's responsibility for contributing to off-tract improvements may be required. Refer to §§ 151.105 *et seq.* for the standards related to this requirement.

§ 151.061 IMPROVEMENTS MAY BE PARTIAL.

It is not the intent of this chapter to require the subdivider to develop the entire plat and make all required improvements at one time, but no zoning permits shall be granted except on the lots having access to streets on which the required improvements have been made.

§ 151.062 FINANCIAL GUARANTEE.

(A) *Generally.* The contract provided for in § 151.060 shall require the applicant to provide a financial guarantee in a form approved by the City Council or the City Attorney, and in an amount based upon the City Engineer's estimate of the total cost of the improvements to be furnished under the contract, including the cost of inspection. The amount of the financial guarantee shall equal 120% of the City Engineer's estimate. The agreement may further provide for additional sums to be placed in escrow for estimated engineering, legal, and administrative costs.

(B) *Escrow deposit; certified check.* If an escrow deposit is required, the escrow deposit shall be made with the City Clerk/Treasurer. Upon completion of the work and termination of any liability, the balance remaining in the deposit shall be refunded to the applicant.

(C) *Irrevocable letter of credit.* An irrevocable letter of credit in a form acceptable to the City Council or City Attorney shall be payable to the order of the city and delivered to the City Clerk/Treasurer in a sum equal to the amount specified in division (A) above, for all the improvements to be furnished and installed by the applicant pursuant to the developer's agreement which have not been completed prior to the approval of the plat. The letter of credit may include an amount for the cost of inspection by the city. In the event of any default in the terms and conditions of the contract the city may, at its discretion, draw upon the letter of credit and use those funds to contract for completion of the improvements required by the contract.

(D) *Reduction of letter of credit.* Upon receipt of proof satisfactory to the city that work has been completed and financial obligations to the city have been satisfied, with city approval, the security may be reduced by 90% of the financial obligations that have been satisfied. Ten percent of the security shall be retained until all improvements have been completed, all financial obligations to the city satisfied (which includes the duration of the established warranty period), and the required "as built" plans have been received by the city.

§ 151.063 INSPECTION OF IMPROVEMENTS.

The City Council shall provide for inspection of required improvements during construction and ensure their satisfactory completion. The applicant shall pay to the city an inspection fee based on the estimated cost of inspection. These fees shall be due and payable upon demand of the city and no zoning

permits shall be issued until all fees are paid. If the City Engineer finds upon inspection that any one or more of the required improvements have not been constructed in accordance with the city's construction standards and specifications, the applicant shall be responsible for properly completing the improvements.

§ 151.064 MAINTENANCE OF IMPROVEMENTS.

The developer shall be required to maintain all public improvements on the individual subdivided lots and provide for snow removal on streets and sidewalks until acceptance of the improvements by the City Council. Following the acceptance of the dedication of any public improvement by the local government, the city may, in its sole discretion, require the subdivider to maintain the improvement for a period of one year from the date of acceptance.

§ 151.065 DEFERRAL OR WAIVER OF REQUIRED IMPROVEMENTS.

(A) The City Council may defer or waive at the time of final approval, subject to appropriate conditions, the provision of any or all public improvements as, in its judgment, are not requisite in the Interests of the public health, safety, and general welfare, or which are inappropriate because of the inadequacy or in existence of connecting facilities. Any determination to defer or waive the provision of any public improvement must be made on the record and the reasons for the deferral or waiver also shall be expressly made on the record.

(B) Whenever it is deemed necessary by the City Council to defer the construction of any improvement required under these regulations because of incompatible grades, future planning, inadequate or nonexistent connecting facilities, or for other reasons, the subdivider shall pay his or her share of the costs of the future improvements to the city prior to signing of the final subdivision plat by the City Mayor, or the developer may execute a separate subdivision improvement agreement secured by a letter of credit guaranteeing completion of the deferred improvements upon demand of the city.

§ 151.066 ISSUANCE OF ZONING PERMITS.

(A) The extent of street improvement shall be adequate for vehicular access by emergency vehicles prior to the issuance of a zoning permit.

(B) No zoning permit shall be issued for the final 10% of the lots in a subdivision, or if 10% is less than two lots, for the final two lots of the subdivision, until all public improvements required by the Zoning Board or City Council for the subdivision have been fully completed and the local government has accepted the developer's offer(s) to dedicate the improvements.

DESIGN AND IMPROVEMENT STANDARDS**§ 151.080 GENERAL REQUIREMENTS.**

Prior to the approval of a plat by the governing body, the applicants shall have agreed, in the manner set forth below, to install the following improvements on the site in conformity with approved construction plans and in conformity with all applicable standards and ordinances. The developer or the municipality shall award contracts for any construction work and material mentioned herein. The contract shall be based upon plans and specifications completed or approved by the City Engineer and approved by the City Council. The Engineer shall supervise or inspect all of the work and shall certify that the work has been finished, and that it has been finished in accordance with plans and specifications approved by the governing body.

Penalty, see § 10.99

§ 151.081 LAND REQUIERMENT'S

(A) Land shall be suited to the purpose for which it is to be subdivided. No plan shall be approved if the site is not suitable for the purposes proposed by reason of potential flooding, topography, wetlands, or adverse soil or rock formation.

(B) Land subject to hazards to life, health, or property shall not be subdivided until all the hazards have been eliminated, or unless adequate safeguards against the hazards are provided by the subdivision plan.

(C) Proposed subdivisions shall be coordinated with existing neighborhoods, so that the city as a whole may develop efficiently and harmoniously. Water mains and sanitary sewer collection pipes shall be provided to serve the subdivision by extension of the existing city water system and sanitary collection system. Service connections shall be stubbed to the property line and all necessary fire hydrants shall also be provided. Extensions of the public water supply system and sanitary sewer collection system shall be designed so as to provide a water supply and sanitary sewer collection in accordance with the standards of the city.

Penalty, see § 10.99

§ 151.082 SITE DESIGN STANDARDS.

(A) *Site analysis.* An analysis shall be made of characteristics of the development site, such as site context; geology and soil; topography; existing vegetation; structures and road networks; and past and present use of the site.

(B) *Subdivision and site design.*

(1) Design of the development shall take into consideration all existing local plans of the community and shall conform to Chapter 152 requirements.

(2) Development of the site shall be based on the site analysis. To the maximum extent practicable, development shall be located to preserve the natural features of the site, to avoid areas of environmental sensitivity, and to minimize negative impacts and alteration of natural features.

(3) The following specific areas shall be preserved as undeveloped open space, to the extent consistent with the reasonable utilization of land, and in accordance with state and local regulations:

(a) Unique or fragile areas, including wetlands;

(b) Significant trees or stands of trees;

(c) Steep slopes in excess of 20%, as measured over a 10-foot interval unless appropriate engineering measures concerning slope stability, erosion, and resident safety are taken;

(d) Habitats of endangered wildlife; and

(e) Historically significant structures and sites.

(4) The development shall be laid out to avoid adversely affecting groundwater and aquifer recharge; to reduce cut and fill; to avoid unnecessary impervious cover; to prevent flooding; to provide adequate access to lots and sites; and to mitigate adverse effects of noise, odor, traffic, drainage, and utilities on neighboring properties.

(5) The lot arrangement shall be such that there will be no foreseeable difficulties, for reasons of topography or other conditions, in securing zoning permits to build on all lots in compliance with Chapter 152 and to meet all health regulations that would be applicable and in providing driveway access to buildings on the lots from an approved street.

(6) The lot line common to the street right-of-way shall be the front line. All lots shall face the front line and a similar line across the street. Wherever feasible, lots shall be arranged so that the rear line does not abut the side line of an adjacent lot.

(C) Residential development design.

(1) In conventional developments, the Zoning Board or City Council may vary lot areas and dimensions, yards, and setbacks for the purpose of encouraging and promoting flexibility, economy, and environmental soundness in layout and design, provided that the average lots areas and dimensions, yards, and setbacks within the subdivision conform to the minimum requirements of the city's zoning regulations, and provided that the standards shall be appropriate to the type of development permitted.

(2) Residential lots shall be encouraged to front on local or collector streets, and discouraged from fronting arterial streets.

(3) Every lot shall have sufficient access to it for emergency vehicles as well as for those needing access to the property in its intended use.

Ellendale – Land Usage

(4) The placement of units in residential developments shall take into consideration topography, privacy, building height, orientation, drainage, and aesthetics.

(5) Buildings shall be spaced so that adequate privacy is provided for units.

(D) *Commercial and industrial development design.* Commercial and industrial developments shall be designed according to the same principles governing the design of residential developments; namely, buildings shall be located according to topography, with environmentally sensitive areas avoided to the maximum extent practicable. Factors such as drainage, noise, odor, and surrounding land uses shall be considered in siting buildings; sufficient access shall be provided; and adverse impacts buffered.

(E) *Circulation system design.*

(1) The road system shall be designed to permit the safe, efficient, and orderly movement of traffic; to meet, but not exceed the needs of the present and future population served; to have a simple and logical pattern; to respect natural features and topography; and to present an attractive streetscape.

(2) In residential subdivisions, the road system shall be designed to serve the needs of the neighborhood and to discourage use by through traffic.

(3) The pedestrian system shall be located as required for safety. In conventional developments, walks shall be placed parallel to the street, with exceptions permitted to preserve natural features or to provide visual interest. In planned developments, walks may be placed away from the road system, but they may also be required to be parallel to the street for safety reasons.

(F) *Block design.*

(1) Blocks shall have sufficient width to provide for two tiers of lots of appropriate depths. Exceptions to this standard shall be permitted in blocks adjacent to arterial roads, railroad lines, or where one tier of lots is necessary because of topographical conditions.

(2) Double-frontage or lots with frontage on two parallel streets shall be permitted only in the following cases:

(a) Where vehicular and pedestrian accesses are prohibited between lots and an arterial street is prohibited; and

(b) Where topographical or other conditions render subdividing lots in different configurations unreasonable. The double-frontage lots shall have an additional depth of at least 20 feet in order to allow space for the planting of screening vegetation or placement of other screening options along the back lot line.

(3) The lengths, widths, and shapes of blocks shall conform to the following, based upon the type of development proposed:

(a) In residential areas, block lengths shall not exceed 1,200 feet nor be less than 600 feet in length. Block length and width or acreage within bounding streets shall accommodate the size of residential

lots required in the area by Chapter 152, and provide for convenient access, circulation control, and safety of street traffic; and

(b) In commercial or industrial areas, block width shall be suitable for their respective use, including adequate space for off street parking, deliveries, and loading. The facilities shall be provided with safe and convenient access to the street system.

(4) In long blocks, the Zoning Board or City Council may require the reservation of an easement through the block to accommodate utilities, drainage facilities, or pedestrian traffic.

(5) Pedestrian ways or crosswalks may be required by the Zoning Board where it is deemed essential to provide circulation or access to schools, playgrounds, shopping areas, or other community facilities. Suitable surfacing shall be provided in pedestrian ways and shall be subject to city review.

(G) *Landscape design.*

(1) Reasonable landscaping should be provided at site entrances, in public areas, and adjacent to buildings. The type and amount of landscaping shall be allowed to vary with the type of development.

(2) Planting or other landscaping material that best serves the intended function shall be selected. Landscaping materials shall be appropriate for the Upper Midwest environment, the Ellendale soil conditions, and the availability of the local water supply. The impact of the proposed landscaping plan at various time intervals shall also be considered.

Penalty, see § 10.99

§ 151.083 EASEMENTS.

(A) *Provided for utilities.* A minimum 10-foot easement for drainage and utilities shall be provided on all lot lines. In the case of side or rear lot lines, these may be centered on the lot line. These easements shall be furnished by the owner at no cost to the municipality.

(B) *Provided for drainage.* Easements shall be provided along each side of the center line of the water course or drainage channel, whether or not shown on the Comprehensive Plan, to a sufficient width to provide proper maintenance and protection to provide for storm water runoff and to provide for installation and maintenance of storm sewers. Drainage easements shall be furnished by the owner at no cost to the municipality.

(C) *Continue utility easement locations.* Utility easements shall connect with easements established on adjoining property. These easements, when approved, shall not thereafter be changed without the approval of the City Council after a public hearing.

(D) *Dedication.* All easements shall be dedicated for the required use and shall be shown on the final plat.

Penalty, see § 10.99

§ 151.084 OPEN SPACE AND RECREATION.**(A) *Minimum requirements.***

(1) *Generally.* In all plats, the governing body shall require a recreational land contribution to be used in connection with the development of a general park system in the city. All recreation areas dedicated to the city shall be subject to approval by the governing body. A cash contribution may be used in lieu of the land dedication or, in some instances, may be required by the city.

(2) *Amount of open space required.* 10% of the tract proposed for development shall be set aside for use as developed and/or undeveloped open space. This amount of land is the city's best estimate of need for open space to accommodate the increased usage of the space by the population of the proposed development. If a cash contribution is to be used in lieu of land dedication, the cash payment shall equal the value of the land dedication requirement as determined by a certified appraiser who shall determine the current market value of the property with development potential. The cost of the appraisal shall be borne by the developer. The cash contribution amount specified above is the city's best estimate for undertaking needed improvements to its open space facilities based upon the increased usage resulting from new development.

(3) *Size of open space parcels.* In general, land reserved for recreation purposes shall have an area of at least four acres. When the area reservation amount for a development would equal less than four acres, the Zoning Board may require the area designated for this use be located at a suitable place on the edge of the subdivision so that additional land may be added at the time as the adjacent land is subdivided. In no case shall an area of less than two acres be reserved for recreation purposes if it will be impractical or impossible to secure additional lands in order to increase its area. In these instances, the developer may choose the cash contribution option or choose construction methods referred to in division (C) below, or a combination of these options.

(4) *Location of open space parcels.* Open space parcels shall be convenient to the dwelling units they are intended to serve. However, because of noise generation, they shall be sited with sensitivity to surrounding development.

(B) *Improvement of open space parcels.*

(1) *Developed open space.* All land to be reserved for dedication to the local government for park purposes shall have prior approval of the City Council and shall be shown marked on the plat "Reserved for Park and/or Recreation Purposes." The Zoning Board or City Council may require the installation of recreational facilities, taking into consideration:

- (a) The character of the open space land;
- (b) The estimated age and recreation needs of persons likely to reside in the development;

(c) The proximity, nature, and excess capacity of existing municipal recreation facilities; and

(d) The cost of the recreational facilities.

(2) *Undeveloped open space.* As a general principle, undeveloped open space should be left in its natural state. A developer may make certain improvements such as the cutting of trails for walking or jogging, or the provision of picnic areas. In addition, the Zoning Board may require a developer to make other improvements, such as removing dead or diseased trees, thinning trees, or other vegetation to encourage more desirable growth, and grading and seeding.

(C) *Other uses of land that may be counted towards filling the recreation reservation requirement.*

(1) If a developer constructs a looped road turn around at the end of a cul-de-sac, the amount of land contained within the loop that is left in natural vegetation may count towards the recreational reservation requirement.

(2) If a developer constructs a walking and/or biking pathways in the development, that are separate and distinct from motorized routes, the amount of land used for this purpose or the cost for making the improvement for this use may count towards the recreational reservation requirement.

(D) *Exceptions to the standards.* The Zoning Board or City Council may permit minor deviations from open space standards when it can be determined that:

(1) The objectives underlying these standards can be met without strict adherence to them; and/or

(2) Because of peculiarities in the tract of land or the facilities proposed, it would be unreasonable to require strict adherence to these standards.

(E) *Deed restrictions.* Any lands dedicated for open space purposes shall contain appropriate covenants and deed restrictions approved by the City Attorney ensuring that:

(1) The open space area will not be further subdivided in the future;

(2) The use of the open space will continue in perpetuity for the purpose specified;

(3) Appropriate provisions will be made for the maintenance of the open space; and

(4) Common undeveloped open space shall not be turned into a commercial enterprise admitting the general public at a fee.

(F) *Open space ownership.* The type of ownership of land dedicated for open space purposes shall be selected by the owner, developer, or subdivider, subject to the approval of the City Council. The type of ownership may include, but is not necessarily limited to, the following:

Ellendale – Land Usage

- (1) The municipality, subject to acceptance by the City Council;
- (2) Other public jurisdictions or agencies, subject to their acceptance;
- (3) Quasi-public organizations, subject to their acceptance;
- (4) Homeowner, condominium, or cooperative associations or organizations; or
- (5) Shared, undivided interest by all property owners in the subdivision.

(G) *Homeowners association.* If the open space is owned and maintained by a homeowner or condominium association, the developer shall file a declaration of covenants and restrictions that will govern the association, to be submitted with the application for the preliminary approval. The provisions shall include, but are not necessarily limited to, the following:

- (1) The homeowners association must be established before the homes are sold;
- (2) Membership must be mandatory for each home buyer and any successive buyer;
- (3) The open space restrictions must be permanent, not just for a period of years;
- (4) The association must be responsible for liability insurance, local taxes, and the maintenance of recreational and other facilities;
- (5) Homeowners must pay their pro rata share of the cost, and the assessment levied by the association can become a lien on the property if allowed in the master deed establishing the homeowners association; and
- (6) The association must be able to adjust the assessment to meet changed needs.

(H) *Maintenance of open space areas.* The person or entity identified as having the right of ownership or control over the open space shall be responsible for its continuing upkeep and proper maintenance.

(I) *Preservation of natural features and amenities.* Existing features that would add value to residential development or to the local government as a whole, such as trees, watercourses, historic spots, or similar irreplaceable assets, shall be preserved in the design of the subdivision.

(J) *Appeal of open space and recreational lands.* The developer may appeal the open space and recreational land dedication or cash contribution requirements specified herein. However, the costs of conducting the study needed to prove the impacts from the development will not overburden the city's need for open space, recreational space, or the need to make improvements to the city's recreational space will be borne by the developer.

Penalty, see § 10.99

§ 151.085 ADEQUATE PUBLIC FACILITIES.

(A) *Generally.* No plat shall be approved unless the City Council determines that public facilities will be adequate to support and service the area of the proposed subdivision. The applicant shall, at the request of the Zoning Board and/or the City Council, submit sufficient information and data on the proposed subdivision to demonstrate the expected impact on public facilities by possible uses of the subdivision. Public facilities and services to be examined for adequacy will include roads and other transportation routes, sewerage, water service, storm water drainage facilities, and others as determined by city staff, Zoning Board, or City Council.

(B) *Extension policies.* All public improvements and required easements shall be extended through the subdivision on which new development is proposed. Streets, water lines, wastewater systems, drainage facilities, electric lines, and telecommunications lines shall be constructed through new development to promote the logical extension of public infrastructure. The City Council may require the applicant of a subdivision to extend off-site improvements to reach the subdivision or oversize required public facilities to serve anticipated future development as a condition of plat approval.

(C) *Trunk facilities and alternative installation.* Where a larger size water main, sanitary sewer, storm drain, or similar facility is required to serve areas outside the subdivision, the larger facility required shall be constructed. Additional costs shall be allocated pursuant to established city policies. The City Council may elect to install any or all of the required public improvements pursuant to a cash escrow agreement or other financial arrangements with the applicant.

Penalty, see § 10.99

§ 151.086 STREETS.

(A) *General requirements.*

(1) The arrangement of streets shall conform to the circulation plan of the Comprehensive Plan or the official map of the city.

(2) For streets not shown on the Comprehensive Plan or official map, the arrangement shall provide for the appropriate extension of existing streets.

(3) Residential streets shall be arranged so as to discourage through traffic and provide for maximum privacy.

(4) No subdivision shall be approved unless the area to be subdivided shall have frontage on and access from an existing street or road.

(5) Where a subdivision abuts or contains an existing street of inadequate width, sufficient additional width shall be provided to meet the standards referenced in Section 151.086(K).

(B) *Specific requirements.*

Ellendale – Land Usage

(1) *Dead-end streets.* Dead-end streets shall be prohibited, except as stubs to permit future street extension into adjoining tracts with possible temporary cul-de-sacs, as determined by the city. When a temporary cul-de-sac is constructed, a temporary turn-around facility may be required at the closed end in conformance with the cul-de-sac requirements.

(2) *Private streets and reserve strips.* Private streets and reserve strips shall be prohibited and no public improvement shall be approved for any private street. All streets shall be dedicated for public use. If any person applies to subdivide or replat any land or parcels adjoining an existing private street, the private street shall be required to be dedicated for public use and scheduled for improvement to public street standards at the time of final plat.

(3) *Restriction of access.* Access of residential access or residential subcollector streets onto residential collector or arterial streets shall be discouraged at intervals of less than 500 feet.

(4) *Marginal access streets.* Where a subdivision abuts or contains an existing or planned major arterial street or a railroad right-of-way, a marginal access street approximately parallel to and on each side of the arterial street or railroad right-of-way may be required for adequate protection or residential properties and separation of through and local traffic. The service streets shall be located at a distance from the major arterial or railroad right-of-way suitable for appropriate use of the intervening land, as for park purposes in residential districts or for commercial or industrial uses, as would be appropriate for the location. The distances also shall be determined with due regard to the requirements of approach grades and future grade separations.

(5) *Street jogs.* Street jogs with centerline off-sets of less than 150 feet shall not be allowed.

(6) *Deflection.* When connecting street lines deflect from each other at any one point by more than 10 degrees, they shall be connected by a curve with a radius of not less than 100 feet.

(7) *Vertical curves.* Different connecting street gradients shall be connected with vertical curves. Minimum length, in feet, of these curves shall be 20 times the algebraic difference in the percent of grade of the two adjacent slopes.

(8) *Corner radii.* Roadways of street intersections shall be rounded by a radius of not less than 15 feet. Corners at entrances to the turnaround portion of cul-de-sacs shall be rounded by a radius of not less than 15 feet.

(C) *Topography and arrangement.*

(1) Streets shall be related appropriately to the topography. Residential access streets and residential subcollector streets shall be curved wherever possible to avoid conformity of lot appearance. All streets shall be arranged so as to obtain as many building sites as possible at, or above, the grades of the streets. Grades of streets shall conform as closely as possible to the original topography. A combination of steep grades and curves shall be avoided.

(2) All streets shall be properly integrated with the existing and proposed system of roads and dedicated rights-of-way.

(3) All streets shall be properly related to special traffic generators such as industries, business districts, school, and churches; to population densities; and to the pattern of existing and proposed land uses.

(4) Residential access streets and residential subcollector streets shall be laid out to conform as much as possible to the topography to discourage use by through traffic, to permit efficient drainage and utility systems, and to require the minimum number of streets necessary to provide convenient and safe access to property.

(5) The rigid rectangular gridiron street pattern need not necessarily be adhered to, and the use of curvilinear streets or U-shaped streets shall be encouraged where the use will result in a more desirable layout.

(6) Proposed streets shall be extended to the boundary lines of the tract to be subdivided, unless prevented by topography or other physical conditions, or unless, in the opinion of the Zoning Board or City Council, the extension is not necessary or desirable for the coordination of the layout of the subdivision with the existing layout or the most advantageous future development of adjacent tracks.

(D) *Half width streets.* The dedication of half width streets following boundary lines of proposed subdivisions shall not be approved except as follows:

(1) Where a half street has been dedicated and recorded on the opposite side of the boundary line. In these cases, the dedication of matching of half streets shall be a requirement; and/or

(2) Where it is evident to the Zoning Board and/or the City Council that the proper layout of the proposed Plat cannot be satisfactorily completed in any other way.

(E) *Construction of half width right-of-way.* The construction of a street within a half width right-of-way is prohibited except as follows:

(1) When a half street is adjacent to side lot lines only; and

(2) Where a half width street right-of-way is adjacent to recorded or dedicated right-of-way on the opposite side of the property boundary line, the developer shall be required to grade the entire width of the driving surface, i.e., between gutters.

(F) *Street hierarchy.*

(1) Streets shall be classified in a street hierarchy system with the design tailored to its function.

(2) The street hierarchy system shall be defined by road function, as specified below:

(a) Residential access street - lowest order of residential street. Provides frontage for access to lots and carries traffic having destination or origin on the street itself. Designed to carry the least amount of traffic at the lowest speed;

Ellendale – Land Usage

(b) Residential subcollector street - middle order of residential street. Provides frontage for access to lots, and carries traffic of adjoining residential access streets. Designed to carry somewhat higher traffic volumes with traffic limited to motorists having origin or destination within the immediate neighborhood;

(c) Residential collector street - highest order of residential street. Conducts and distributes traffic between lower order residential streets to higher order streets (county or state roads). Carries the largest volume of traffic at higher speeds. Its function is to promote free traffic flow; therefore; direct access to homes from this street should be restricted;

(d) Cul-de-sac street - a street with a single means of ingress and egress and having a turnaround. Design of turnaround may vary. Cul-de-sacs shall be classified and designed according to anticipated daily traffic levels; and

(e) Alleys - alleys shall not be permitted in residential areas unless it can be shown that their use is essential to a proper plan, where alleys are used in a proposed business or industrial area, they shall not be less than 24 feet in width.

(G) *Roadway width.*

(1) Roadway width for each street classification shall be determined by parking and curbing requirements based upon form and intensity of development.

(2) Roadway width shall also consider possible limitations imposed by sight distances, climate, terrain, and maintenance needs. Additional roadway width may be required to promote public safety and convenience. In order to minimize street costs, the minimum width assuring satisfaction of needs shall be selected.

(3) Roadway widths for each street classification shall be determined on an individual basis upon review of the development plans by the city engineer.

(H) *Cul-de-sac.* A cul-de-sac shall not exceed 750 feet in length. The turn-around radius shall be no less than 45 feet.

(I) *Curbs and gutters.*

(1) Curb requirements shall vary according to street hierarchy and in accordance with the requirements shown in division (K). Curbing may also be required:

- (a) For storm water management;
- (b) To stabilize pavement edge;
- (c) To delineate parking areas;
- (d) Ten feet on each side of drainage inlets;

- (e) At intersections:
- (f) At corners; and
- (g) At tight radii.

(2) Where curbing is not required, some sort of edge definition and stabilization shall be furnished for safety reasons and to prevent pavement unraveling.

(3) Where curbing is required, this requirement may be waived and shoulders and/or drainage swales used when it can be shown that:

- (a) Shoulders are required by state regulations;
- (b) Soil or topography make the use of shoulders and/or drainage swales preferable; or
- (c) It is in the best interests of the community to preserve its rural character by using shoulders and/or drainage swales instead of curbs.

(4) The curbing requirement may be waived where front setbacks exceed 40 feet and it can be demonstrated that sufficient on-site parking exists.

(5) Flexibility regarding curb type shall be permitted as long as the curb type accommodates the system of drainage proposed.

(6) Curbing shall be designed to provide a ramp for bicycles and/or wheelchairs as required by law.

(7) Curbing shall be constructed according to the specifications established by the City Engineer.

(J) Shoulders.

(1) Shoulders and/or drainage swales shall be required instead of curbs when:

- (a) Shoulders are required by state law;
- (b) Soil or topography make the use of shoulders and/or drainage swales preferable; or
- (c) It is in the best interests of the community to preserve its rural character by using shoulders and/or drainage swales instead of curbs.

(2) Shoulder requirements shall vary according to street hierarchy and in accordance with the requirements shown in division (K) below.

(3) Shoulders shall measure four (4) feet in width on each side for all streets and shall be located

Ellendale – Land Usage

within the right-of-way as shown in division (K) below. The width of swales shall be determined by site specific conditions.

(4) Shoulders shall consist of stabilized turf or other material acceptable to the Zoning Board or City Council.

(K) Right-of-way.

(1) The right-of-way shall be measured from lot line to lot line and shall be sufficiently wide to contain the roadway, curbs, shoulders, sidewalks, graded areas, utilities, and shade trees (if placed within the right-of-way). Additional right-of-way widths may be required to promote public safety and convenience. Right-of-way requirements are shown in below.

(2) The right-of-way width of a new street that is a continuation of an existing street shall in no case be continued at a width less than that of the existing street.

<i>Right-of Way Width</i>				
<i>Street Classification</i>	<i>Roadway Width</i>	<i>Curb Required</i>	<i>Sidewalk or Graded Area</i>	<i>Total Right-of-Way</i>
Residential Access Street on-street parking - side	34 feet	curb	sidewalk 1 side graded area 1 side	50 feet
Residential Subcollector Street on-street parking - 1 side	34 feet	curb	sidewalk both sides	50 feet
Residential Subcollector Street on-street parking - 2 sided	38 feet	curb	sidewalk both sides	60 feet
Residential Collector Street on-street parking - 1 side	34 feet	curb	sidewalk both sides	60 feet
Residential Collector Street on-street parking - 2 sided	40 feet	curb	sidewalk both sides	72 feet
Cul-de-Sac Street	"a"	"a"	"a"	"a"

NOTES TO TABLE:

"a" - Denotes that the appropriate width of the roadway, the inclusion of a curb or shoulder, the requirement of a sidewalk or graded area, and then the required right-of-way width for a cul-de-sac is dependent upon the level of traffic the cul-de-sac is intended to carry, whether it is intended to be extended at some point in time as a through street, and if it is, what type of street it is likely to be.

(L) Street grade and intersections.

(1) *Generally.* The full width of the right-of-way of each street dedicated to the plat shall be graded, as specified in the Grading Plan and approved by the City Engineer.

(2) *Angle of intersection.* The angle formed by intersecting streets shall not be less than 75 degrees, with 90-degree intersections preferred.

(3) *Size of Intersection.* Intersections of more than four corners shall be prohibited.

(M) Pavement section.

(1) All streets and alleys shall be improved with concrete or bituminous surfaces, as specified in the construction plans and as approved by the City Engineer.

(2) Street pavement thickness shall vary by street hierarchy, subgrade properties, and pavement type.

(3) The wearcoat shall be applied to streets or roads within one year of their being paved and following at least one frost freeze.

(N) Sidewalks.

(1) Sidewalks shall be required where the city council determines it is in the public's best interests.

(2) Where sidewalks are optional, they may be required if the development is close to pedestrian generators or include pedestrian generators, or to continue an existing walkway along an existing street, or, depending upon probable future development, as indicated in the Comprehensive Plan.

(3) In conventional developments, sidewalks shall be placed in the right-of-way, parallel to the street, unless an exception has been permitted to preserve topographical or natural features or to provide visual interest, or unless the applicant shows that an alternative pedestrian system provides safe and convenient circulation. In commercial and in high density residential areas, sidewalks may abut the curb.

(4) The width of sidewalks shall generally conform to the following standards, however, please refer to division (K) for a more specific sidewalk standard as it is linked to road type:

(a) For single-family residential developments - five feet;

Ellendale – Land Usage

- (b) For multiple-family residential/public buildings - six feet;
- (c) For commercial areas - six feet; and
- (d) For industrial areas - six feet.

(O) Bikeways.

(1) Bicycle lanes, where required, shall be placed in the outside lane of a roadway, adjacent to the curb or shoulder. When on-street parking is permitted, the bicycle lane shall be between the parking lane and the outer lane of moving vehicles. Lanes shall be delineated with markings, preferably striping.

(2) Bikeways shall be constructed according to the specifications approved by the City Engineer.

(P) Utility and shade tree areas.

(1) Utilities and shade trees shall generally be located within the right-of-way on both sides of and parallel to the street.

(2) Utility areas shall be planted with grass or ground cover, or treated with other suitable cover material.

(Q) *Lighting.* Installation of street lights shall be required. At a minimum, the outdoor lighting requirements must conform to the following minimum standards.

(1) Lighting for safety shall be provided at intersections, along walkways, at entryways, between buildings, and in parking areas.

(2) Spacing of standards shall be equal to approximately four times the height of the standard.

(3) The maximum height of the standards shall not exceed the maximum building height permitted, or 25 feet, whichever is less.

(4) The height and shielding of lighting standards shall provide proper lighting without hazard to drivers or nuisance to residents, and the design of lighting standards shall be of a type appropriate to the development and the municipality.

(R) Underground wiring.

(1) All electric, telephone, television, and other communication lines, both main and service connections, servicing new developments shall be provided by underground wiring within easements or dedicated public rights-of-way, installed in accordance with the prevailing standards and practices of the utility or other companies providing the services.

(2) Lots that abut existing easements or public rights-of-way where overhead electric or telephone distribution supply lines and service connections have previously been installed may be supplied with

electric and telephone service from those overhead lines, but the service connections from the utilities' overhead lines shall be installed underground. In the case of existing overhead utilities, should a road widening, or an extension of service, or other such condition occur as a result of the subdivision and necessitate the replacement or relocation of the utilities, the replacement or relocation shall be underground.

(3) Where overhead lines are permitted, the placement and alignment of poles shall be designed to lessen the visual impact of overhead lines. Alignments and pole locations shall be carefully routed to avoid locations along horizons. Clearing swaths through treed areas shall be avoided by selective cutting and a staggered alignment; trees shall be planted in open areas and at key locations to minimize the view of the poles and the alignments; and alignments shall follow rear lot lines and other alignments.

(4) Year-round screening of any utility apparatus appearing above the surface of the ground, other than utility poles, shall be required.

(S) *Signs.*

(1) Design and placement of traffic signs shall follow applicable state or local regulations.

The design of street name signs shall be consistent, of a style appropriate to the community, and of a uniform size and color.

(3) Names of new streets shall not duplicate existing or platted street names unless a new street is a continuation of or is in alignment with the existing or platted street. In that event, it shall bear the name of the existing or platted street. Street names shall conform to the city street naming and property numbering system as applicable.

(4) Site information signs in planned developments shall follow a design theme that is related and complementary to other elements of the overall site design.

(A) *Generally.* All installations shall be properly connected with an approved and functioning public community water system.

(B) *Capacity.*

(1) The water supply system shall be adequate to handle the necessary flow based on complete development.

(2) The demand rates for all uses shall be considered in computing the total system demand. The system shall be capable of providing the required fire demand in addition to the required domestic demand.

(3) Fire protection shall be furnished for all developments. Minimum fire flows shall be

Ellendale – Land Usage

approved by the Fire Chief or City Engineer.

(4) The water system shall be designed to carry peak hour flows and be capable of delivering the peak hourly demands, as determined by the City Engineer.

(C) *System design and placement.* System design and placement shall comply with the construction specifications as approved by the City Engineer.

(D) *Fire hydrants.*

(1) Hydrants shall be spaced to provide necessary fire flows. The average area per hydrant shall not exceed 120,000 square feet. In addition, hydrants shall be spaced so that each residence shall be within 400 feet of a hydrant and shall be located no more than 1,000 feet apart.

(2) A hydrant shall be located at all low points and at all high points with adequate means of drainage provided.

(3) Hydrants shall be located at the ends of lines, and valves of full line size shall be provided after hydrant tees at the ends of all deadlines that may be extended in the future.

(B) *System design and placement.*

(1) The sanitary sewer system shall be adequate to handle the necessary flow based upon complete development.

(2) Average daily residential sewer flow shall be specified in plan submittals by the design engineer and as approved by the City Engineer.

(3) System design and placement shall be approved by the City Engineer.
Penalty, see § 10.99

§ 151.089 STORM WATER MANAGEMENT.

(A) *Generally.*

(1) No plan will be approved for a plat that is subject to periodic flooding or contains poor

drainage facilities until adequate drainage of the streets and lots is made possible.

(2) Design of the storm water management system shall be consistent with the applicable city, county, regional, or state storm drainage control regulations.

(3) The best available technology shall be used to minimize storm water runoff, increase on-site infiltration, encourage natural filtration functions, simulate natural drainage systems, and minimize off-site discharge of pollutants to ground and surface water. The technologies may include measures such as retention basins, recharge trenches, porous paving and piping, contour terraces, and swales.

(4) Drainage easements or land dedication may be required when the easements or land is needed in the public interest for purposes of proper drainage, prevention of erosion, or other public purpose. The owner shall furnish all necessary slope easements and drainage easements at no cost to the municipality.

(B) *System strategy and design.* Storm water management system design shall be approved by the City Engineer.

Penalty, see § 10.99

§ 151.090 EROSION AND SEDIMENT CONTROL.

(A) The development shall conform to the natural limitations presented by topography and soil, so as to create the least potential for soil erosion.

(B) Erosion and siltation control measures shall be coordinated with the different stages of construction. Appropriate control measures shall be installed prior to development when necessary to control erosion.

(C) Land shall be developed in increments of workable size, such that adequate erosion and siltation controls can be provided as construction progresses. The smallest practical area of land shall be exposed at any one (1) period of time.

(D) When soil is exposed, the exposure shall be for the shortest feasible period of time, as specified in the development agreement.

(E) Where the topsoil is removed, sufficient arable soil shall be set aside for respreading over the developed area. Topsoil shall be restored or provided to a depth of four inches and shall be of a quality at least equal to the soil quality prior to development.

(F) Natural vegetation shall be protected wherever possible.

(G) Runoff water shall be diverted to a sedimentation basin before being allowed to enter the natural drainage system. Storm water runoff from the developed site shall not, at any time, exceed the existing runoff level.

Penalty, see § 10.99

§ 151.091 SURVEY MONUMENTS.

All subdivision boundary corners block and lot corners, road intersection corners, and points of tangency and curvature shall be marked with survey monuments meeting the minimum requirements of state law. All U.S., state, county, and other official benchmarks, monuments or triangulation stations in or adjacent to the property shall be preserved in precise position, unless a relocation is approved by the controlling agency. All lot corner pipes or iron rods shall be a minimum of 1/2 inch in diameter, 18 inches in length, and shall be inscribed with the registration number of the land surveyor making the survey, as prescribed in M.S. Ch. 505, as it may be amended from time to time.

Penalty, see § 10.99

OFF-TRACT IMPROVEMENTS**§ 151.105 PURPOSE.**

This subchapter is intended to ensure a pro rata share allocation of the costs for off-tract improvements necessitated by new development.

§ 151.106 DEFINITION AND PRINCIPLES.

As a condition of final subdivision approval, the City Council may require an applicant to pay a pro rata share of the cost of providing reasonable and necessary circulation improvements and water, sewerage, drainage facilities, and other improvements, including land and easements, located off-tract of the property limits of the subdivision or development but necessitated or required by the development. "Necessary" improvements are those clearly and substantially related to the development in question. The City Council shall provide in its resolution of approval the basis of the required improvements. The proportionate or pro rata amount of the cost of the facilities within a related or common area shall be based on the following criteria.

§ 151.107 COST ALLOCATION.

(A) *Full allocation.* In cases where off-tract improvements are necessitated by the proposed development, and where no other property owner(s) receive(s) a special benefit, the applicant may be required at his or her sole expense and as a condition of approval, to provide and install improvements.

(B) *Proportionate allocation.* Where it is determined those properties outside the development will also be benefitted by the off-tract improvement; the following criteria shall be utilized in determining the proportionate share of the cost of the improvements to the developer.

(1) *For sanitary sewers.* The applicant's proportionate share of distribution facilities, including the

General Provisions

installation, relocation, or replacement of collector, trunk, and interceptor sewers, and associated appurtenances, shall be computed as follows:

- (a) The capacity and the design of the sanitary sewer system shall be based on standards specified or approved by the City Engineer;
- (b) The City Engineer shall provide the applicant with the existing and reasonably anticipated peak hour flows as well as capacity limits of the affected sewer system; and
- (c) If the existing system does not have adequate capacity to accommodate the applicant's flow given existing and reasonably anticipated peak-hour flows, the pro rata share shall be computed as follows:

$$\text{Developer's cost / Total cost of enlargement or improvement} = \frac{\text{Development generated gallons per day to be accommodated by the enlargement or improvement}}{\text{Capacity of enlargement or improvement (gals. per day)}}$$

(2) *For water supplies.* The applicant's proportionate share of water distribution facilities including the installation, relocation, or replacement of water mains, hydrants, valves, and associated appurtenances shall be computed as follows:

- (a) The capacity and the design of the water supply system shall be based on the standards specified or approved by the City Engineer;
- (b) The City Engineer shall provide the applicant with the existing and reasonably anticipated capacity limits of the affected water supply system in terms of average demand, peak demand, and fire demand; and
- (c) If the existing system does not have adequate capacity as defined above to accommodate the applicant's needs, the pro rata share shall be computed as follows:

$$\text{Developer's cost / Total cost of enlargement or improvement} = \frac{\text{Development generated gallons per day to be accommodated by the enlargement or improvement}}{\text{Capacity of enlargement or improvement (gals. per day)}}$$

(3) *For streets or roads.* The applicant's proportionate share of street improvements, alignment, channelization, barriers, new or improved traffic signalization, signs, curbs, sidewalks, trees, utility improvements not covered elsewhere, the construction or reconstruction of new or existing streets, and other associated street or traffic improvements shall be as follows:

- (a) The City Engineer shall provide the applicant with the existing and reasonably anticipated future peak-flows for the off-tract improvement; and
- (b) If the existing system does not have adequate capacity as defined above, the pro rata share shall be computed as follows:

Ellendale – Land Usage

Developer's cost / Total cost of enlargement or improvement = Development peak hour traffic to be accommodated by the enlargement or improvement / Capacity of enlargement or improvement (peak hour traffic)

(4) *For drainage improvements.* The applicant's proportionate share of storm water and drainage improvements including the installation, relocation, or replacement of storm drains, culverts, catch basins, manholes, riprap, improved drainage ditches and appurtenances, and relocation or replacement or other storm drainage facilities or appurtenances, shall be determined as follows:

(a) The capacity and the design of the drainage system to accommodate storm water runoff shall be computed by the developer 's engineer and approved by the City Engineer; and

(b) The capacity of the enlarged, extended, or improved system required for the subdivision and areas outside of the developer's tributary to the drainage system shall be determined by the developer's engineer subject to approval of the City Engineer. The developer's engineer shall prepare the plans for the system improvements and the estimated cost of the enlarged system calculated by the City Engineer. The pro rata share for the proposed improvements shall be computed as follows:

Developer's cost / Total cost of enlargement or improvement = Development generated peak rate of runoff expressed in cubic feet per second to be accommodated by the enlargement or improvement / Capacity of enlargement (total capacity expressed in cubic feet per second)

(5) *For other improvements.* The applicant's proportionate share of other capital improvements shall be computed as follows:

Developer's cost / Total cost of enlargement or improvement = Development share of enlargement or improvement / Capacity of enlargement or improvement

§ 151.108 ESCROW ACCOUNTS.

Where the proposed off-tract improvement is to be undertaken at some future date, the monies required for the improvement shall be deposited in a separate interest-bearing account to the credit of the city until the time as the improvement is constructed. If the off-tract improvement is not begun within two years of deposit, all monies and interest shall be returned to the applicant.

The documents to be submitted are intended to provide the municipality with sufficient information and data to assure compliance with all municipal codes and specifications and ensure that the proposed development meets the design and improvement standards contained in this chapter. The specification of documents to be submitted is based on the type of development and particular stage of development application.

(9) Non-illuminated signs not exceeding six square feet in surface area displayed strictly for the direction, safety, or convenience of the public, including signs which identify rest rooms, parking area entrances or exits, freight entrances, addresses, or similar signs are exempt from the provisions of this section.

(B) *General sign standards.*

(1) *Unsafe and unlawful signs.* If the Zoning Committee shall find that any sign regulated under this section is unsafe or insecure, or has been constructed or erected in violation of the provisions of this section, the City Clerk/Treasurer shall be instructed to give written notice to the owner thereof.

If the owner fails to remove or alter the structure so as to comply with the standards set forth in this section within 30 days after the notice, the sign may be removed or altered at the expense of the owner of the property upon which it is located. The sign may be removed summarily and without further notice.

(2) *Attachment to buildings.* All signs attached to a building shall be secured in a manner approved by the Zoning Committee, and shall be repaired and maintained to keep them secure, safe, and free from danger.

(3) *Safety obstructions.* No sign in the city shall obstruct access to fire escapes, windows, doors, exits, or standpipes.

Upon failure by any such owner, agent, or person to comply with the notice within the time specified in the order, the Zoning Committee is hereby authorized to cause removal of the sign. Any expense incident to the sign removal shall be paid by the owner of the building, structure, or lot to which the sign is attached.

(D) *Computations.*

(1) *Computation of area of individual signs.* The area of the sign face (which is also the sign area of a wall sign or other sign with only one face) shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display if used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when the fence or wall otherwise meets zoning ordinance regulations, and is clearly incidental to the display itself.

(2) *Computation of area on multi-faced sign.* The sign area for a sign with more than 1 face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back to back, so that both faces cannot be viewed from any one point at one time, and when the sign faces are part of the same structure and not more than 42 inches apart, the sign area shall be computed by the measurement of one of the faces.

(3) *Computation of height.* The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attachment component of the sign. Normal grade shall be construed to be the lower of existing grade prior to construction, or the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. In cases where the normal grade cannot be reasonably determined, sign height shall be computed on the assumption that the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street or the grade of the land at the principal entrance to the principal structure on the lot, whichever is lower.

(E) *Other permitted signs by zoning district.* Except as otherwise provided in this chapter, no sign shall be erected in the city, unless it is permitted in the district in which it is to be located or under the provisions of this section.

(1) *"A" Agricultural District.* In the "A" Agricultural District, only the following signs shall be permitted to be erected:

(a) *Roadside sign.* One sign per highway or street frontage, not to exceed 32 square feet, advertising farm products, or listing the real estate for sale or rent; and

(b) *Temporary signs.* Portable signs may be displayed for no longer than 40 days prior to and not more than seven working days after a special sale or promotion.

(2) *Residential districts.* In residential districts R-1 and R-M, the following signs shall be permitted to be erected.

(a) *Institutional signs.* One identification sign, not to exceed 24 square feet in surface area, for each building devoted to the following uses: church, school, hospital, library, or similar use. The sign shall be solely for the purpose of displaying the name of the institution or association and its activities or

Ellendale – Land Usage

services. In addition, a bulletin board may be permitted; provided that, a total of 30 square feet is not exceeded by both bulletin board and identification sign. The sign may be indirectly illuminated, but not flashing. No sign shall be erected closer than eight feet to any side or rear lot line nor closer to the front lot line than 1/2 the depth of the front yard. The sign, when affixed to a building shall not project higher than one story, or 20 feet above curb level, whichever is lower, and a ground sign shall not project higher than eight feet above ground level.

(b) *Identification signs.* An identification sign for apartment or institutional office building, not exceeding a surface area of 30 square feet or 3% of the wall area upon which it is placed, whichever is less, and indicating only the name and address of the building, occupant, or management. For corner lots, two (2) such signs, one (1) facing each street, may be displayed. The signs shall either be illuminated or non-illuminated, but shall not be flashing.

(c) *Real estate signs (for subdivisions).* Temporary real estate signs for approved subdivisions, not exceeding 30 square feet in surface area and limited to one for each major street entrance to the subdivision. The sign shall be set back at least 10 feet from each lot line. It may be indirectly illuminated, not flashing, and shall be removed following the completion of sale of property advertised. The sign shall not be more than 15 feet nor less than two feet, above ground level.

(d) *Temporary signs.* Portable signs may be displayed for no longer than 40 days prior to, nor more than seven working days after a special sale or promotion.

(3) *Business/commercial districts.* In the B-1 Highway Commercial District, and B-2 Central Business District, the following signs are permitted, subject to the following limitations.

(a) *Business or advertising signs.* The total surface area for all business signs, not to exceed three in number (except in a unified shopping center) on a lot, shall not exceed 2-1/2 square feet for each linear foot of street frontage of the lot. Commercial lots may have 1 freestanding sign. Additional freestanding signs are permitted provided a lot has a minimum of 100 feet of street frontage per freestanding sign. Wall signs shall not exceed 10% of the wall area as defined by this chapter. The percentage figure here shall mean the percentage of the wall area of the wall, which the sign is a part or to which each sign is most nearly parallel. No wall sign shall be permitted to project more than two feet above the roof or parapet line of the building, not extend more than 18 inches from the wall to which it is attached. One pylon or projection sign may be permitted for each separate street frontage of business occupancy; provided that the sign does not project more than 36 inches past the front property line and ground signs are limited to an overall maximum height of 28 feet.

(b) *Unified shopping center/multiple occupancy buildings.* In a unified shopping center/multiple occupancy building under single ownership or control, the total surface area of all business signs in the lot shall not exceed 2-1/2 square feet for each lineal foot of street frontage of the lot. The number of signs shall not exceed the number of shops located within the center. A unified shopping center may also erect one (1) additional business sign for each separate street frontage, not to exceed 350 square feet in area; and not to display more than the name and location of the shopping center.

(4) *Industrial districts.* In the 1-1 Industrial Districts, signs are permitted subject to the following limitations. In the 1-1 Industrial Districts, signs are permitted as and regulated under B

Business District; except that, in lieu of the permitted additional shopping center sign of 350 square feet, an identification sign for a unified industrial park of the same size, height, and location shall be allowed in addition to other business signs permitted under the 2-1/2 square feet for each lineal foot of frontage ratio.

(F) *Billboards and posterboard signs.* Billboards and posterboard signs as defined in the definitions section are permitted only on property defined below.

(1) *Location.* Billboards or posterboard signs shall be permitted in the following districts, subject to the requirements below. All properties which are zoned B-2 or I-1 and border Trunk Highway 60.

(2) *Size.* Billboard or posterboard sign structures shall not contain more than two signs per facing, nor shall the sum of the sign or signs exceed the length of 55 feet nor the surface area of 750 square feet.

(3) *Setback.* Billboard or posterboard sign structures must maintain a 25-foot minimum front yard setback off the property line. Where adjacent building structures within the same block have front yard setbacks different than those required, the front yard minimum setback shall be the average of the required setback and the actual setback of adjacent structures.

(4) *Distance from other uses.* No billboard or posterboard structure shall be permitted to be erected within 100 feet of an adjoining residential district boundary line or any public park, school, library, church, or government building. No billboard, posterboard, or advertising sign shall be located within 200 feet of a residential dwelling.

(5) *Spacing.* All billboard or posterboard sign structures shall be spaced at least 750 linear feet from another sign on the same side of the street right-of-way line.

(6) *Height.* The height of billboard or posterboard signs is limited to 40 feet above curb level.

(7) *Conditional use.* A conditional use permit may be requested for the placement of billboard or posterboard signs on property zoned A Agricultural District.

(8) *State statutes.* All billboard or posterboard sign structures are also subject to any provisions not provided for in this code, but cited in the Minnesota Outdoor Advertising Control Act, M.S. Ch. 173, as it may be amended from time to time.

(G) *Sign prohibitions and restrictions applicable in all zoning districts.* The construction of any type of sign within the city shall conform to the requirements of the State Building Code. In addition, the following prohibitions and general restrictions shall apply to signs in all zoning districts in the city.

(1) No sign, whether illuminated or not, shall obscure any traffic-control signal from the vision of any motorist, in a moving traffic lane, within 150 feet of the signal.

(2) No sign visible from the street shall use the work "stop" or "danger" or any other word, phrase, symbol, or character with the intent of simulating a public safety warning or traffic sign.

Ellendale – Land Usage

(3) Awning and marquee signs must be limited to places of public assemblage. Marquee signs may extend to two feet of the curb line, but no such sign shall be less than 10 feet in the clear above the level of the sidewalk, at its lowest level. On authorized marquees and awnings there may be placed a sign which may extend not more than four feet above nor more than one foot below the marquee or awning, but under no circumstance shall the sign be wider than eight feet.

(4) Any existing sign or logo painted directly to the surface of any wall shall be required to be repainted at least once every three years, and a sign permit shall be required for the painting. If the repainted sign should result in exceeding the total allowable sign area in the respective business or industrial district for the business sign, the sign shall be painted out or otherwise removed or reduced in area to conform to the limitations.

(5) Gooseneck and thin-line reflectors and lighting shall be permitted on illuminated signs; provided that, the reflectors and lighting do not extend more than eight feet beyond the sign structure to which it is attached and the illumination is focused directly upon the face of the sign to reduce possibility of direct light rays shining onto adjoining property or into the public right-of-way.

(6) No sign is permitted which purports to be or resembles an official traffic-control device, sign, or signal, or which hides from view or interferes in any material degree with the effectiveness of any traffic-control device, sign, or signal, or which obstructs or interferes with the driver's view of approaching, merging, or intersecting traffic for a distance of 500 feet.

(7) No sign is allowed which has flashing lights.

Penalty, see § 10.99

§ 152.219 TELECOMMUNICATION TOWERS AND ANTENNAE.

(A) *Purpose.* To accommodate the communication needs of residents and businesses while protecting the public health, safety, and general welfare of the community, the city finds that these regulations are necessary in order to:

(1) Facilitate the provision of wireless telecommunication services to the residents and businesses of the city;

(2) Minimize adverse visual effects of towers through careful site location and design standards;

(3) Avoid potential damage to adjacent properties from tower failure through structural standards and setback requirements; and

(4) Maximize the use of existing and approved towers and buildings to accommodate new wireless telecommunication antennas in order to reduce the number of towers needed to serve the community.

(B) *Required permits.* Prior to any construction activities, the following permits must be secured from the city.

(1) A zoning permit, as required by § 152.295 *et seq.*; and

(2) A conditional use permit, as required by this chapter, with attachments, as required by §§ 152.240 *et seq.*, and as required by the conditional use permit application.

(C) *Zoning district use.* Telecommunication towers and antennae will be allowed in any zoning district in the city upon the approval of the two permits required above. The conditional use permit is required regardless of the underlying zoning district.

(D) *Area, setback, and height restrictions.*

(1) *Lot area.* The minimum lot area requirements are determined by the zoning district in which the tower development site is located and as determined by any additional area needed to meet all setback requirements of this chapter.

(2) *Tower setbacks.* The minimum setback from all property lines and public rights of way for telecommunications towers shall be equal to its height, except for towers that are designed to collapse in upon themselves. For these later types of towers, the minimum yard setbacks are 1/2 the tower height or 50 feet, whichever is less.

(3) *Height restrictions.* A maximum height for telecommunications towers is 200 feet.

(E) *Co-location requirements.*

(1) A proposal for a new commercial wireless telecommunication service tower shall not be approved unless it can be documented by the applicant, as documented by a qualified and licensed engineer, that the telecommunication equipment planned for the proposed tower cannot be accommodated on an existing or approved tower, commercial building, or public structure within one (1) mile radius of the proposed tower site due to one or more of the following reasons.

(a) The planned equipment would exceed the structural capacity of the existing or approved tower or commercial building, and the existing or approved tower cannot be reinforced, modified, or replaced to accommodate planned or equivalent equipment at a reasonable cost.

(b) The planned equipment would cause interference materially impacting the usability of other existing or planned equipment at the tower or building and interference cannot be prevented at a reasonable cost.

(c) Existing or approved towers and buildings within the search radius (one mile) cannot accommodate the planned equipment at a height necessary to reasonably function.

(d) The applicant must demonstrate that a good faith effort to co-locate equipment on existing towers or structures within the one (1) mile radius, but an agreement could not be reached.

(2) Predominantly economic reasons for not pursuing co-location sites shall not be accepted and would generally be grounds for rejection of the application and/or denial of the conditional use permit.

(3) Any proposed commercial wireless telecommunication service tower shall be designed to

Ellendale – Land Usage

accommodate both the applicant's antennae and comparable antennae for at least two additional users. Towers must be designed to allow for future rearrangement of antennae upon the tower and to accept antennae mounted at varying heights.

(F) *Tower design requirements.* Proposed or modified towers and antennae shall meet the following design requirements.

(1) Towers and antennae shall be designed to blend into the surrounding environment through the use of color and camouflaging architectural treatment, except in instances where the color is dictated by federal or state authorities.

(2) Commercial wireless telecommunication service towers shall be of a monopole design unless the City Council determines that an alternative design would better blend into the surrounding environment. Towers must be self-supporting without the use of wires, cables, beams, or other means.

(G) *Construction requirements.*

(1) All antennae, towers, and accessory structures shall comply with all applicable provisions of this chapter.

(2) Towers shall be certified by a qualified and licensed professional engineer to conform to the latest structural standards and wind loading requirements of the Uniform Building Code and Electronics Industry Association.

(3) No part of any antenna or tower nor any lines, cable, equipment, wires, or braces in connection with either shall at any time extend across or over any part of the right-of-way, public street, highway, sidewalk, or property line.

(4) Towers and associated antennae shall be designed to conform with accepted electrical engineering methods and practices and to comply with the provisions of the National Electrical Code.

(5) All signal and remote control conductors of low energy extending substantially horizontally above the ground between a tower or antenna and a structure, or between towers, shall be at least eight (8) feet above the ground at all points, unless buried underground.

(6) Every tower affixed to the ground shall be protected by a security fence to discourage climbing of the tower by unauthorized persons.

(7) Tower locations should provide the maximum amount of screening possible for off-site views of the facility. Existing on-site vegetation shall be preserved to the maximum extent practicable. The area around the base of the tower and any accessory structures shall be landscaped and/or screened. See § 152.210.

(H) *Lights and other attachments.*

§ 152.242 FINDINGS.

No conditional use shall be recommended for approval by the Zoning Committee unless the committee shall find:

(A) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for permitted uses;

(B) That the establishment of the conditional use will not impede the normal and orderly development and improvement of surrounding vacant property for uses predominant in the area;

(C) That adequate utilities, access roads, drainage, and other necessary facilities have been or are being provided;

(D) That adequate measures have been or will be taken to provide sufficient off-street parking and loading space to serve the proposed use; and

(E) That adequate measures have been or will be taken to prevent or control offensive odor, fumes, dust, noise, and vibration, so that none of these will constitute a nuisance, and to control lighted signs and other lights in such a manner that no disturbance to neighboring properties will result.

§ 152.243 RECONSIDERATION.

Whenever an application for a conditional use permit has been considered and denied by the City Council, a similar application for a conditional use permit affecting substantially the same property shall not be considered again by the Zoning Committee or City Council for at least six months from the date of its denial; and a subsequent application affecting substantially the same property shall likewise not be considered again by the Zoning Committee or City Council for an additional six months from the date of the second denial.

§ 152.244 LAPSE OF CONDITIONAL USE PERMIT BY NON-USE.

Whenever within one (1) year after granting a conditional use permit the work as permitted has not been completed, then the permit shall become null and void unless a petition for extension of time in which to complete the work has been granted by the City Council. The extension shall be requested in writing and filed with the City Clerk/Treasurer at least 30 days before the expiration of the original conditional use permit. ADMINISTRATION; VARIANCE**§ 152.260 BOARD OF ADJUSTMENTS AND APPEALS.**

The City Council shall act as the Board of Adjustment and Appeals.

§ 152.261 WRITTEN REPORTS AND RECOMMENDATIONS TO BOARD TO BECOME PERMANENT RECORD.

The City Council serving as the Board of Adjustment and Appeals shall, after receiving the written reports and recommendations of the Zoning Committee, decide upon request for variance from the literal provisions of the ordinance in instances where strict enforcement would cause non-economic and undue hardship because of circumstances that are unique to the property under consideration.

§ 152.262 STANDARD FOR VARIATION.

(A) A variance to the provisions of this chapter may be issued by the Board of Adjustment to provide relief to the landowner in those cases where this chapter imposes undue hardship or practical difficulties to the property owner in the use of this land. No use variances (uses different than those allowed in the district) may be issued.

(B) A variance may be granted only in the event that all the following circumstances exist:

(1) The proposed variance must be in harmony with the general purposes and intent of the Land Use Ordinance.

(2) The proposed variance must be consistent with the comprehensive plan.

(3) The applicant for the proposed variance must establish that there are practical difficulties in complying with the Land Use Ordinance. "Practical difficulties," as used in connection with the granting of a variance, means that

(a) The property owner proposes to use the property in a reasonable manner not permitted by the Land Use Ordinance;

(b) The plight of the landowner is due to circumstances unique to the property not created by the landowner; and

(c) The variance, if granted, will not alter the essential character of the locality.

(d) Economic considerations alone do not constitute practical difficulties. Practical difficulties include, but are not limited to, inadequate lot size or shape, topography, inadequate access to direct sunlight for solar energy systems, or other circumstances over which the owner of the property has no control.

(4) No variance shall be permitted as to any use that is not allowed under the Land Use Ordinance for property in the zone where the affected person's land is located.

(5) The City Council may impose such restrictions or conditions upon the premises benefited by the variance as may be necessary to comply with the standards established by this Land Use Ordinance, or to reduce or minimize the effect of such variance upon other properties in the neighborhood, and to better carry out the intent of the variance. A condition must be directly related to and must bear a rough proportionality to the impact created by the variance.

§ 152.263 APPEAL OF ADMINISTRATIVE DECISIONS OR ORDERS.

The City Council serving as the Board of Adjustment shall, after receiving the written report and recommendation from the Zoning Committee, make a decision on appeals where it is alleged by the applicant that error has occurred in any order, requirement, decision, or determination made by the city in the enforcement of this chapter. However, the appeal shall be filed no later than 90 days after the applicant has received a written notice from the City Clerk/Treasurer, or the appeal shall be considered void.

(g) Other information or exhibits as required by the Zoning Committee and/or Board of Adjustment in making disposition and determinations on the application.

(B) Application processing.

(2) Upon receipt of a complete application by the City Clerk/Treasurer or Zoning Administrator, a copy of the completed application and attachments shall be forwarded immediately to the Zoning Committee. The Zoning Committee, at their next regularly scheduled meeting and following their review of the variance request, shall prepare a recommendation for the Board of Adjustment. It shall recommend one of three actions: approval, denial, or approval with special conditions. The recommendation shall be forwarded to the Board of Adjustment to be considered at a public hearing.

(3) The Board of Adjustment shall set the date for a public hearing and instruct the City Clerk/Treasurer to give notice of time, place, and purpose of the public hearing in the following manner:

(a) Notify by mail all property owners within 350 feet of the property at least 10 days prior to the date of the public hearing;

(D) Decision.

(1) The Board of Adjustment shall consider all potential adverse effects of the proposed variance and what, if any, additional requirements may be necessary to prevent the adverse effects. It shall also review the criteria listed in § 152.262 to ensure that the variance request conforms to the requirements listed.

(2) The Board of Adjustment shall hold a public hearing on the proposed variance and shall make a decision within 60 days of the official submission date. It shall take one of three actions: approval, denial, or approval with special conditions.

§ 152.265 RECONSIDERATION.

Whenever an application for a variance has been considered and denied by the Board of Adjustment, a similar application affecting substantially the same property shall not be considered again by the Zoning Committee or Board of Adjustment for at least six months from the date of its denial.

§ 152.266 APPEALS.

If the Board of Adjustment denies the application for a variance, the decision may be appealed to the court of competent jurisdiction.

§ 152.267 LAPSE OF VARIANCE OR APPEAL.

Whenever within one year after granting a variance or appeal the work as permitted by the variance or appeal shall not have been completed, then the variance or appeal shall become null and void unless a petition for extension of time in which to complete the work has been granted by the City Council.

The extension shall be requested in writing and filed with the City Clerk/Treasurer at least 30 days before the expiration of the original variance or appeal. There shall be no charge for the filing of the petition. The request for extension shall state facts showing a good faith attempt to complete the work permitted in the variance or appeal. The petition shall be presented to the Zoning Committee and the City Council for a decision.

§ 152.295 GENERALLY.

The Zoning Committee, with the help of the City Clerk/Treasurer and the Zoning Administrator, shall administer and enforce this chapter.

In the event that a Zoning Committee has not been appointed, the City Council shall be the acting Zoning Committee. In the event that a Zoning Administrator has not been appointed, the City Clerk/Treasurer shall be the acting Zoning Administrator.

If the members of the Zoning Committee, the City Clerk/Treasurer, or Zoning Administrator find that any of the provisions of this chapter are being violated, the City Clerk/Treasurer or Zoning Administrator shall be directed to notify, in writing, the person responsible for the violation, indicating the nature of the violation and ordering the action necessary to correct it. § 152.319 DUTIES OF CITY CLERK/TREASURER, ZONING ADMINISTRATOR, ZONING COMMITTEE AND CITY COUNCIL

(A) *City Clerk/Treasurer and Zoning Administrator.* It is the intent of this chapter that all questions on interpretation and enforcement shall first be presented to the City Clerk/Treasurer or the Zoning Administrator.

(B) *Zoning Committee.* It is further the intent of this chapter that the Zoning Committee shall conduct public hearing in order to collect evidence and to hear all parties who may be interested in the resolution of an issue. Thereafter, the Committee shall make the recommendations as it deems appropriate to the Council concerning all matters which may arise under this chapter, including, but not limited to, conditional use permits, appeals from the interpretation and enforcement of this chapter by the City Clerk/Treasurer or Zoning Administrator, and variances from the literal provisions of this chapter. The Zoning Committee shall be advisory to the City Council.

(C) *City Council.* It is further the intent of this chapter that the duties of the City Council shall include a careful consideration of the recommendations provided by the Zoning Committee and the making of the ultimate decision concerning the merits of the application for a conditional use permit, appeal from the interpretation of the zoning ordinance by the City Clerk/Treasurer or Zoning Administrator, or for the issuance of a variance. The City Council may hear comments from the applicant, the City Clerk/Treasurer, or Zoning Administrator, as it deems appropriate in the consideration of its decision. However, the City Council shall not conduct public hearing unless it determines that the issue under consideration is of significant and compelling importance to the city. If such a public hearing is to be conducted by the City Council, then the notice provisions of this chapter shall be followed. The city and the applicant shall bear the cost of providing notice to the public hearing held by the Council pursuant to this chapter.

(D) *Notice and hearing.* In all cases where a public hearing is required under this chapter the City Clerk/Treasurer shall cause to have published in the official newspaper a notice of the time, place, and purpose of the hearing. When the area of land involved is five acres or less, a similar notice shall be sent by first-class mail to each owner of the affected property and to the owners of property situated wholly or partly within 350 feet of the affected property. Publication and mailing notices shall be made not less than 10 days nor more than 30 days prior to the date of the hearing. For the purpose of giving mailed notice, the City Clerk/Treasurer may use any appropriate record to determine the names and addresses of owners. A copy of the notice and a list of the owners and addresses to which the notice was sent, shall be attested to by the City Clerk/Treasurer and shall be made a part of the records of the proceedings. For purposes of computing the 10 days of notice, the day after publication or mailing, shall be counted as the first day. Saturdays, Sundays, or any other day made a legal holiday by the city, state, or federal governments shall be included in the computation unless the tenth day of the period falls on such a day, when it shall not be counted. The failure to give mailed notice to individual property owners, or defects in the notice shall not invalidate the proceedings. Upon evidence that adequate notice has been served, at least 1 public hearing shall be held on each application. The applicant or duly authorized representative shall be present at the public hearings. Absence of the applicant or duly authorized representative shall be sufficient cause to deny the application. All other persons wishing to be heard at a hearing shall be heard although reasonable limitations may be imposed concerning time or subject materials at the discretion of the Commission or Council conducting the hearing.
